Insurrection: Rebellion, Civil Rights, and the Paradoxical State of Black Citizenship Hawa Allan, 2022-01-04

A brilliant debut by lawyer and critic Hawa Allan on the paradoxical state of black citizenship in the United States The little known and under studied 1807 Insurrection Act was passed to give the president the ability to deploy federal military forces to fend off lawlessness and rebellion but it soon became much more than the sum of its parts Its power is integrally linked to the perceived threat of black American equity in what lawyer and critic Hawa Allan demonstrates is a dangerous paradox While the Act was initially used to repress rebellion against slavery during Reconstruction it was invoked by President Grant to quell white supremacist uprisings in the South During the civil rights movement it enabled the protection of black students who attended previously segregated educational institutions Most recently the Insurrection Act has been the vehicle for presidents to call upon federal troops to suppress so called race riots like those in Los Angeles in 1992 and for them to threaten to do so in other cases of racial justice activism Yet when the US Capitol was stormed in January 2021 the impulse

to restore law and order and counter insurrectionary threats to the republic lay dormant Allan s distinctly literary voice underscores her paradigm shifting reflections on the presence of fear and silence in history and their shadowy impact on the law Throughout she draws revealing insight from her own experiences as one of the only black girls in her leafy Long Island suburb as a black lawyer at a predominantly white firm during a visit from presidential candidate Barack Obama and as a thinker about the use and misuse of appeals to law and order Elegant and profound deeply researched and intensely felt *Insurrection* is necessary reading in our reckoning with structural racism government power and protest in the United States

Riots and Militant Occupations Alissa Starodub, Andrew Robinson, 2018-09-07 *Riots and Militant Occupations* provides students with theoretical reflections and qualitative case studies on militant contentious political action across a range from across Europe to Nigeria China and Turkey This multi authored interdisciplinary collection adopts an interpretive and participatory approach to examining meanings affects embodiment identity relationality and space in the context of riots and protests The rapidly shifting terrain of riots and occupations has left existing social scientific theories lagging behind challenging dominant constructions of agency and rationality This book will fill this gap by offering new understandings and critical perspectives on the question of what happens in space in time and between people during and after riots Weaving together observations experiences and analyses of riots from participants theorists and social scientists the authors craft theoretical perspectives in close connection with researched practices These perspectives take the form of new theoretical contributions on the spatiality affectivity and immanent meaning of riots and grassroots qualitative case studies of particular events and contexts Countering the preconceptions of riots as a trail of broken windows burned dumpsters and angry conservatives this book aims to demonstrate that riots are fundamentally creative generating forms of meaning power knowledge affect social connection and participatory space which are rare and sociologically important in the modern world

Media Spectacle and Insurrection, 2011 Douglas Kellner, 2012-11-02 For the inaugural book in our Critical Adventures in New Media series Douglas Kellner elaborates upon his well known theory which explores how media spectacle can be used as a key to interpreting contemporary culture and politics Grounded in both cultural and communication theory Kellner argues that politics war news and information media events like terrorist attacks or royal weddings and now democratic uprisings are currently organized around media spectacles and demonstrates how and why this has occurred Rooting the discussions within key events of 2011 including the war in Libya the Arab Uprisings the wedding of William Windsor to Kate Middleton the killing of Osama bin Laden and the Occupy movements *The Time of the Spectacle* makes a highly relevant contribution to the field of media and communication studies It offers a fresh perspective on the theme of contemporary media spectacle and politics by adopting an approach that is based around critical social and cultural theory This series gives students a strong critical grounding from which to examine new media [The International Spread of Ethnic Conflict](#) David A. Lake, Donald Rothchild, 2020-10-06 The wave of ethnic conflict that has recently swept across parts of Eastern Europe the

former Soviet Union and Africa has led many political observers to fear that these conflicts are contagious Initial outbreaks in such places as Bosnia Chechnya and Rwanda if not contained appear capable of setting off epidemics of catastrophic proportions In this volume David Lake and Donald Rothchild have organized an ambitious sophisticated exploration of both the origins and spread of ethnic conflict one that will be useful to policymakers and theorists alike The editors and contributors argue that ethnic conflict is not caused directly by intergroup differences or centuries old feuds and that the collapse of the Soviet Union did not simply uncork ethnic passions long suppressed They look instead at how anxieties over security competition for resources breakdown in communication with the government and the inability to make enduring commitments lead ethnic groups into conflict and they consider the strategic interactions that underlie ethnic conflict and its effective management How why and when do ethnic conflicts either diffuse by precipitating similar conflicts elsewhere or escalate by bringing in outside parties How can such transnational ethnic conflicts best be managed Following an introduction by the editors which lays a strong theoretical foundation for approaching these questions Timur Kuran Stuart Hill Donald Rothchild Colin Cameron Will H Moore and David R Davis examine the diffusion of ideas across national borders and ethnic alliances Without disputing that conflict can spread James D Fearon Stephen M Saideman Sandra Halperin and Paula Garb argue that ethnic conflict today is primarily a local phenomenon and that it is breaking out in many places simultaneously for similar but largely independent reasons Stephen D Krasner Daniel T Froats Cynthia S Kaplan Edmond J Keller Bruce W Jentleson and I William Zartman focus on the management of transnational ethnic conflicts and emphasize the importance of domestic confidence building measures international intervention and preventive diplomacy

Uprisings in Eighteenth-Century Britain Monika Barget,2023-10-19 This study examines how the British Empire of the 18th century contained revolution by integrating opposition agents as new spaces of power opened up Monika Barget convincingly argues that this process of constitutionalisation meant that groups from the aristocracy to religious communities from the army to the people at large were brought into the system in a way that balanced the obvious serious challenges that the Glorious Revolution the Jacobite Rebellion the American Revolution and Jacobin threats of the late 18th century posed to the Empire Barget highlights the lasting political and legal repercussions of this process The structure of the chapters each focussing on specific agents and conflict media also links the history of political agency and political institutions with an expanding European and even trans continental media market

Peasant Uprisings in Seventeenth-Century France, Russia and China Roland Mousnier,2021-09-05 This book first published in 1971 is a close analysis of some of the typical peasant uprisings of the seventeenth century The goal of the movements in France and China was a return to an older and more traditional society rather than a profound transformation of the social structure In Russia however the peasants attempted to overturn the rigid order of a two class structure and replace it with a more democratic society
