Rising River:

Water-supply Paper ,1929 *Daily River Stages at River Gage Stations on the Principal Rivers of the United States* ,1966 **River Republic** Daniel McCool,2012-08-07 Daniel McCool not only chronicles the history of water development agencies in America and the way in which special interests have abused rather than preserved the country s rivers he also narrates the second brighter act in this ongoing story the surging grassroots movement to bring these rivers back to life and ensure they remain pristine for future generations The culmination of ten years of research and observation McCool s book confirms the surprising news that America s rivers are indeed returning to a healthier free flowing condition The politics of river restoration demonstrates how strong grassroots movements can challenge entrenched powers and win Through passion and dedication ordinary people are reclaiming the American landscape forming a river republic of concerned citizens from all backgrounds and sectors of society As McCool shows the history culture and fate of America is tied to its rivers and their restoration is a microcosm mirroring American beliefs livelihoods and an increasing awareness of what two hundred years of environmental degradation can do McCool profiles the individuals he calls instigators who initiated the fight for these waterways and despite enormous odds have succeeded in the near impossible task of challenging and changing the status quo Part I of the volume recounts the history of America s relationship to its rivers part II describes how and why Americans parted them out destroying their essence and diminishing their value and part III shows how society can live in harmony with its waterways while restoring their well being and by extension the well being of those who depend on them *Ecological Research Series* ,1978 **A Comparison of Three Flooding Regimes Atchafalaya Basin, Louisiana** Johannes L. Silt in the Aswan Reservoir Naguib Boullos,1959 **Literature and the Metaphoric Universe in the Mind** Nicolae Babuts,2017-07-05 Nicolae Babuts believes that the study of metaphoric thought and literature can be enriched by the application of recent discoveries from neuroscientific c experiments He maintains that metaphors are neither linguistic formations nor conceptual formations but instead the product of association of images and language They are a matter of vision Memory is an essential component in the creation of meaning and is the way the mind receives messages from the outside world In this process of transferring data from the outside world the mind s overriding tendency is to integrate and interpret Thus incoming messages are recognized and given meaning whether they are in harmony with the inner world of the mind or in confl ict with it Babuts argues that the literature we read is related to our perception of reality And reality has two identities the physical identity of the outside world and its symbolic identity within memory The symbolic identity of the outside world is represented internally by the metaphoric universe in the mind **Yearbook of Agriculture** ,1939
