Security of Residence and Expulsion Elspeth Guild, Paul Minderhoud, 2021-12-28 Although all European states grant some form of secure residence status to foreign nationals substantial differences persist among them in the rights pertaining to that status the grounds for losing it and the degree of protection against expulsion This volume explores the law protecting aliens in Europe under four headings The legal framework provided at the European level by the European Convention on Human Rights especially Articles 3 and 8 its case law and various subsidiary instruments of the Council of Europe evolving European Union law based on the principle of freedom of movement agreements between the EU and non member states and the 1997 draft convention on migration policies and the implementation of this supra national law at the national level The effect in the Nordic region and the Common Travel Area of the abolition of border controls with special attention to the question of compensatory measures The issue of double jeopardy arising from the use of expulsion in conjunction with a criminal sentence as illustrated in French and German case law The legal balancing act required in many cases to protect the public interest without violating a person s legitimate right to a secure residence taking into consideration the potentially conflicting interests of the receiving state and the foreign national Security of Residence and Expulsion Protection of Aliens in Europe offers clear guidelines for policymakers on harmonising the principles underlying legislation in this area of critical and growing importance in European life It will be of great value to practitioners and academics concerned with the extension of existing rules governing security of residence and protection against expulsion for long term immigrants and their families *The Long-Term Residence Status as a Subsidiary Form of EU Citizenship* Diego Acosta Arcarazo, 2011-05-23 This book analyses the potential of the Long term Residence Directive to become a subsidiary form of EU citizenship which escapes direct control by Member States by looking at its implementation and at its possible interpretation by the Court of Justice *The Evolving Protection of Prisoners' Rights in Europe* Gaëtan Cliquennois, 2022-12-30 The Evolving Protection of Prisoners Rights in Europe explores the development of the framing of penal and prison policies by the European Court of Human Rights ECHR clarifying the European expectations of national authorities and describing the various models existing in Europe with a view to analysing their mechanisms and highlighting those that seem the most suitable A new frame of penal and prison policies in Europe has been progressively established by the ECHR and the Council of Europe CoE to protect the rights of detainees in Europe European countries have reacted very diversely to these policies This book has several key benefits for readers A global and detailed overview of the ECHR jurisprudence on penal and prison policies through an analysis of its development over time An analysis of the interactions between the Strasbourg Court and the CoE bodies Committee of Ministers Committee for the Prevention of Torture and their reinforced framing of domestic penal and prison policies A detailed examination of the impacts of the European case law on penal and prison policies within ten nation states in Europe including Romania which is currently very underresearched A robust engagement with the diverse national

**Migration, Diasporas and Legal Systems in Europe** Prakash Shah,Werner Menski,2020-09-10 At a time when issues concerning migration and the formation of diasporic communities have come to be critical for all European legal systems this volume reflects discusses and analyzes the questions raised by diasporas who have established themselves in Europe over more than fifty years of immigration and the challenges faced by legal systems in the light of continued migration Contributors from a broad range of backgrounds address prominent issues ranging from legal pluralism among minorities pressures on EU accession states irregular migration state control of family reunification and formation in light of human rights laws challenges for citizenship and nationality laws and the implementation of visa rules and juxtaposed control zones Besides the EU as a supranational legal order the book contains discussion of conditions in the United Kingdom Ireland

France Spain Gibraltar Morocco Greece Turkey and Lithuania This volume accompanies *The Challenge of Asylum to Legal Systems* and is the second book to emerge from the W G Hart Legal Workshop held in 2004 at London s Institute for Advanced Legal Studies      **Citizenship, Crime and Community in the European Union** Stephen Coutts,2019-09-19 Over the past 20 years the European Union has been increasingly active in the area of criminal law Meanwhile the status of European Union citizenship has been progressively developed and strengthened Adopting an expressive and communitarian perspective of the criminal law this book considers EU criminal law in light of EU citizenship with a view to revealing the structure of the EU s political community as expressed in its criminal law It argues that while national communities remain dominant through transnational processes certain features of a supranational community can be said to emerge The book will be of interest to scholars of EU citizenship EU criminal law and EU law and integration more generally      [The Right of an Alien to be Protected against Arbitrary Expulsion in International Law](#) Julia Wojnowska-Radzińska,2015-03-20 In *The Right of an Alien to be Protected against Arbitrary Expulsion in International Law* Julia Wojnowska Radzi ska offers a comprehensive legal study of international legal obligations of States for the protection of aliens lawfully residing against arbitrary expulsion It also provides practical information on administrative proceedings legal remedies and procedural rights aliens exercise The book aims at answering a fundamental question how to strike a balance between the inherent right of a State to expel an alien and the rights the latter is entitled to The reader will therefore be given a survey of the subject that is both usefully brief and sufficiently detailed to answer most questions likely to arise in any pertinent legal setting      **Constructing the Person in EU Law** Loïc Azoulay,Ségolène Barbou des Places,Etienne Pataut,2016-07-28 The European Union places the individual or person at the heart of its activities It is a central concept in all of EU economics politics society and ethics The 15 chapters in this innovative edited collection argue that EU law has had a transformative effect on this concept The collection looks at the mechanisms used when constructing the person in EU law It goes beyond traditional literature on Europe and the Individual exploring the question of personhood through critical and contextual perspectives *Constructing the Person in EU Law Rights Roles Identities* brings together contributions and debates from experts around Europe to this key question      **In Search of Europe's Borders** Kees Groenendijk,Elspeth Guild,Paul Minderhoud,2021-12-28 Borders define territories within which identities and order are described and delineated The triptych of indentities borders and orders is central to understanding the nature of sovereignty and the relations between countries Nowhere is this more apparent than in the European Union The changing definition and placement of the border is one of the most striking features of the recent transformations of the Union The definition of what a border is and where it is for persons has moved out of the territory of national sovereignty and has become the preserve in law of the European Community The enlargement of the European Union towards the countries of Central and Eastern Europe has created new challenges for the concept of borders in the EU This volume examines the extent of the Community power and the legal meaning of the EU s borders as

