Security In The New Millennium Views From South Asia:

Southeast Asian Security in the New Millennium Richard J. Ellings, Sheldon W. Simon, 2016-09-16 Assessing trends toward creating innovative forms of political economic and security co operation in Southeast Asia this text discusses the international dynamics of Southeast Asian security and its impact on such external factors as the US China and Japan

Security in the New Millennium Rajesh M. Basrur, 2001 In South Asia the expanded people centric conception of security is gradually finding voice Yet the older elitist notion of security remains well entrenched within the power structure of state and society In this volume eminent scholars from the region break out of the mould and draw attention to the diverse facets of security from the standpoint of the average South Asian man woman and child They explore vital security issues relating to economic well being ethnic identity religion gender and political legitimacy In doing so they seek a more comprehensive and democratic basis for the understanding of security in the region

South Asia Security Manan Dwivedi, 2009 The academic work titled as South Asia Security is a honest striving to delve into the notion of security in the South Asian Region which is under the arc of the Indian subcontinent The Book objectifies the differentiation between the traditional and convention notions of security which is avowedly power centric with the new tenet of Comprehensive Human security which entails the concerns of sustainable development Human Rights Gender Empowerment along with the notions of Globalization and all pervading tenet of Interdependence with the advent of neo liberal institutionalism The book aims to posit the traditional bilaterals in the South Asian firmament in the larger than life matrix of new age convergence and Interdependence

Southeast Asian Security in the New Millennium , 1996 **South Asia in Transition** B. Chakma, 2014-06-25 Combining theoretical and empirical insights this book provides an in depth analysis of South Asia s transition in the areas of democracy political economy and security since the end of the Cold War It provides a close scrutiny to the state of democracy and political economy in India Pakistan and Bangladesh

Liotta, 2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the Cold War and globalization as well as the multifarious impacts of global environmental change in the early 21st century

Peace and Security in South Asia Umbreen Javaid, 2006 **Prospects for Peace in South Asia** Rafiq Dossani, Henry S. Rowen, 2005 Dossani s book addresses the largely hostile often violent relations between India and Pakistan that date from their independence in 1947

Nuclear Risk Reduction in South Asia Michael Krepon, 2004-11-26 The essays in this collection explore and analyze how to reduce the risk of nuclear war in South Asia Contributors work to introduce the theory and methodology of nuclear risk reduction to provide specific measures that might

work best in the region and to consider the consequences of missile defense options for stability in Asia Much work is needed to reduce nuclear dangers between India and Pakistan While the fact that both countries possess nuclear weapons may prevent a full blown conventional or nuclear war the presence of these weapons in the region may also encourage the use of violence at lower levels expecting escalation to be contained by a mutual desire to avoid the nuclear threshold One only needs to look at the Kashmir conflict for confirmation of this paradox with serious crises coming more frequently with more severity since the nuclear tests of 1998 Sustained efforts along the line suggested by the contributors of this volume are a crucial step toward reducing nuclear risk on the Subcontinent

South Asia in 2020 Michael R. Chambers, 2002

Asian Security Handbook William M. Carpenter, David G. Wiencek, James R. Lilley, 2019-06-19 Featuring 19 individual country profiles this volume seeks to shed light on the key political and security factors and geo political trends in the Asia Pacific region that bear monitoring and that will have greater significance in the post Cold War environment

Institutional Balancing in the Asia Pacific Kai He, 2009 This book examines the strategic interactions among China the United States Japan and Southeast Asian States in the context of China's rise and globalization after the cold war Engaging the mainstream theoretical debates in international relations the author introduces a new theoretical framework institutional realism to explain the institutionalization of world politics in the Asia Pacific after the cold war Institutional realism suggests that deepening economic interdependence creates a condition under which states are more likely to conduct a new balancing strategy institutional balancing i.e. countering pressures or threats through initiating utilizing and dominating multilateral institutions to pursue security under anarchy To test the validity of institutional realism Kai He examines the foreign policies of the U.S. Japan the ASEAN states and China toward four major multilateral institutions Asia Pacific Economic Cooperation APEC the Association of Southeast Asian Nations ASEAN Regional Forum ARF ASEAN Plus Three APT and East Asian Summit EAS Challenging the popular pessimistic view regarding China's rise the book concludes that economic interdependence and structural constraints may well soften the dragon's teeth China's rise does not mean a dark future for the region Institutional Balancing in the Asia Pacific will be of great interest to policy makers and scholars of Asian security international relations Chinese foreign policy and U.S. foreign policy

Southeast Asian Perspectives on Security Derek Da Cunha, 2000 The conventional understanding of strategic issues in the modern world has been very much a Western driven phenomenon That is to say Western strategists thinkers and writers have tended to establish the principles of strategic concepts and to develop theories around them While there is utility in much Western strategic thought it is also apt to note that some of it does not have full relevance or validity when applied to a regional setting that is far removed from the geographical boundaries of the Western world In that connection this volume is partly intended to serve as an antidote to much of the Western commentary on Asia Pacific security issues by providing a range of perspectives on those issues from the Southeast Asian point of view It offers a range of Southeast Asian perspectives on the multifaceted security issues that

confront the Asia Pacific region in the post Cold War era That there is no unitary perspective emanating from the region is symptomatic of the very fluid geopolitical situation that characterizes Asia Pacific security and of equal import the different schools of thought that analysts in the region have chosen to subscribe to *Violence, Terrorism, and Human Security in South Asia* Ajay Darshan Behera,2008 **Minimum Deterrence and India's Nuclear Security** Rajesh M. Basrur,2009 In this book the leading authority on India s nuclear program offers an informed and thoughtful assessment of India s nuclear strategy Basrur shows that the country s nuclear culture is generally in accord with the principle of minimum deterrence but sometimes drifts into a more open ended view **The United States, China and Southeast Asian Security** W. Bert,2002-12-10 China s growing economy and military power may allow it to challenge US influence in East and Southeast Asia Wayne Bert examines the likelihood of this and the impact it would have on Southeast Asian security The approach taken by both the US and China will affect the outcome of this struggle and both the Southeast Asian commitment to economic growth and the development of regional institutions will encourage peaceful evolution and a power transition that avoids major conflict Cricket in the 21st Century Souvik Naha,Dominic Malcolm,2023-11-27 This book examines the ways in which cricket has reflected and reproduced some of the social and political tensions of the twenty first century Cricket s struggle for global recognition and the shifting concerns about cricket s perceived character provide two of the most significant meta narratives to shape the game s historical and future development However in contrast to the degree of continuity these narratives appear to support the game is currently undergoing a particularly rapid and radical phase of change This book illustrates some of these dominant processes that can be broadly categorized as the changing political economy of the game the nation specific manifestations of cricket s political economic landscape and the intro and retrospection within the English game Cricket is not only thriving across the world its global spread reveals narratives of migration national and international politics astute governance empowerment of people and cultural practices of everyday life New ethical political and identity related concerns have arisen with the reworking of the objectives and methods of playing and watching cricket The chapters in this volume employ cricket as a useful conceptual tool to analyse the dynamics underwriting interactions between races sexes classes and politics Cricket in the 21st Century will be a fascinating read for students scholars as well as general readers with an interest in the sociology and history of sport and global political economy The chapters in this book were originally published as a special issue of *Sport in Society* **Globalization and Defence in the Asia-Pacific** Geoffrey Till,Emrys Chew,Joshua Ho,2009 This edited volume examines the impact of globalisation on the economies security policies and military industrial complexes of the Asia Pacific region The work is structured into three main parts The first explores globalization and its general effects on the policy making of the nation state the second section looks at how globalisation affects a country s threat perception and defence posture within the specific context of the Asia Pacific region while the third explores how it impacts on a state s allocation of resources to

defence and how economic globalization affects the defence industry with specific reference to the procurement policies and practices of different states across the Asia Pacific Globalization, Development And Security In Asia (In 4 Volumes) ,2014-04-28 Asian countries are undergoing rapid political economic and social transformations meanwhile there is a growing demand for knowing more about Asia This Major Reference Set is designed to help general readers as well as specialists to have a good grasp of the latest developments in Asia in the key areas of economic growth trade energy environment foreign policy and security With 4 volumes this set covers all major dimensions of Asia s political economy Contributors include both scholars and practitioners who provide first hand description and analysis of fundamental issues in Asia Peace and political stability are of ultimate importance with Asia at the forefront of wealth creation in the global economy Volume 1 unpacks and examines the foreign policy strategies of key states and the role of regional institutions in responding to the security demands of an Asian century Volume 2 studies the strong economic integration through trade and cross border investment that has been essential to Asia The region s future prosperity depends on it being able to remain open and outward looking As Asia grows larger and richer more concerted efforts are required to surmount regional rivalry and to further strengthen the regional architecture of economic cooperation Volume 3 looks at the emerging economies thirst for energy that creates huge competition around which domestic regional and international political economy unfolds Climate change and aspiration for sustainable development further complicate the challenge Volume 4 offers a comprehensive coverage of subjects on environment and sustainable development in Asia with case studies of selected and representative countries that are at different stages of economic development and facing different environment related problems and challenges in the twenty first century This interdisciplinary set is a fine example of international cooperation with contributors hailing from different parts of Asia as well as North America and Europe It is a must have for anyone keen on understanding Asia s dynamic and changing scene **Asia-Pacific Strategic Relations** William T.
