John Henry Newman's An Essay in Aid of a Grammar of Assent: A Critical Guide Frederick D. Aquino, Matthew Levering, 2025-04-01 John Henry Newman's Essay in Aid of a Grammar of Assent is a masterpiece of religious epistemology providing astute descriptive analysis of how the human mind actually works in addressing itself to reality as well as a novel prescriptive vocabulary for fruitfully considering the assent involved in Christian belief While it is rightly numbered among the most important of Newman's writings the Grammar is a difficult and complex work combining rigorous theoretical argumentation with deeply personal reflection In this Critical Guide to Newman's Grammar editors Frederick D Aquino and Matthew Levering have assembled ten original essays on the work's historical background and key themes and ideas Topics discussed include Newman's distinctions of real and notional apprehension and real and notional assent his treatment of the role of conscience and dogmatic propositions in religious reasoning his understanding of faith and rationality his notions of the illative sense and the role of inference in intellectual inquiry and his view of the relation between natural and revealed religion The contributing authors are an international array of noteworthy Newman scholars including Frederick D Aquino Christopher Cimorelli John F Crosby Logan Paul Gage Stephen Grimm Thomas S Hibbs Lorraine Keller Andrew Meszaros Francesca Aran Murphy Cyril O Regan and Geertjan Zuijdwegt This collection of essays presents the riches of the Grammar in conversation with contemporary philosophical and theological concerns guiding readers into its central topics while also advancing its scholarly reception

Silvano Maggiani OSM **Understanding the Diaconate** W. Shawn McKnight, 2018-07-13 What is a deacon More than fifty years since the restoration of the permanent diaconate by the Second Vatican Council the office of deacon is still in need of greater specificity about its purpose and place within the mission and organizational structure of the Church While the Church is more than a social reality the Church nonetheless has a social reality Our understanding of the diaconate therefore benefits from a theological discussion of the divine element of the Church and a sociological examination of the human element Understanding the Diaconate adds the resources of sociology and anthropology to the theological sources of scripture liturgy patristic era texts theologians and magisterial teachings to conclude that the deacon can be understood as social intermediary and symbol of *communitas* who serves the participation of the laity in the life and mission of the Church This research proposes the deacon as a servant of the bond of communion within the Church facilitating the relationship between the bishop priest and his people and between the People of God and the individual in need Thus authentic diaconal ministry includes a vast array of many concrete contexts of pastoral importance where one does more than simply serve at Mass

Beck, 2023-05-01 For generations religion and music have been regarded as universals yet despite the fact that they have been frequently linked throughout history and topography and despite the importance of music in the early stages of religious studies their combined presence has not until now been considered a separate area of study and research While there are well developed fields of anthropology of religion psychology of religion and philosophy of religion the widely recognized connections between religion and sound chant and music warrant comparable study Drawing upon theories and methods in the study of both religion and music referencing examples from world religious traditions and addressing challenges posed by critics this book envisions a unified field for religion and music musicology of religion Grounded in the scope and methods of phenomenology and comparative analysis musicology of religion represents an innovative direction in interdisciplinary study enriched by the social sciences ethnomusicology philosophy theology liturgical studies and cognitive studies As conceived musicology of religion will spearhead new and creative paths in the study of religion

The Trinitarian Wisdom of God: Louis Bouyer's Theology of the God-World Relationship Keith Lemna, 2022-12-16 Christian theology in recent decades has seen an explosion in the number of books published seeking a renewal of Trinitarian ontology There has also been a proliferation of studies dedicated to the theology of Wisdom Few if any of these books on the Trinity or on Wisdom have drawn for inspiration on the comprehensive vision of French Oratorian priest Louis Bouyer 1913 2004 one of the greatest theologians of the modern age Bouyer produced a comprehensive work of theology that integrated these two seminal concerns based on a vast re sourcing of the Christian tradition Dr Keith Lemna explores Bouyer's achievement in depth showing that at the heart of his venture was a deep contemplative penetration into God's mediation to the world his creation sustenance and redemption of creation in the Wisdom of the Eternal Son Bouyer is a decisive resource for theologians wanting to develop the Christian understanding of

the Trinity and creation based on tradition but in dialogue with modern cosmological thought The Trinitarian Wisdom of God Louis Bouyer s Theology of the God World Relationship gets to the heart of Louis Bouyer s theology of the God World relationship more deeply than any other has done before In doing so Lemna recovers a great theologian at his best A *Glossary of Liturgical Terms* Dennis C. Smolarski, SJ, Monsignor Joseph DeGrocco, 2018-01-31 This unique reference book provides concise definitions for words names and titles that practitioners and students of contemporary Roman Catholic liturgy may encounter Father Dennis Smolarski SJ and Monsignor Joseph DeGrocco have expanded and updated the dictionary from Father Smolarski s classic work *Liturgical Literacy Anamnesis to Worship* Paulist Press 1990 to provide an invaluable resource for clergy pastoral ministers liturgy directors liturgical musicians seminarians students and others having an interest in or responsibility for the liturgy

