**Understanding How Women Vote** Kelly L. Winfrey, 2018-11-09 Uncovering the psychological and sociological reasons for the gender gap in American politics this fascinating volume explores how such factors influence women and lead to their political beliefs and behaviors Based on original research with women voters of varying ages around the United States from 2008 to the present the book delves into differences between voting women and men and indeed among women themselves The gender gap the author argues exists because women's social identity is tied to their group memberships and gender role beliefs Thus rather than grouping all women into one voting bloc the book examines how gender identity influences various sub groups of women It begins with a discussion of the gender gap in voting preferences throughout history then goes on to explore the roles of feminism and women's connectedness to their gender group as a primary cause of the gender gap in voting The remaining chapters discuss how these factors influence women's political engagement policy positions and candidate preferences

*Feminism Seduced* Hester Eisenstein, 2015-12-03 In a pioneering reinterpretation of the role of mainstream feminism Eisenstein shows how the ruling elites of developed countries utilize women's labor and the ideas of women's liberation and empowerment to maintain their economic and political power both at home and abroad Her explorations range from the abolition of welfare as we know it and the ending of the family wage in the United States to the creation of export processing zones in the global South that depend on women's nimble fingers and from the championing of microcredit as a path to women's empowerment in the global South to the claim of women's presumed liberation in the West as an ideological weapon in the war on terrorism Eisenstein challenges activists and intellectuals to recognize that international feminism is at a fateful crossroads and argues that it is crucial for feminists to throw in their lot with the progressive forces that are seeking alternatives to globalized corporate capitalism
