daily lives and recounts their struggle to make a future for themselves following slavery's abolition in 1888. Through painstaking archival research he illuminates the hopes, difficulties, opportunities and setbacks of ex-slaves and plantation owners alike as they adjusted to their postabolition environment. Breaking new ground in Brazilian historiography, Fraga does not see an abrupt shift with slavery's abolition; rather, he describes a period of continuous change in which the strategies, customs and identities that slaves built under slavery allowed them to navigate their newfound freedom. Fraga's analysis of how Recife's residents came to define freedom and slavery more accurately describes this seminal period in Brazilian history while clarifying how slavery and freedom are understood in the present.

Mega-event Cities: Urban Legacies of Global Sports Events Valerie Viehoff, Gavin Poynter, 2016-03-02. Mega events represent an important moment in the life of a city, providing a useful lens through which we may analyse their cultural, social, political and economic development. In the wake of the International Olympic Committee's IOC's concerns about gigantism and wider public concerns about rising costs, it was imperative in the 21st century to demonstrate the long-term benefits that arose for the city and nations from hosting premier sporting events. London 2012 was the first to integrate the concept of legacy from the moment a bid to host the Olympic and Paralympic Games was being considered. London proposed an ambitious programme of urban renewal for East London. Subsequent host city bids have adopted the legacy narrative, and as this book demonstrates, aligned this to major schemes of urban development and renewal. Bringing together scholars, practitioners and policy makers, this book focuses upon the legacies sought by cities that host major sports events. It analyses how governments, the IOC and others define and measure legacy. It also focuses upon the challenges and opportunities facing future host cities of mega events, looking at their aspirations and the intended impact upon their domestic and international development. It questions what the global shift in geographical location of mega events means for sports development and the business of sport, what the attractions are for cities seeking to harness the hosting of a mega event, and whether there may be longer-term consequences for the bidding and hosting major sporting events in the wake of the widespread social unrest that accompanied the preparations in Brazil for hosting the FIFA World Cup 2014 and the summer Olympics 2016, and in Turkey where there was significant opposition to bid for the 2020 summer Olympiad.
