Tucelescu, Patricia B. Schwartz, 2000 **The Cambridge Companion to the Age of Nero** Shadi Bartsch, Kirk Freudenburg, Cedric Littlewood, 2017-11-09 The age of Nero has appealed to the popular imagination more than any other period of Roman history This volume provides a lively and accessible guide to the various representations and interpretations of the Emperor Nero as well as to the rich literary philosophical and artistic achievements of his eventful reign The major achievements of the period in the fields of literature governance architecture and art are freshly described and analysed and special attention is paid to the reception of Nero in the Roman and Christian eras of the first centuries AD and beyond Written by an international team of leading experts the chapters provide students and non specialists with clear and comprehensive accounts of the most important trends in the study of Neronian Rome They also offer numerous original insights into the period and open new areas of study for scholars to pursue Lucan's Egyptian Civil War Jonathan Tracy, 2014-09-22 Explores how a cultural clash between traditional Pharaonic and latter day Ptolemaic Egypt is used to mirror the Roman civil war *The Literary World*, 1904 **Madness Triumphant** Lee Fratantuono 2, 2012-06-28 Madness Triumphant A Reading of Lucan's Pharsalia offers

the most detailed and comprehensive analysis of Lucan's epic poem of the civil war between Caesar and Pompey to have appeared in English. In the manner of his previous books on Virgil and Ovid, Professor Fratantuono considers the *Pharsalia* as an epic investigation of the nature of fury and madness in Rome this time during the increasing insanity of Nero's reign. The volume proceeds chapter by chapter, book by book, through Lucan's poem as it unfolds the thesis that the poet Lucan crafted an epic response to both Virgil and Ovid, the closing movement in a three-act tragedy of madness. In response to the *Aeneid*, Lucan raises the idea that the final ethnographic settlement of Trojans and Italians may not have been for the best, while in response to the *Metamorphoses*, he explores the idea that the immortality achieved by the poet may not, after all, prove to be a blessing. An introduction and bibliography provide additional direction for the study of this greatest surviving work of literature from the so-called Silver Age of Neronian literature, while the individual chapters offer in-depth bibliographical citations and extensive annotation as a guide to further study of the poem. Lucan's poem is revealed to be the consummate hymn to fury as the poet offers a return to the opening of Homer's *Iliad* and the wrath of Achilles, which is now viewed as part of an unending cycle of madness that will end only in the flames of a global conflagration that will consume all things. The pervasive intertext of Lucan's epic poem with his predecessor Manilius' *Astronomica* is also investigated as the nature of Lucan's response to both Stoic and Epicurean antecedents is explored. Manilius' stars are virtually sprinkled through the *Pharsalia* as the heavens offer a celestial canvas for the poet of fury to illustrate the beautiful lies that may ultimately be shown to conceal even more seductive truths.

Secrets of the Nile Paulene Turner, 2023-07-18 If you're reading this, it may mean I don't exist any more. Time travel's like that. Here today, erased tomorrow. Madison Bryant 16 is escaping an awkward romance when she leaps into her friend Riley's latest invention, a time machine, as it blasts off on its maiden voyage to Ancient Egypt. Setting down by the Nile in a swirl of sand, the pair plan to stay for a day or two and observe, not interact with anyone. But when a local girl invites them to her family home, they're drawn into village dramas and can't resist using knowledge from the future to help. An epidemic of dental troubles? Riley introduces toothpaste to the ancient culture. The vizier's teenage son drowning in a hippo-filled river? Maddy rescues him using life-saving techniques acquired on a Sydney beach. Sure, she's read time travel stories with those warnings about not changing the past, in case it changes the future in unimaginable ways. But they don't apply to her. She's just an ordinary girl, a mere speck of sand in the vast desert of time. And nothing she does could ever change the course of history. Could it? A high-stakes, fast-paced adventure in mysterious Ancient Egypt.

The Edges of the Earth in Ancient Thought James S. Romm, 2019-07-16 For the Greeks and Romans, the earth's farthest perimeter was a realm radically different from what they perceived as central and human. The alien qualities of these edges of the earth became the basis of a literary tradition that endured throughout antiquity and into the Renaissance, despite the growing challenges of emerging scientific perspectives. Here, James Romm surveys this tradition, revealing that the Greeks and, to a somewhat lesser extent, the Romans saw geography not as a branch of physical science but as an
