Each communication exchange contains an identifier which may or may not be intended by the parties involved. What constitutes an identity? how do new technologies affect identity? how do we manage identities in a globally networked information society? From the 6 to the 10 August 2007 IFIP International Federation for Information Processing working groups 9.2 Social Accountability 9.6 11.7 IT Misuse and the Law and 11.6 Identity Management hold their 3rd International Summer School on The Future of Identity in the Information Society in cooperation with the EU Network of Excellence FIDIS at Karlstad University. The Summer School addressed the theme of Identity Management in relation to current and future technologies in a variety of contexts. The aim of the IFIP summer schools has been to introduce participants to the social implications of Information Technology through the process of informed discussion. Following the holistic approach advocated by the involved IFIP working groups a diverse group of participants ranging from young doctoral students to leading researchers in the field were encouraged to engage in discussion, dialogue and debate in an informal and supportive setting. The interdisciplinary and international emphasis of the Summer School allowed for a broader understanding of the issues in the technical and social spheres. **Social Security Investment in the Securities Markets** United States.
