Freud and the Politics of Psychoanalysis Jose Brunner, 2018-01-16 Freud and the Politics of Psychoanalysis is a sympathetic critique of Freud's work tracing its political content and context from his early writings on hysteria to his late essays on civilization and religion Brunner's central claim is that politics is a pervasive and essential component of all of Freud's discourse since Freud viewed both the psyche and society primarily as constellations of power and domination Brunner shows that when read politically Freud's discourse can be seen to unite mechanics and meaning into a plausible fruitful and internally consistent theory of the mind therapy family and society Part one deals with the medical and political background of Freud's work It explains how Freud postulated mental principles that were the same for all races and nations The second part is concerned with the logic and language of Freud's theory of the mind Brunner also details how Freud introduced dynamics of dominance and subjugation into the very core of the psyche Part three addresses dynamics of power in the clinical setting which Freud forged out of a curious blend of authoritarian and liberal elements Brunner focuses on how this setting creates an arena for verbal politics He also examines various social factors that influenced the therapeutic practice of psychoanalysis such as class gender and education Part four explores Freud's analysis of the family and large scale social institutions Though Brunner is critical of the authoritarian bias in Freud's social theory he suggests that it provides a useful vocabulary to unmask hidden psychological aspects of domination and subjection This is an essential book

Freud and the Question of Pseudoscience Frank Cioffi, 1998 In the early 1970s Cioffi demonstrated that Freud falsified the account of his discovery of the Oedipus complex an account that had gone unquestioned until that time Moreover Cioffi showed that this misrepresentation was necessary to the propagation of the Oedipus theory The author subsequently revealed Freud's falsifications in retracting his theory of infantile seduction a revelation that has been often cited in recent books and scholarly journals

Shakespeare's Ghost Writers Marjorie Garber, 2020-11-25 The plays of Shakespeare are filled with ghosts and ghost writing Shakespeare's Ghost Writers is an examination of the authorship controversy surrounding Shakespeare the claim made repeatedly that the plays were ghost written Ghosts take the form of absences erasures even forgeries and signatures metaphors extended to include Shakespeare himself and his haunting of us and in particular theorists such as Derrida Marx Nietzsche and Freud the figure of Shakespeare constantly made and remade by contemporary culture Marjorie Garber one of the most eminent Shakespearean theorists writing today asks what is at stake in the imputation that Shakespeare did not write the plays and shows that the plays themselves both thematize and theorize that controversy This Routledge Classics edition contains a new preface and new chapter by the author

Sex, Lies, and Autobiography James L. O'Rourke, 2006 In *Sex Lies and Autobiography* James O'Rourke explores the relationships between literary form and ethics revealing how autobiographical texts are able to confront readers with the moral complexities of everyday life Tracing the ethical legacy of Jean Jacques Rousseau's *Confessions* in a series of English language texts the author shows how Rousseau's doubts about the possibility of ethical behavior in everyday life shadows the first person

narratives of five canonic works William Wordsworth's *Prelude* Charlotte Brontë's *Jane Eyre* and Villette Mary Shelley's *Frankenstein* and Vladimir Nabokov's *Lolita* Offering a fascinating new way of thinking about ethics through literature *Sex Lies and Autobiography* challenges the most fundamental principles of the philosophical study of ethics revealing the innate difference between morality in life and morality in literature O'Rourke begins with Rousseau's inability to reconcile his intuitive belief that he is a good person with the effects that his actions have on others and he goes on to show how this same ethical impasse recurs in the five aforementioned texts The ethical crises these texts describe such as when *Jane Eyre*'s happiness can be purchased only at the cost of Bertha Mason's suicide or when Humbert Humbert's artistry demands the sacrifice of Dolores Haze are not instances of authorial ethical blindness O'Rourke says but rather are ethical challenges that force us as readers to consider our own lives In each of these works a narrator attempts to justify his or her behavior and fails in each case the rigorous narrative of self-examination demands a similar effort from the reader whose own sense of moral rectitude is put into question Confronting the long-held philosophical construction that links ethical principles and life choices thereby reassuring us of the ethical coherence of everyday life the narrators of these literary autobiographies come to a very different conclusion by looking back on their lives they cannot understand how their most benevolent desires led to such damaging life stories By leaving meaning inexplicit O'Rourke argues these texts are able to recover traumatic material that is ordinarily repressed and then bring that repressed knowledge to bear on self-justifying narratives For readers interested in autobiographical studies ethical criticism and trauma and literary studies *Sex Lies and Autobiography* provides a groundbreaking analysis of the role of ethics in literature

Freud and His Critics Paul Robinson, 2024-06-04 Wars against Freud were waged along virtually every front in the 1980s In *Freud and His Critics* Paul Robinson takes on three of Freud's most formidable detractors mounting a thoughtful witty and ultimately devastating critique of the historian of science Frank Sulloway the psychoanalyst Jeffrey Masson and the philosopher Adolf Grünbaum Frank Sulloway contends that Freud took most of his ideas from Darwin and other contemporary thinkers that he was something of a closet biologist Jeffrey Masson charges that Freud caved in to peer pressure when he abandoned his early seduction theory which Masson believes was correct in favor of the theory of infantile sexuality Adolf Grünbaum impugns Freud's claim to have grounded his ideas especially the idea of the unconscious on solid empirical foundations Under Robinson's rigorous cross-examination the evidence of these three accusers proves ambiguous and their arguments biased by underlying assumptions and ideological commitments Robinson concludes that the anti-Freudian writings of Sulloway Masson and Grünbaum reveal more about their authors' prejudices and about the Zeitgeist of the 1980s than they do about Freud Indeed they fundamentally distort and diminish Freud pointedly ignoring his remarkable historical achievement the invention of a new way of thinking about the self that has revolutionized the modern imagination This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice
