Adventures in Paranormal Investigation Joe Nickell, 2014-04-23 Tales of alien abductions miraculous relics and haunted castles have attracted believers and skeptics across the globe for centuries Paranormal investigator Joe Nickell tackles the world's most seemingly inexplicable myths in *Adventures in Paranormal Investigation* With four decades of experience in the field Nickell employs skepticism and scientific analysis to pull truth from the mires of false evidence and trickery that surround both old and new legends and mysteries Unlike authors who engage in hype and sensationalism in order to foster or debunk myths Nickell approaches each case with a rational and scientific approach intended to find the truth Occam's Razor all things being equal the simplest solution is the best one is a principal instrument in his investigative toolbox as well as the belief that it is the claimant's responsibility to provide the extraordinary proof required in such extraordinary cases *Adventures in Paranormal Investigation* features Nickell's on site explorations in unusual phenomena Among the forty unique cases Nickell examines mysteries ranging from snake charmers who purport to hold influence over the reptiles to the Holocaust victims who reportedly haunt a gas chamber in Dachau to Lake Simcoe's resident lake monster Igo pogo in Canada In addition to the case studies Nickell analyzes how the propensity to fantasize can affect human perceptions of and belief in paranormal activity and how his personal experience with the paranormal was altered when intuition led to the discovery of a daughter he didn't know existed More than just another myth busting text *Adventures in Paranormal Investigation* brings together reason and scientific analyses to explain both the phenomena and the role of human perception therein establishing Nickell as the foremost paranormal investigator of our time [Hidden History](#) Brian Haughton, 2007-01-15 An archaeologist explores history's most fascinating enigmas from the ancient Druids to the mysteries of the Mayan calendar and the lost city of Atlantis Across thousands of years of history so called lost civilizations still speak to us through their artifacts and architecture In *Hidden History* archaeologist Brian Haughton fills the gap between archaeology and alternative history using the latest available data and a common sense open minded approach Divided into three sections this expertly researched volume shares the secrets of Mysterious Places Unexplained Artifacts and Enigmatic People Haughton introduces readers to the greatest mysteries of the ancient world from the labyrinthine palace of Knossos on Crete to the pyramids of Egypt the remote jungle temples of Peru and the megalithic mystery of Stonehenge But he also goes further to explore historical puzzles like the Coso Artifact the possibility of ancient flight and the Voynich Manuscript as well as mysterious peoples from the Magi and the Druids to the Knights Templar and the Green Children With more than 50 photographs and illustrations this is the ideal reference work for those interested in the archaeology of these great enigmas [Imagining the Impossible](#) Karl S. Rosengren, Carl N. Johnson, Paul L. Harris, 2000-05-29 This volume first published in 2000 is about the development of human thinking that stretches beyond the ordinary boundaries of reality Various research initiatives emerged in the decade prior to publication exploring such matters as children's thinking about imaginary beings

magic and the supernatural The purpose of this book is to capture something of the larger spirit of these efforts In many ways this new work offers a counterpoint to research on the development of children s domain specific knowledge about the ordinary nature of things that has suggested that children become increasingly scientific and rational over the course of development In acquiring an intuitive understanding of the physical biological or psychological domains even young children recognize that there are constraints on what can happen However once such constraints are acknowledged children are in a position to think about the violation of those very same constraints to contemplate the impossible
