Risk Management In Posttrust Society

Arpad Szakolczai

Risk Management In Posttrust Society:

Risk and Uncertainty in a Post-Truth Society Sander van der Linden, Ragnar E. Löfstedt, 2019-06-10 This edited volume looks at whether it is possible to be more transparent about uncertainty in scientific evidence without undermining public understanding and trust With contributions from leading experts in the field this book explores the communication of risk and decision making in an increasingly post truth world Drawing on case studies from climate change to genetic testing the authors argue for better quality evidence synthesis to cut through the noise and highlight the need for more structured public dialogue For uncertainty in scientific evidence to be communicated effectively they conclude that trustworthiness is vital the data and methods underlying statistics must be transparent valid and sound and the numbers need to demonstrate practical utility and add social value to people s lives Presenting a conceptual framework to help navigate the reader through the key social and scientific challenges of a post truth era this book will be of great relevance to students scholars and policy makers with an interest in risk analysis and communication

Post-Truth Society Arpad Szakolczai, 2021-11-29 It is widely asserted that we are now living in a post truth society What that means this book argues is that the contemporary global world is thoroughly infested not only with trickster figures but an entire and operational trickster logic or that we now live in a Trickster Land an argument advanced by the claim that in modernity liminality has become permanent or that modern life is patently absurd The first part of the book presents a series of guides to this condition in the form of key thinkers and writers who can help us understand and navigate our Trickster Land Such guides include Hermann Broch Lewis Hyde Roberto Calasso Michel Serres S ndor M rai Colin Thubron and Albert Camus The second part goes on to discuss five main regions of Trickster Land art thought the economy politics and society This last central chapter of the book contrasts trickster logic with the basic foundational logic of social life presented as gift giving by Marcel Mauss and as sociability by Georg Simmel and which is expressed here combining Heraclitus and Plato with the Gospel of John by three basic terms of ancient Greek culture as arkh charis logos meaningful social life originally and in its essence is animated by the power of kind benevolence This volume will appeal to scholars of social theory anthropology and sociology with interests in political thought and contemporary culture

Risk and Crisis Management in the Public Sector Lynn T. Drennan, Adina Dudau, Allan McConnell, Alastair Stark, 2024-06-27 Risk and Crisis Management in the Public Sector 3rd edition is a guide for public managers and public management students which combines practical and scholarly knowledge about risk and crisis management together in a single accessible text In the uncertainty of the twenty first century public managers need to know how to identify risks and plan for crises how to respond to uncertain events and emergencies and how to develop resilience This book provides this fundamental knowledge with reference to a range of contemporary cases including COVID 19 the war in Ukraine and global cyber crime crises It also explores the international transboundary and multi agency dimensions of risk and crisis management This fully updated new edition explores the cutting edge of risk and crisis management scholarship

provides an extensive series of tools and practical guidance for public managers who deal with uncertainty and draws on a wealth of classic and contemporary case studies This content equips readers and public managers with the knowledge and skills to understand key issues and debates as well as the capacity to treat risks and better prepare for respond to and recover from crisis episodes This book is essential reading for students studying public management risk management and crisis management as well as professionals in the public management sector A History of Risk Science Terje

Aven,2025-08-15 Risk has been handled as long as there have been humans on Earth However the risk field is a young discipline systematic attempts to access and handle risk explicitly conceptualizing and expressing risk in society are a recent endeavour This book presents a history of risk science and risk analysis highlighting concepts and principles for understanding assessing communicating managing and governing risk The author presents and discusses key contributions to risk science using a historical lens and from the perspective of a risk scientist The book strengthens our understanding of what risk science is and how it has evolved by exploring fundamental topics such as risk characterization risk perception risk communication risk handling and decision making and concludes with reflection on the future of risk science and in particular what we can learn from its history A History of Risk Science will be essential reading for risk researchers and graduate students as well as scholars from associated fields applying risk related analysis to their work *Media,*

Technology and Education in a Post-Truth Society Alex Grech,2021-07-08 This interdisciplinary collection of essays explores the impact of media emerging technologies and education on the resilience of the so called post truth society Post-Truth

