Rise And Fall Of Mikhail Gorbachev:

Gorbachev I. D. Oppenheim, 1991 **Rise and Fall of Mikhail Gorbachev** Thomson Learning Australia, *The Rise and Fall of Gorbachev* Dmitrii Mikheev, 1992 One such puzzle is the phenomenon of Gorbachev Dozens of books and thousands of articles have already been written about his upbringing his decisions his words his image his career and his behavior His wife close associates friends and enemies have written books about him Yet the real Gorbachev as man and as politician still defies explanation Perhaps the most striking paradox of the Gorbachev puzzle is the fact that a leader so admired around the world could be so hated despised and pitied by so many people in his own country He captured the imaginations of the world and was talked about as a new messiah yet so many of his countrymen when asked about Gorbachev could hardly fight back their loathing toward the man who changed the world The political dimension of Gorbachev's saga is the drama of gaining enormous power and losing it all **The Rise and Fall of the Soviet**

Economy Philip Hanson, 2014-09-11 Why did the Soviet economic system fall apart Did the economy simply overreach itself through military spending Was it the centrally planned character of Soviet socialism that was at fault Or did a potentially viable mechanism come apart in Gorbachev's clumsy hands Does its failure mean that true socialism is never economically viable The economic dimension is at the very heart of the Russian story in the twentieth century Economic issues were the cornerstone of Soviet ideology and the Soviet system and economic issues brought the whole system crashing down in 1989-91 This book is a record of what happened and it is also an analysis of the failure of Soviet economics as a concept The Rise and Fall of the East Yasheng Huang, 2023-01-01 The long history of China's relationship between stability diversity and prosperity and how its current leadership threatens this delicate balance Riveting Tunku Varadarajan Wall Street Journal A Foreign Affairs Best Book of 2023 Chinese society has been shaped by the interplay of the EAST exams autocracy stability and technology from ancient times through the present Beginning with the Sui dynasty's introduction of the civil service exam known as Keju in 587 CE and continuing through the personnel management system used by the Chinese Communist Party CCP Chinese autocracies have developed exceptional tools for homogenizing ideas norms and practices But this uniformity came with a huge downside stifled creativity Yasheng Huang shows how China transitioned from dynamism to extreme stagnation after the Keju was instituted China's most prosperous periods such as during the Tang dynasty 618-907 and under the reformist CCP occurred when its emphasis on scale the size of bureaucracy was balanced with scope diversity of ideas Considering China's remarkable success over the past half century Huang sees signs of danger in the political and economic reversals under Xi Jinping The CCP has again vaulted conformity above new ideas reverting to the Keju model that eventually led to technological decline It is a lesson from China's own history Huang argues that Chinese leaders would be wise to take seriously *The Rise and Fall of the Soviet Empire* Raymond Pearson, 2002-07-04 The Rise and Fall of the Soviet Empire describes and explains the creation maintenance and eventual demise of the Soviet regime across post 1945

Eastern Europe Balancing internal factors such as resilient nationalism against external factors such as America's acceleration of the arms race Raymond Pearson sets the so called Soviet Empire within the broader context of global imperialism and decolonisation Full coverage is also given to the dramatic episodes of Eastern Europe dissent and the chequered career of the ostensibly monolithic Soviet Empire This revised and updated second edition features an expanded final chapter on the Last Empire assessing not only its patent strengths and hidden weaknesses but also its much publicised vices and rarely acknowledged virtues New documentation that has only become available in the last five years has been incorporated to provide a fuller retrospective historical judgement on the Soviet regime across Eastern Europe [The Rise and Fall of the Soviet Union](#) Epic Epoch,2025-04-29 The Rise and Fall of the Soviet Union by Epic Epoch Disclaimer This is an original work of historical non fiction by Epic Epoch How did the world's largest country collapse without a single bomb dropped This is the gripping story of the USSR from Lenin's revolution to Stalin's terror Khrushchev's promises and Gorbachev's unraveling Learn how idealism met corruption and how the Cold War ended without war at all We can't predict the future But we can preserve the past Mikhail Gorbachev Step into the factories gulags and summits that shaped modern geopolitics and see how the Soviet dream turned into a bureaucratic nightmare P S Whether you lived through the Cold War or only heard stories this is the book that connects the dots Why Choose Us Epic Epoch Epic History Told Simply Bold vivid cinematic storytelling Clear concise and never boring Real takeaways Real history Disclaimer Once Again This is an original book written and published by Epic Epoch It is not a summary or affiliated with any other work **Red October: The Rise and Fall of the Soviet Regime** Pasquale De Marco,2025-05-14 In the annals of history few experiments have been as ambitious transformative and ultimately tragic as that of the Soviet Union Spanning seven tumultuous decades this colossal enterprise sought to reshape the world in the image of communism leaving an indelible mark on humanity's collective memory This comprehensive and captivating book delves into the heart of the Soviet experience unraveling the intricate tapestry of events decisions and personalities that shaped its destiny From the ashes of the Russian Empire we witness the birth of the Bolshevik Revolution and the rise of Vladimir Lenin the charismatic leader who ignited the flames of communism We follow the Soviet Union's tortuous path through industrialization collectivization and the Great Purge as Joseph Stalin's iron fist grips the nation Through the lens of ordinary citizens we experience the hardships hopes and dreams of those who lived under the Soviet regime We witness the sacrifices they made the compromises they endured and the resilience they displayed in the face of adversity We encounter dissidents and reformers visionaries and tyrants all playing their part in the grand drama of Soviet history We traverse the harrowing years of World War II witnessing the Soviet Union's resilience in the face of Nazi Germany's onslaught We explore the ideological battles of the Cold War the space race and the Cuban Missile Crisis as the world teeters on the brink of nuclear annihilation We navigate the labyrinthine corridors of the Kremlin observing the power struggles political intrigues and economic challenges that plagued the Soviet leadership The collapse of

the Soviet Union in 1991 marked a seismic shift in the global geopolitical landscape The world watched in awe as the Iron Curtain crumbled and the Soviet republics declared their independence Yet the legacy of the Soviet Union continues to cast a long shadow over Russia and the world shaping political discourse international relations and cultural identities This book is an essential guide to understanding this fascinating and complex chapter in human history Through a blend of rigorous research vivid storytelling and insightful analysis it provides a comprehensive overview of the Soviet Union s rise reign and eventual collapse It is a must read for anyone seeking to unravel the enigmas of this vanished empire and its enduring impact on the modern world If you like this book write a review on google books

Rise & Decline Bruce Thatcher, 2017-05 *Rise & Decline* is a political science work that examines the history of six republics to identify common elements in their rise decline and extinction Ancient Athens the Roman Republic the Polish Lithuanian Commonwealth and the Third Republic of France have all passed from the world scene The United Kingdom and the United States of America still exist but are in decline While many things can cause the end of a nation these studies show that the normal life cycle of a nation its birth rise maturity decline expiration is determined by the degree to which its citizens accept the principles upon which it was founded its raison d tre Nations in ascendance are characterized by a critical mass of citizens attuned to their founding principle As they decline nations are characterized by growing numbers of citizens who are indifferent to or disdainful of founding principles History is clear All nations end The existential question for Americans is not whether we can prevent it

The Rise and Fall of Peace on Earth Michael Mandelbaum, 2021-01-02 In *The Rise and Fall of Peace on Earth* Michael Mandelbaum examines the peaceful quarter century after the end of the Cold War He describes how the period came about and why it ended arguing that individual countries overturned peaceful political and military arrangements in Europe Asia and the Middle East thereby affecting the rest of the world He also probes prospects for the revival of peace in the future and stresses the importance of democracy and civil liberties across borders

The Fall of the Soviet Union, 1991 Susan Sales Harkins, William H. Harkins, 2020-02-04 Soviet History begins with bloodshed oppression and strife Civil War stained the Russian landscape with the blood of its people after Nicholas II abdicated his throne to a provisional government The Bolsheviks wanted Russia and eventually they took her Peasants became citizens with rights but the truth is the civil war only changed the name of their oppressor from czar to Communist dictator After decades of isolation and sometimes harsh living conditions Mikhail Gorbachev ushered in an age of reform but in doing so he made enemies Then Boris Yeltsin championed reform and the rights of the people When Communist hard liners made one last effort to regain control Yeltsin held his ground Unlike its birth the death of the Soviet Union saw little bloodshed After seventy years even the Communist hard liners no longer had the stomach for killing citizens to keep control The union dissolved in 1991

