dynamic socionatural conditions But the practice and its practitioners are easily taken for granted even as they are threatened by neoliberalisation Combining original ethnographic research with investigation of an evolving corporate seed order this book reveals seed saving not only as it occurs in fields and gardens but also as it associates with genebanking genetic engineering intellectual property rights and agrifood regulations Drawing on diverse social sciences literatures Phillips illustrates ongoing practices of thinking feeling and acting with seeds raising questions about what seed people relations should accomplish and how different ways of relating might be pursued to change collective futures

NEW TESTAMENT CONTEXTUAL COMMENTARY Dr. Robert R. Seyda, 2024-05-16 Here John advises us that loving one another is not an option or a suggestion it is a commandment John doesn t want any believer to become like Adam and Eve s firstborn Cain That happened because Cain was under the influence of Satan This is therefore a warning not to mess with the world So what if they hate us We are bound for everlasting life in the presence of God That s why death has no power over us And that s why if our thoughts do not tell us that we are guilty we will not be afraid to come to God We can pray to God and we can ask Him to help us He will give us what we ask Him for That is because we obey His commands and we do the things that please Him Furthermore we should all love each other because God makes us able to love other people Everyone who loves other people confirms our claim to be a child of God If anyone says clearly that Jesus is the Son of God God lives in that person And that person lives together with God We know the kind of love that God has for us That s why if we love God we will not be afraid of Him So how do we know that we love God s children We know it when we love God and we do what He tells us to do