Imaginations Kjetil Rommetveit,2021-11-29 This book engages with post truth as a problem of societal order and for scholarly analysis It claims that post truth discourse is more deeply entangled with main Western imaginations of knowledge societies than commonly recognised Scholarly responses to post truth have not fully addressed these entanglements treating them either as something to be morally condemned or as accusations against which scholars have to defend themselves for having somehow contributed to it Aiming for wider problematisations the authors of this book use post truth to open scholarly and societal assumptions to critical scrutiny Contributions are both conceptual and empirical dealing with topics such as the role of truth in public deep penetrations of ICTs into main societal institutions the politics of time in neoliberalism shifting boundaries between fact value politics science nature culture and the importance of critique for public truth telling Case studies range from the politics of nuclear power and election meddling in the UK over smart technologies and techno regulation in Europe to renewables in Australia The book ends where the Corona story begins as intensifications of Modernity s complex dynamics requiring new starting points for critique *Sustainable Risk Management* Peter A.

Wilderer,Ortwin Renn,Martin Grambow,Michael Molls,Klaus Mainzer,2017-12-21 Here expert authors delineate approaches that can support both decision makers as well as their concerned populations in overcoming unwarranted fears and in elaborating policies based on scientific evidence Four exemplary focus areas were chosen for in depth review namely The

scientific basis of risk management Risk management in the area of environmental and ecological policy Risk management in radiation medicine Risk management in context with digitalization and robotics General as well as specific recommendations are summarized in a memorandum Fundamental thoughts on the topic are presented in the introductory part of the book The idea for and contents of the book were developed at a workshop on Sustainable Risk Management How to manage risks in a sensible and responsible manner held in Feldafing at Lake Starnberg Germany on April 14 to 16 2016 The book offers important information and advice for scientists entrepreneurs administrators and politicians

The Art of Making Decisions Under Uncertainty Charles Yoe, 2025-09-04 Uncertainty is a part of every decision we make from the everyday to the high stakes from personal choices to professional strategy The Art of Making Decisions Under Uncertainty offers a clear practical approach to dealing with the unknown without getting stuck or overwhelmed Rather than treating uncertainty as a barrier this book invites readers to see it as a constant companion something to work with not work against Drawing on proven tools real world examples and a wealth of practical insight it shows how to make thoughtful informed decisions even when information is incomplete priorities are competing and the path forward feels anything but clear This is not a theory heavy treatise It is a textbook guide for real people facing real decisions Grounded in decision science but written for a broad audience it bridges the gap between technical complexity and everyday practicality Whether you're leading a team managing risk shaping policy or simply trying to make better personal choices this book meets you where you are with tools that work language that makes sense and encouragement to move forward with clarity and confidence Inside you'll find straightforward frameworks to help you recognize and manage different types of uncertainty Practical tools and techniques you can use right away to make sound decisions in fast moving or high pressure situations Case studies and examples that bring the concepts to life and show how they apply in work leadership and daily life Fresh perspectives on failure bias and risk helping you not only avoid common pitfalls but turn setbacks into sources of insight If you've ever hesitated at a crossroads second guessed a big decision or wished for more clarity in a world that rarely offers it this book is for you The Art of Making Decisions Under Uncertainty is your companion in making better choices when certainty is out of reach but a good decision is still within your grasp

Risk and Uncertainty in a Post-Truth Society Sander van der Linden, Ragnar E. Löfstedt, 2019-06-10 This edited volume looks at whether it is possible to be more transparent about uncertainty in scientific evidence without undermining public understanding and trust With contributions from leading experts in the field this book explores the communication of risk and decision making in an increasingly post truth world Drawing on case studies from climate change to genetic testing the authors argue for better quality evidence synthesis to cut through the noise and highlight the need for more structured public dialogue For uncertainty in scientific evidence to be communicated effectively they conclude that trustworthiness is vital the data and methods underlying statistics must be transparent valid and sound and the numbers need to demonstrate practical utility and add social value to people's lives Presenting a conceptual

framework to help navigate the reader through the key social and scientific challenges of a post truth era this book will be of great relevance to students scholars and policy makers with an interest in risk analysis and communication

