Secular Vocations Intellectuals Professionalism Culture:

Secular Vocations Bruce Robbins, 1993-07-17 During the 1980s university based intellectuals came under heavy fire from both radicals and conservatives They were accused by the former of betraying their public duty as general critics of society and by the latter of promulgating radical ideologies and corrupting the young In this work the author counters both left and right arguing that the professionalization of literary study was inevitable and fortuitous Robbins undertakes close studies of such figures as Edward Said Fredric Jameson and Raymond Williams while considering the major trends in contemporary cultural studies and giving significant attention to relevant developments in such disciplines as ethnology and sociology *Secular Vocations* ranges over materials from Britain France and the US knitting them together in a synthesis that places in bold relief many of the major controversies in contemporary intellectual life It concludes with a plea for what Robbins calls comparative cosmopolitanism to displace the more militantly particularist projects that have come to dominate the human sciences

Postcolonial Intellectuals in Europe Sandra Ponzanesi,, Adriano José Habed, 2018-08-31 Postcolonial intellectuals have engaged with and deeply impacted upon European society since the figure of the intellectual emerged at the beginning of the nineteenth century Yet a critical assessment and overview of their influential roles is long overdue particularly in the light of contemporary debates in Europe and beyond This book offers an innovative take on the role of intellectuals in Europe through a postcolonial lens and in doing so questions the very definition of public intellectual on the one hand and the meaning of such a thing as Europe on the other It does so not only by offering portraits of charismatic figures such as Stuart Hall Jacques Derrida Antonio Gramsci Frantz Fanon and Hannah Arendt among others but also by exploring their lasting legacies and the many dialogues they have generated The notion of the classic intellectual is further challenged by bringing to the fore artists writers and activists as well as social movements networks and new forms of mobilization and collective engagement that are part of the intellectual scene

Pedagogy, Intellectuals, and Dissent in the Later Middle Ages Rita Copeland, 2001-07-26 This book is about the place of pedagogy and the role of intellectuals in medieval dissent Focusing on the medieval English heresy known as Lollardy Rita Copeland places heretical and orthodox attitudes to learning in a long historical perspective that reaches back to antiquity She shows how educational ideologies of ancient lineage left their imprint on the most sharply politicized categories of late medieval culture and how radical teachers transformed inherited ideas about classrooms and pedagogy as they brought their teaching to adult learners The pedagogical imperatives of Lollard dissent were also embodied in the work of certain public figures intellectuals whose dissident careers transformed the social category of the medieval intellectual

Looking closely at the prison narratives of two Lollard preachers Copeland shows how their writings could serve as examples for their fellow dissidents and forge a new rapport between academic and non academic communities **Film and the**

in China **Amateur Media** Dan Hunter, 2013 The rise of Web 2.0 has pushed the amateur to the forefront of public discourse public policy and media scholarship Typically non salaried non specialist and untrained in media production amateur producers are now seen as key drivers of the creative economy But how do the activities of citizen journalists fan fiction writers and bedroom musicians connect with longer traditions of extra institutional media production This edited collection provides a much needed interdisciplinary contextualisation of amateur media before and after Web 2.0 Surveying the institutional economic and legal construction of the amateur media producer via a series of case studies it features contributions from experts in the fields of law economics and media studies based in the UK Europe and Singapore Each section of the book contains a detailed case study on a selected topic followed by two further pieces providing additional analysis and commentary Using an extraordinary array of case studies and examples from YouTube to online games from subtitling communities to reality TV the book is neither a celebration of amateur production nor a denunciation of the demise of professional media industries Rather this book presents a critical dialogue across law and the humanities exploring the dynamic tensions and interdependencies between amateur and professional creative production This book will appeal to both academics and students of intellectual property and media law as well as to scholars and students of economics media cultural and internet studies **The Working-Class Intellectual in Eighteenth- and Nineteenth-Century Britain**

Aruna Krishnamurthy, 2016-12-14 In Britain the period that stretches from the middle of the eighteenth century to the mid nineteenth century marks the emergence of the working classes alongside and in response to the development of the middle class public sphere This collection contributes to that scholarship by exploring the figure of the working class intellectual who both assimilates the anti authoritarian lexicon of the middle classes to create a new political and cultural identity and

revolutionizes it with the subversive energy of class hostility Through considering a broad range of writings across key moments of working class self expression the essays reevaluate a host of familiar writers such as Robert Burns John Thelwall Charles Dickens Charles Kingsley Ann Yearsley and even Shakespeare in terms of their role within a working class constituency The collection also breaks fresh ground in eighteenth and nineteenth century scholarship by shedding light on a number of unfamiliar and underrepresented figures such as Alexander Somerville Michael Faraday and the singer Ned Corvan

Professional Domesticity in the Victorian Novel Monica F. Cohen, 1998-02-05 Much attention has recently been given by

scholars to the widening of the gender gap in the nineteenth century and the concept of separate spheres Testing such constructions and questioning the stereotypes associated with Victorian domesticity Monica F Cohen offers new readings of narratives by Austen Charlotte Bront Dickens Eliot Eden Gaskell Oliphant and Reade to show how domestic work the most feminine of all activities gained much of its social credibility by positioning itself in relation to the emergent professions By exploring how novels cast the Victorian conception of female morality into the vocabulary of nineteenth century professionalism Cohen traces the ways in which women sought identity and privilege within a professionalised culture and revises our understanding of Victorian domestic ideology

Edward Said and the Authority of Literary Criticism Nicolas Vandeviver, 2019-09-26 This book examines the earliest writings of Edward Said and the foundations of what came to be known as postcolonial criticism in order to reveal how the groundbreaking author of Orientalism turned literary criticism into a form of political intervention Tracing Said's shifting conceptions of literature and agency in relation to the history of American literary studies in the thirty years or so between the end of World War II and the last quarter of the twentieth century this book offers a rich and novel understanding of the critical practice of this indispensable figure and the institutional context from which it emerged By combining broad scale literary history with granular attention to the vocabulary of criticism Nicolas Vandeviver brings to light the harmonizing of methodological conflicts that informs Said's approach to literature and argues that Said's enduring political significance is grounded in his practice as a literary critic

Truth to Power Karyn Hollis, Silvia Nagy-Zekmi, 2010-06-09 The notion that public intellectuals in the US are in decline has again become fashionable with their portrayal as trapped between Academe and the real world The questions addressed by this volume are How can the voices of scholars and erudite thinkers penetrate the globalized corporate media and how does media receive and represent the contribution of intellectuals to the academic and public spheres all the while recognizing what Paul Bov calls the the nonidentity of intellectuals as a group Dedicated to the memory of Howard Zinn whose life work is a model for intellectual engagement this collection of intriguing articles with an introduction by the editors and a foreword by Henry A Giroux presents new scholarship on the role of the intellectual in a society and specifically in Academe from many different perspectives Indeed intellectuals have been negotiating access to public discourse for centuries but never have their opinions been more crucial to the public good because of the privately

owned media's domination of public discourse. The inspiration for this volume comes also from Edward Said's notion of intellectuals whose role is to uncover and elucidate the contest to challenge and defeat both an imposed silence and the normalized quiet of unseen power wherever and whenever possible. **The Institution of Literature** Jeffrey Williams, 2002-01-01.
