Seeds Of Innovation:

The Seeds of Innovation Elaine Dundon,2002 Consultant Dundon describes the three components of innovation as creative thinking strategic thinking and transformational thinking She argues that innovation is not restricted to right brainers or to new products and technologies and that small steps of evolution can be as valuable as great leaps of revolution Annotation copyrighted by Book News Inc Portland OR **Seeds of Innovation** Elaine Dundon,Organization Design & Development, Inc.,Alex Pattakos,2003 **Seeds Of Innovation The: Cultivating The Synergy That Fosters New Ideas**

Elaine Dundon,2007 *User-Innovation* Viktor Braun,Cornelius Herstatt,2009-06-06 Economic growth is highly dependent on technological progress and innovation yet the sources from which these innovations originate are still largely misunderstood and untapped Recent research has demonstrated that users rather than manufacturers are often a critical source of innovation in numerous fields from extreme sports to medical devices to software This book systematically identifies the most important barriers to user innovation and critically evaluates the democratization of innovation argument by critically assessing the main legal economic technological and societal barriers to user innovation for the first time and proposing alternative possibilities Through original research the author reveals the dynamics of user innovation and offers strategies for minimizing those factors that inhibit and stifle the spread of this phenomenon From this analysis it becomes clear that user innovation has become more difficult over time and that the problem is now of how manufacturers can enable users to overcome the discussed barriers and simultaneously benefit from such consumer driven activities Arguing that licenses are not just an important technology commercialization instrument but are tools critical to generating innovations the author explains how licenses can in certain situations be employed to help users overcome some of the barriers to user innovation User Innovation Barriers to Democratization and IP Licensing is a practical guidebook as well as a startlingly original work of scholarship that will be essential reading for years to come Seed Science Barrett