The Handbook of International Crisis and Risk Communication Research Andreas Schwarz,Matthew W. Seeger,Sora Kim,2025-04-22 Global Insights on Navigating Today s Complex Crises Now in its second edition The Handbook of International Crisis and Risk Communication Research offers a timely and comprehensive exploration of the methods challenges and innovations in managing present day global crises and risks Bringing together expert insights from across the fields of communication public relations and social sciences this interdisciplinary volume examines crisis and risk communication through an international lens Each chapter presents unique cultural theoretical and methodological perspectives for managing risk mitigating crises and fostering resilience Amid growing transnational issues such as public health emergencies climate induced disasters and political upheavals the Handbook emphasizes the role of communication in crisis awareness recovery and renewal Contributions by leading scholars and practitioners investigate vital issues such as the impact of misinformation digital technologies and media dynamics in shaping public perception and policy response This revised and expanded edition also reflects recent global threats including climate change the COVID 19 pandemic the war in Ukraine and other cross border crises Equipping readers with the knowledge and frameworks necessary to navigate an increasingly complex and interconnected world The Handbook of International Crisis and Risk Communication Research is perfect for advanced graduate courses and PhD programs in crisis and risk communication as well as crisis managers public relations consultants communication officers and scholars in risk management and communication

A Player's Guide to the Post-Truth Condition Steve Fuller,2020-11-20 A Player s Guide to the Post Truth Condition The Name of the Game presents sixteen short readable chapters designed to leverage our post truth condition s deep historical and philosophical roots into opportunities for unprecedented innovation and change Fuller offers a bracing proactive and hopeful vision against the tendency to demonize post truth as the realm of fake news and bullshit Where others see threats to the established order Fuller sees opportunities to overturn it This theme is pursued across many domains including politics religion the economy the law public relations journalism the performing arts and academia not least academic science The red thread running through Fuller s treatment is that these domains are games that cannot be easily won unless one can determine the terms of engagement which is to say the name of the game This involves the exercise of modal power which is the capacity to manipulate what people think is possible Once the necessarily true appears to be only contingently so then the future suddenly becomes a more open space for action This was what frightened Plato about the alternative realities persuasively portrayed by playwrights in ancient Athens Nevertheless Fuller believes that it should be embraced by denizens of today s post truth condition

Art's Realism in the Post-Truth Era Amanda Boetzkes,Maryse Ouellet,2024-05-31 Arguing for the necessity of taking art s contribution to contemporary realism seriously this edited collection intervenes on contemporary

debates about realism by demonstrating that the arts do not simply illustrate philosophical theories The significance of art s realism in times characterised by the normalisation of fake manipulated and distorted representations of reality can only be fully understood by attending to the ways that the arts mediate visualise and even shape reality Each chapter features a different approach to realism and its aesthetic dimensions not only in the visual arts but also in sound art film scientific imaging and literature

The Truth Society Noelle Molé Liston,2020-11-15 Noelle Mol Liston s The Truth Society seeks to understand how a period of Italian political spectacle which regularly blurred fact and fiction has shaped how people understand truth mass mediated information scientific knowledge and forms of governance Liston scrutinizes Italy s late twentieth century political culture particularly the impact of the former prime minister and media mogul Silvio Berlusconi By doing so she examines how this truth bending political era made science logic and rationality into ideas that needed saving With the prevalence of fake news and our seeming lack of shared reality in the post truth world many people struggle to figure out where this new normal came from Liston argues that seemingly disparate events and practices that have unfolded in Italy are historical reactions to mediatized political forms and particular cultivated ways of knowing Politics then is always sutured to how knowledge is structured circulated and processed The Truth Society offers Italy as a case study for understanding the remaking of politics in an era of disinformation

Social Development Roar Sundby,2020-03-10 Rapidly changing societies demand reflection This book is centred on social developments within European society and includes the collected perspectives and issues of several countries The book emphasises unresolved problems and discusses possible solutions In particular it gives a voice to vulnerable and marginalised groups The articles in this book aim to support the understanding of society and to improve the practice of social work

