The Sphinx Mystery Robert Temple,2009-01-20 A book that verifies the existence of secret underground chambers beneath the Sphinx and demonstrates its origins as the Egyptian god of the dead Anubis Includes an anthology of eyewitness accounts from early travelers who explored the secret chambers before they were sealed in 1926 Reveals that the Sphinx was originally carved as a monumental crouching Anubis the Egyptian jackal god of the necropolis Shrouded in mystery for centuries the Sphinx of Giza has frustrated many who have attempted to discover its original purpose Accounts exist of the Sphinx as an oracle as a king s burial chamber and as a temple for initiation into the Hermetic Mysteries Egyptologists have argued for decades about whether there are secret chambers underneath the Sphinx why the head to body ratio is out of proportion and whose face adorns it In *The Sphinx Mystery* Robert Temple addresses the many mysteries of the Sphinx He presents eyewitness accounts published over a period of 281 years of people who saw the secret chambers and even went inside them before they were sealed in 1926 accounts that had been forgotten until the author rediscovered them He also describes his own exploration of a tunnel at the rear of the Sphinx perhaps used for obtaining sacred divinatory dreams Robert Temple reveals that the Sphinx was originally a monumental Anubis the Egyptian jackal god and that its face is that of a Middle Kingdom Pharaoh Amenemhet II which was a later re carving In addition he provides photographic evidence of ancient sluice gate traces to demonstrate that during the Old Kingdom the Sphinx as Anubis sat surrounded by a moat filled with water called Jackal Lake in the ancient Pyramid Texts where religious ceremonies were held He also provides evidence that the exact size and position of the Sphinx were geometrically determined in relation to the pyramids of Cheops and Chephren and that it was part of a pharaonic resurrection cult

Mysteries and Discoveries of Archaeoastronomy Giulio Magli,2009-04-09 The book is divided into two parts In the first the reader is taken on an ideal world tour of many wonderful and enigmatic places in almost every continent in search of traces of astronomical knowledge and lore of the sky In the second part Giulio Magli uses the elements presented in the tour to show that the fundamental idea which led to the construction of the astronomically related giant

monuments was the foundation of power a foundation which was exploited by replicating the sky A possible interpretive model then emerges that is founded on the relationship the ancients had with nature in the sense of everything that surrounded them the cosmos The numerous monumental astronomically aligned structures of the past then become interpretable as acts of will expressions of power on the part of those who held it the will to replicate the heavenly plane here on earth and to build sacred landscapes Finally having formulated his hypothesis Professor Magli returns to visit one specific place in detail searching for proof This in depth examination studies the most compelling the most intensively studied the most famous and until recently the most misunderstood sacred landscape on the planet Giza in Egypt The archaeoastronomical analysis of the orientation of the Giza pyramids leads to the hypothesis that the pyramids of Cheops and Chephren belong to the same construction project

The

Invention of the Inspired Text John C. Poirier,2021-01-28 John C Poirier examines the theopneustic nature of the Scripture as a response to the view that inspiration lies at the heart of most contemporary Christian theology In contrast to the traditional rendering of the Greek word theopneustos as God inspired in 2 Tim 3 16 Poirier argues that a close look at first and second century uses of theopneustos reveals that the traditional inspirationist understanding of the term did not arise until the time of Origen in the early third century CE and that in every pre Origen use of theopneustos the word instead means life giving Poirier thus conducts a detailed investigation of theopneustos as it appears in the fifth Sibylline Oracle the Testament of Abraham Vettius Valens Pseudo Plutarch Placita Philosophorum and Pseudo Phocylides all of whom understand the word to mean life giving He also studies the use of the cognate term theopnous in Numenius the Corpus Hermeticum on an inscription at the Great Sphinx of Giza and on an inscription at a nymphaeum at Laodicea on the Lycus Poirier argues that a rendering of life giving also fits better within the context of 2 Tim 3 16 and that this meaning survived late enough to figure in a fifth century work by Nonnus of Panopolis He further traces the pre Origen use of theopneustos among the Church

Fathers Poirier concludes by addressing the implication of rethinking the traditional understanding of Scripture stressing that the lack of God inspired scripture ultimately does not affect the truth status of the gospel as preached by the apostles

Voyages of the Pyramid Builders Robert M. Schoch, 2004-05-24 Is it a mere coincidence that pyramids are found throughout our globe Did cultures ranging across vast spaces in geography and time such as the ancient Egyptians early Buddhists the Maya Inca Toltec and Aztec civilizations of the Americas the Celts of the British Isles and even the Mississippi Indians of pre Columbus Illinois simply dream the same dreams and envision the same structures Robert M Schoch one of the world's preeminent geologists in recasting the date of the building of the Great Sphinx believes otherwise In this dramatic and meticulously reasoned book Schoch like anthropologist Thor Heyerdahl in his classic *Kon Tiki* argues that ancient cultures traveled great distances by sea Indeed he believes that primeval sailors traveled from the Eastern continent primarily Southeast Asia and spread the idea of pyramids across the globe particularly to the New World of the Americas where they abounded until the days of the Conquistadors *The World in Ancient Times: The ancient Egyptian world*, 2004