The Rise of Russia and the Fall of the Soviet Empire John B. Dunlop, 1995-04-23 This is the first work to set one of the great bloodless revolutions of the twentieth century in its proper historical context John Dunlop pays particular attention to Yeltsin s role in opposing the

covert resurgence of Communist interests in post coup Russia and faces the possibility that new institutions may not survive long enough to sink roots in a traditionally undemocratic culture *Rethinking the Rise and Fall of Apartheid* Adrian Guelke, 2017-03-16 Providing a much needed antidote to recent revisionist attempts to rehabilitate apartheid this major new text by a leading authority offers a considered and substantive reassessment of the nature endurance and significance of apartheid in South Africa as well as the reasons for its dramatic collapse Paying particular attention to the international dimension as well as the domestic the author assesses the impact of anti apartheid protest of changing attitudes of Western governments to the apartheid regime and the evolution of South African government policies to the outside world

Legitimacy in International Relations and the Rise and Fall of Yugoslavia John Williams, 2016-07-27 This book develops a conceptual model of legitimacy as a value judgement in international relations in contrast to Weberian and legal approaches The model is based on the interaction of the states systemic value of order with a liberal ideal of the state and a free market liberal international economy Whilst formulated as a principally Western model the analysis of the rise and fall of Yugoslavia and the international response points towards a wider applicability as well as confirming the value of the concept as an analytical tool **The Rhetorical Rise and Demise of “Democracy” in Russian Political Discourse, Volume 3** David

Cratis Williams, Marilyn J. Young, Michael K. Launer, 2024-02-20 In Volume Three of this four volume series we examine the rhetorical development that occurred during the first two terms of Vladimir Putin s tenure as president of the Russian Federation Initially Putin appeared to follow in the path set by his predecessor Boris Yeltsin vowing that Russia was at heart a European nation and would be a westward facing democracy going forward He even mentioned partnering with the EU and NATO Eight years later at the 2007 Munich Security Conference Putin excoriated the West for in his words attempting to create a unipolar world in which NATO expansion threatened Russia s security the United States acted as the world s sole hegemon and Europe simply followed orders relinquishing any sense of agency in its own affairs **Asad's Legacy** Eyal

Ziser, 2001 Hafez al Asad d 2000 ruled Syria for 30 of its 55 year history as a modern state Zisser Moshe Dayan Center for Middle Eastern and African studies Tel Aviv U offers a balanced view of Asad s role in elevating Syria to a stable major Middle East player but with a legacy of authoritarianism and struggles over succession Includes maps of Syria s frontier with Israel and Lebanon c Book News Inc *The Rise and Fall of the Soviet Union* Laurie Stoff, 2006 Presents a collection of

primary and secondary documents offering varying opinions on the Soviet Union **Robustness and Fragility of Political Orders** Richard Ned Lebow, Ludvig Norman, 2022-11-24 A comparative interdisciplinary volume on the robustness and fragility of political orders that focuses on leader understandings and their consequences It includes studies of failed orders like the Weimar Republic and the Soviet Union current orders like the United States regional orders such as the European Union and international orders *The Logic of the Cold War* Tian-jia Dong, 2018-08-24 The Cold War revealed for the first time in human history the logic of human togetherness which indicated that it was not only necessary for nation states to live

together but also possible for them to do so. The necessity was because of the inescapably shared vulnerability of mutually assured destruction not only in terms of security but more so in economic well being and political stability. The possibility was due to the unipolar world structure sustained by the global governance web of interdependent partnership which worked powerfully between the power agents to ensure the best of all possible worlds. This latent governance system was both hierarchical and dynamic because its power was connective in the sense that power was rooted in one another and the ability to be interdependent by empowering other power agents and sharing vulnerability at the same time was the way of becoming the nucleus on the global web of interdependent partners and hence gaining power in transforming one another connectively and governing the world collectively. George Kennan's patience in building up hard and soft powers within individual power agents of the web and Wilson Roosevelt's institutionalization of collective power above each power agent contributed to the construction of the system. The Soviet big brotherly governing type was proven a failure. *When the World Seemed New* Jeffrey A. Engel, 2017. The untold story of how George H W Bush faced a critical turning point of history: the end of the Cold War based on unprecedented access to heretofore classified documents and dozens of interviews with key policymakers.