Research, Practices, and Innovations in Global Risk and Contingency Management Strang, Kenneth David,Korstanje, Maximiliano E.,Vajjhala, Narasimha,2018-01-12 Risk management is a vital concern in any organization In order to succeed in the competitive modern business environment the decision making process must be effectively governed and managed Research Practices and Innovations in Global Risk and Contingency Management is a critical scholarly resource that provides an all encompassing holistic discussion of risk management and perception while giving readers innovations on empirical risk contingency management research and case studies Featuring coverage on a broad range of topics such as contingency planning project management and risk mitigation this book is geared towards academicians practitioners and researchers seeking current research on risk and contingency management issues

Politics and Technology in the Post-Truth Era Anna Visvizi,Miltiadis D. Lytras,2019-05-07 This book examines the relationship between information and communication technology ICT and politics in a global perspective

COVID-19 Jamie K. Wardman,Ragnar Löfstedt,2022-11-28 This comprehensive book looks at COVID 19 along with other recent infectious disease outbreaks with the broad aim of providing constructive lessons and critical reflections from across a wide range of perspectives and disciplinary interests within the risk analysis field The chapters in this edited volume probe

the roles of risk communication risk perception and risk science in helping to manage the ever growing pandemic that was declared a public health emergency of international concern in the beginning of 2020 A few chapters in the book also include relevant content discussing past disease outbreaks such as Zika Ebola and MERS CoV This book distils past and present knowledge appraises current responses introduces new ideas and data and offers key recommendations which will help illuminate different aspects of the global health crisis It also explores how different constructive insights offered from a risk perspective might inform decisions on how best to proceed in response as the pandemic continues The chapters in this book were originally published as a special issue of the Journal of Risk Research

Free Movement of Legal Ideas Thomas Wilhelmsson,2024-07-11 This seminal book develops a new perspective on the debate concerning the Europeanisation of private law The theory is both realistic building on existing experience and normative as it focuses on the future It outlines good Europeanisation in which legal sources can be used across borders hence the free movement of legal ideas At its core is the analysis of the legal consequences of growing societal uncertainty and increasing use of micro politics leading to a situation where the law develops through small narratives rather than according to a coherent master plan The inevitable rule of law concerns around such a development have to be addressed by transparent legal reasoning The author masterfully illustrates how this can be achieved in decision making across Europe drawing on arguments which are both substantive and authoritative in nature He shows how all legal actors including decision makers and scholars are morally responsible for the choices made This is a fascinating intervention in the field of European private law by one of its leading authorities

Has It Come to This? J.P. Sapinski,Holly Jean Buck,Andreas Malm,2020-11-13 Geoengineering is the deliberate and large scale intervention in the Earth s climate system in an attempt to mitigate the adverse effects of global warming Now that climate emergency is upon us claims that geoengineering is inevitable are rapidly proliferating How did we get into this situation where the most extreme path now seems a plausible development Is it an accurate representation of where we are at Who is this we who is talking What options make it onto the table Which are left out Whom does geoengineering serve Why is the ensemble of projects that goes by that name so salient even though the community of researchers and advocates is remarkably small These are some of the questions that the thinkers contributing to this volume are exploring from perspectives ranging from sociology and geography to ethics and Indigenous studies The editors set out this diverse collection of voices not as a monolithic unified take on geoengineering but as a place where creative thinkers students and interested environmental and social justice advocates can explore nuanced ideas in more than 240 characters

Responsible Research and Innovation Actions in Science Education, Gender and Ethics Fernando Ferri,Ned Dwyer,Saša Raicevich,Patrizia Grifoni,Husne Altiok,Hans Thor Andersen,Yiannis Laouris,Cecilia Silvestri,2018-02-06 This book gathers case studies presented at the International Conference on Responsible Research and Innovation in Science Innovation and Society RRI SIS2017 It highlights European initiatives and projects in various domains and contexts each of which explores

how to create guidelines and good practices for Responsible Research and Innovation and how to promote them among citizens industry stakeholders policy and decision makers research funders and educational institutions to foster their adoption as a potential benchmark in establishing RRI processes Further the book discusses gender and ethical issues which are highly relevant for RRI initiatives in connection with representativeness risks and in some cases minority rights
