

empower the Minister to revoke a licence. For him to attempt to do so simply because it would generate additional revenue for the Treasury was a 'misuse of power'.³⁷

Congreve might broadly be construed as supporting the notion that 'misuse of power' is a distinct sub-category of the illegality doctrine. As such, it would demand that courts always be willing to inquire into the motives which underlay the impugned decision. That inquiry was unproblematic in *Congreve* itself, as the Home Secretary candidly stated that his purpose was to raise money. In other cases, where the defendant was less forthcoming, an inquiry into motives could lead the court into rather delicate political territory. The case might therefore better be construed more narrowly, as an illustration of the simple point that the courts have consistently maintained that governmental powers to levy taxation can only be created by explicit statutory language.³⁸

The uncertainties inherent in the 'four corners of the Act' characterisation of illegality are further magnified when we recall the judicial presumption that many (if not most) statutory provisions can properly be regarded as 'always speaking'.³⁹ This point is nicely illustrated—in respect of a rather prosaic issue—by the judgment of the House of Lords in *Akumah v LB of Hackney*.⁴⁰ Mr Akumah had repeatedly parked his car on a local council housing estate in breach of the parking scheme that the local authority had established. He had received a good many penalty tickets and eventually his car was impounded. The issue before the court was whether the council derived the power to run such a scheme from s 21(1) of the Housing Act 1985. Section 21(1) was cast in very general terms:

The general management, regulation and control of a local housing authority's houses is vested in and shall be exercised by the authority and the houses shall at all times be open to inspection by the authority.⁴¹

Section 21(1) of the 1985 Act was a re-enactment of a provision first enacted in the 1930s, at a time when very few people owned cars and there was no need for councils to control parking. Seventy years later, car parking had become an important issue in many cities, but Parliament had not altered the text of the original provision to give local authorities express powers to deal with the matter.

The interpretive technique adopted by the House of Lords in *Akumah* might be seen as either teleological or always speaking in nature:

21 [I]s inherent in the management of houses in a housing estate that parking on the estate should be regulated. Unregulated parking could in many housing estates lead to congestion of the roads and the unavailability of places for residents to park their cars if other persons can park there at will. It is also important to ensure access for service and emergency vehicles to the houses on the estate. Those factors are clearly capable of affecting the amenity of life for the residents and their access to and enjoyment of their houses and flats on the estate. I find no difficulty in accepting that safeguarding and improving that amenity and facilitating that access and enjoyment are proper functions of a council managing a housing estate.⁴²

As in *Fulliam* however, it is difficult to fashion a compelling argument to support the proposition that the House of Lords could not have equally credibly come to the opposite

Discerning Critical Hope in Educational Practices Vivienne Bozalek, Brenda Leibowitz, Ronelle Carolissen, Megan Boler, 2013-12-04 How can discerning critical hope enable us to develop innovative forms of teaching learning and social practices that begin to address issues of marginalization privilege and access across different contexts At this millennial point in history questions of cynicism despair and hope arise at every turn especially within areas of research into social justice and the struggle for transformation in education While a sense of fatalism and despair is easily recognizable establishing compelling bases for hope is more difficult This book addresses the absence of sustained analyses of hope that simultaneously recognize the hard edges of why we despair The volume posits the notion of critical hope not only as conceptual and theoretical but also as an action oriented response to despair Our notion of critical hope is used in two ways it is used firstly as a unitary concept which cannot be disaggregated into either hopefulness or criticality and secondly as an analytical concept where critical hope is engaged and diversely theorized in ways that recognize aspects of individual and collective directions of critical hope The book is divided into four sub sections Critical Hope in Education Critical Hope and a Critique of Neoliberalism Critical Race Theory Postcolonial Perspectives on Critical Hope Philosophical Overviews of Critical Hope Education can be a purveyor of critical hope but it also requires critical hope so that it as a sector itself can be transformative With contributions from international experts in the field the book will be of value to all academics and practitioners working in the field of education

Natural Law and Thomistic Juridical Realism Petar Popovic, 2022-02-04 This book proposes a rather novel legal philosophical approach to understanding the intersection between law and morality It does so by analyzing the conditions for the existence of a juridical domain of natural law from the perspective of the tradition of Thomistic juridical realism In order to highlight the need to reconnect with this tradition in the context of contemporary legal philosophy the book presents various other recent jurisprudential positions

regarding the overlap between law and morality While most authors either exclude a conceptual necessity for the inclusion of moral principles in the nature of law or refer to the purely moral status of natural law at the foundations of the legal phenomenon the book seeks to elucidate the essential properties of the juridical status of natural law In order to establish the juridicity of natural law the book explores the relevant arguments of Thomas Aquinas and some of his main commentators on this issue above all Michel Villey and Javier Hervada It establishes that Thomistic juridical realism observes the juridical phenomenon not only from the perspective of legal norms or subjective individual rights but also from the perspective of the primary meaning of the concept of right ius namely the just thing itself as the object of justice In this perspective natural rights already possess a fully juridical status and can be described as natural juridical goods In addition from the viewpoint of Thomistic juridical realism we can identify certain natural norms or principles of justice as the juridical title of these rights or goods The book includes an assessment of the prospective points of dialogue with the other trends in Thomistic legal philosophy as well as with various accounts of the nature of law in contemporary legal theory Modern Art: A Critical Introduction Pam Meecham, Julie Sheldon, 2013-11-26 A revised and updated edition of one of the most successful Critical Introductions textbooks New features include marginal notes and colour photos New innovative structure based on feed back from teachers focusing on how modern art has been understood rather than a straight chronological account of movements

A Critical Introduction to European Law Ian Ward, 2003-04 This book discusses the history and institutional framework of the EU without becoming mired in the minutiae of black letter law It provides an accessible introduction for students to current critical academic commentary on European law **Rights of Nature in Liberal Legal Systems and International Law** Jasper Mührel, 2024-12-19 Rights of nature are on the rise worldwide having already been recognized in several states especially in Latin America and Asia For the first time in a monograph this book offers answers to the questions of whether and how rights of nature can also be implemented in Western liberal legal systems and in international law It traces how the latter are characterized by a deeply rooted anthropocentrism While at first glance this seems to make the recognition of rights of nature difficult to conceive the book shows that in the 21st century this strong anthropocentrism is neither helpful nor irrevocable and that non anthropocentric approaches can already be found in liberal legal systems and in international law Against the backdrop of the pressing environmental crises of the Anthropocene it offers liberal and international approaches to rights of nature In doing so the book analyzes the compatibility of rights of nature with Western liberal and international law and deals comprehensively with the criticism and potential benefits of rights of nature in order to ultimately provide concrete proposals for their implementation A Critical Introduction to Law Wade Mansell, Belinda Meteyard, Alan Thomson, 2015-06-26 Challenging the usual introductions to the study of law A Critical Introduction to Law argues that law is inherently political and reflects the interests of the few even while presenting itself as neutral This fully revised and updated fourth edition provides contemporary examples to demonstrate the relevance of these arguments in the

twenty first century The book includes an analysis of the common sense of law the use of anthropological examples to gain external perspectives of our use and understanding of law a consideration of central legal concepts such as order rules property dispute resolution legitimation and the rule of law an examination of the role of law in women s subordination and finally a critique of the effect of our understanding of law upon the wider world Clearly written and admirably suited to provoking discussions on the role of law in our contemporary world this book is ideal for undergraduate and postgraduate students reading law and will be of interest to those studying legal systems and skills courses jurisprudence courses and law and society **Question & Answer Constitutional and Administrative Law** Christopher W. Taylor, Dr Chris Taylor, 2019