well as the ways to control or not the movement of persons across borders It considers the legal texts EC law on visas the Regulations on visas the meaning of borders for persons in Community Law the Schengen acquis and its incorporation into the EC Treaty and where appropriate the TEU national practice and its transformation with the insertion of the private sector's responsibility for the control of borders and judicial control The point of departure is the perspective of the individual who is seeking to cross these borders

**The Legal Elements of European Identity** Elspeth Guild, 2004-01-01 The individual has become visible throughout Europe and within its institutions as a potential or actual rights holder He or she is no longer defined as visible or invisible in law by the nation state alone In today's Europe he or she establishes identity that is the rights to entry residence work family life and protection from expulsion through a multilayered legal structure involving the nation state the EU and the Council of Europe and all their political administrative and judicial arenas In this remarkable study Elspeth Guild examines the ways in which law in Europe defines the status of the individual and his or her entitlements as regards identity Among her enlightening approaches to this complex subject the following may be listed the right to move across borders the limitations of citizenship of the Union as currently construed social benefits of citizenship residence immigration family reunification human rights of foreigners asylum expulsion and readmission racial discrimination and long resident third country nationals The analysis includes extensive reference to relevant cases especially European Court of Justice and European Court of Human Rights decisions This is a work of great value and insight As more and more legislation is adopted in the area of European citizenship courts will increasingly be called upon to articulate the relationship of individuals to the territory and society in which they find themselves And as this inevitable development is defined all jurists and legal academics who care for civil society in Europe will discover this deeply considered book afresh

**EC Employment Law** Catherine Barnard, 2006 EC Employment Law provides a thorough and authoritative guide to EC law on employment within a social and economic context Extensive coverage is given of complex equality caselaw and legislation and many issues not covered elsewhere are examined

[The Margins of Discretion in Transnational Administrative Acts](#) Kathrin Hamenstädt, 2022-05-05 This book analyses the expulsion of delinquent foreigners and their exclusion from the territory through a comparative lens The book begins with a vertical perspective focusing on the effects of European standards on the law of expulsion and entry bans in Germany and the Netherlands and the law regulating deportation from the United Kingdom It explores how these countries use their margin of discretion granted by European law to solve the societal political and legal challenges that are posed by delinquent foreigners Moreover it highlights the similarities convergences and differences between these countries approaches to the topic Subsequently the book adopts a horizontal perspective by focusing on the effects of national decisions on other states thereby addressing transnational administrative acts National expulsion decisions and entry bans can be given effect throughout European countries with the consequence that other states are in principle obliged to enforce them by refusing foreigners access to their territory This obligation arises

despite the fact that expulsion decisions and entry bans are adopted on the basis of diverging national provisions Even though the margin of discretion of national decision makers has already been limited the remaining differences call for further recommendations which are put forward in this book [A People's History of the European Court of Human Rights](#) Michael Goldhaber,2008-12-31 The exceptionality of America s Supreme Court has long been conventional wisdom But the United States Supreme Court is no longer the only one changing the landscape of public rights and values Over the past thirty years the European Court of Human Rights has developed an ambitious American style body of law Unheralded by the mass press this obscure tribunal in Strasbourg France has become in many ways the Supreme Court of Europe Michael Goldhaber introduces American audiences to the judicial arm of the Council of Europe a group distinct from the European Union and much larger whose mission is centered on interpreting the European Convention on Human Rights The Council routinely confronts nations over their most culturally sensitive hot button issues It has stared down France on the issue of Muslim immigration Ireland on abortion Greece on Greek Orthodoxy Turkey on Kurdish separatism Austria on Nazism and Britain on gay rights and corporal punishment And what is most extraordinary is that nations commonly comply In the battle for the world s conscience Goldhaber shows how the court in Strasbourg may be pulling ahead **European Societies, Migration, and the Law** Moritz Jesse,2021 Looks at immigration and asylum legislation and polices in Europe to investigate how immigrants are othered by them [Legal Migration to the European Union](#) Anja Wiesbrock,2010-08-16 This book provides a comprehensive analysis of EU legislation in the area of legal migration Five Directives on family reunification long term residence students researchers and highly qualified migrants are critically assessed Moreover the implementation of the Directives in three Member States Germany the Netherlands and Sweden and national legislation in two Member States with an opt out from EU migration law the UK and Netherlands are assessed This includes national rules on the integration of third country nationals and access to citizenship The book calls into question the compliance of several European and national provisions with EU principles of law and international human rights