Unsearchable Riches David N. Power OMI, 2008-07-29 This study has two aims The first is to relate studies on symbolism and its modes to an understanding of the liturgy The second is to relate these studies to the renewal of the liturgy in a time of crisis Since the first aim is affected by the second it may be well to say something about the nature of the crisis at this point The crisis as it touches on liturgy is twofold First there is a crisis of vision and second a crisis of hope The churches are forced to ask how well the vision of reality or the world view projected in liturgical celebration expresses a sense of being in time and a sense of the holy that are pertinent to contemporary fact and contemporary models of reality This is the crisis of vision At the same time the churches are part of a humanity which lives in a time of disintegration and destruction a humanity continually compelled to consider whether there are any hopes by which it is possible to face the future The despair of the age is represented in the twofold holocaust of the century There is the holocaust of the Jewish people under the Nazi regime and there is the imminent nuclear holocaust which threatens the entire world Can those who profess faith in Jesus Christ profess it in such an age from the Introduction *Introduction to Sacramental Theology* Jose Granados, 2021-06-18 *Introduction to Sacramental Theology* presents a complete overview of sacramental theology from the viewpoint of the body This viewpoint is supported in the first place by Revelation for which the sacraments are the place where we enter into contact with the body of the risen Jesus It is a viewpoint secondly which is firmly rooted in our concrete human bodily experience thus allowing for a strong connection between faith and life creation and redemption From this point of view the treatise on the sacraments occupies a strategic role For the sacraments appear not as the last of a series of topics after dealing with Creation Christ the Church but as the original place in which to stand in order to contemplate the entire Christian mystery This point of view of the body which resonates with contemporary philosophy sheds fruitful light on classical themes such as the relationship of the sacraments with creation the composition of the sacramental sign the efficacy of the sacraments the sacramental character the role of the minister or the relationship of the sacrament with the Church as a sacrament As a result of this approach the Eucharist takes on a central role since this is the sacrament where the body of Jesus is made present The rest of the sacraments are seen as prolongations of the

eucharistic body so as to fill all the time and space of the faithful This foundation of the theology of the sacraments in eucharistic theology is supported by an analysis of the patristic and medieval tradition In order to support its conclusions Introduction to Sacramental Theology examines the doctrine of Scripture especially St John and St Paul the main patristic and medieval authors St Augustine Hugh of St Victor St Bonaventure St Thomas Aquinas the response of Trent to the protestant challenges up to modern authors such as Scheeben Rahner Ratzinger or Chauvet including the teaching of Vatican II about the Church as a kind of sacrament

Blessing the World Derek A. Rivard, 2009 Blessings were an integral and vital element of medieval Christian life and worship Benedictions for homes and workplaces the knight and the pilgrim the city under siege and the fetus in the womb are but a small sample of the multitudinous and fascinating extra sacramental blessings that fill the leaves of the liturgical books of the medieval Latin Church While commonly acknowledged as a crucial element in the life of medieval people the meaning and importance of these blessings for their authors and audiences have been frequently overlooked by liturgical and historical scholarship which has focused instead on the textual transmission and long term changes in the blessings and the rituals surrounding them This present work corrects this omission by examining these blessings with modern eyes and a new methodology In *Blessing the World* Derek A Rivard studies liturgical blessing and its role in the religious life of Christians during the central and later Middle Ages with a particular focus on the blessings of the Franco Roman liturgical tradition from the tenth to late thirteenth centuries Through a careful and extensive study of more than ninety such blessings many of them translated for the first time and accessible to a readership beyond specialists in medieval liturgy the author argues that medieval blessings were composed as a direct response to the needs anxieties beliefs and fears of the laity and therefore these texts represent a rich and largely untapped source for the study of lay piety and of ritual in medieval Europe Effectively drawing upon anthropology ritual studies the phenomenology of religion and traditional textual study Rivard explores the rich themes of medieval piety that flow throughout the blessings in order to produce a new understanding of the blessing as an attempt to tap the power of the sacred for use in daily life Benedictions for spaces places persons items and events are each studied in turn to produce this new understanding of these blessings and in the process these petitions and rituals reveal much about larger issues of medieval people s cosmology their perceived role in their cosmos their conceptions of God and their connections to the divine and to the spiritual powers of God s creation

ABOUT THE AUTHOR Derek A Rivard is associate professor of history at Cottey College **PRAISE FOR THE BOOK** *Blessing the World* analyzes the texts of dozens of these blessings in order to explore how medieval Christians conceived of God and their own place within sacred history This textual focus is the book s strength and the author provides English translations of blessings from the tenth to the sixteenth centuries including the original Latin in footnotes thereby making available to readers a rich source of these materials Kathleen Kamerick *The Medieval Review* Rivard s study of medieval blessing rituals sheds helpful light on the ways that medieval churchmen and their flocks viewed their relationship to God to nature and to

their society James A Brundage Church History Evangelical Dictionary of Theology (Baker Reference Library) Walter A. Elwell, 2001-05-01 Fifteen years after its original publication comes a thoroughly revised edition of the Evangelical Dictionary of Theology Every article from the original edition has been revisited With some articles being removed others revised and many new articles added the result is a completely new dictionary covering systematic historical and philosophical theology as well as theological ethics *By the Vision of Another World* James D. Bratt, 2012 This book samples the rich variety of worship practices in American history to show how worship can be a fruitful subject for historians to study and how past cases can enrich our understanding of worship today By the Vision of Another World gathers highly regarded historians who usually are not read together because of the widely different subjects on which they typically work Yet their essays all fit together here as they address how worship work and worldview converge and reinforce each other no matter what particular place era denomination or ethnic racial group is under consideration The variety of methodologies and voices will appeal to a breadth of critical interests while the consistently high quality of historical narrative will keep readers engaged The Church, Community of Salvation George Henry Tavad, 1992 This book attempts to outline a theology of the Church for the twenty first century Starting from a principle that was enunciated in Paul VI s first encyclical Ecclesiam suam it finds its focus in the awareness of being the Church that is implied in the profession of the Christian faith It takes full account of the contemporary manner of reading Scripture and it sees the tradition as an unfinished forward movement The ecumenical dialogues and the encounter with religions that were the fruits of Vatican Council II contribute to the discussion The future of the Church is anticipated in light of scientific findings regarding the shape and history of the universe This ecclesiology is profoundly Catholic experiential and Trinitarian
