Contemporary Spiritualities Clive Erricker,Jane Erricker,2001-08-01 Spirituality can be understood within both a religious and secular context Fuelled by the controversy that surrounds different understandings of human identity and notions of progress knowledge and truth in modernist and postmodernist contexts the concept of spirituality is a hotly contested topic of debate as to its relevance within contemporary culture and its meaning within religious traditions This book aims to inform readers on this debate and contextualize it within these different frames of reference It approaches the topic of spirituality with an identification of the major influences on contemporary thinking and presents a coherent framework of understanding that links divergent thinking into a common goal Writings range across different thinkers and practitioners within established religious tradition contemporary movements and those who operate within psychological and secular understandings Focusing on the question what does it mean to be human this engaging study attempts to overcome the divide between secular and religious understandings of spirituality *Forest Recollections* Tiyavanich

Kamala,1997-03-01 I stayed in the forest for two nights The first night nothing happened The second night at about one or two in the morning a tiger came which meant that I didn t get any sleep the whole night I sat in meditation scared stiff while the tiger walked around and around my umbrella tent klot My body felt all frozen and numb I started chanting and the words came out like running water All the old chants I had forgotten now came back to me thanks both to my fear and to my ability to keep my mind under control I sat like this from 2 until 5 a m when the tiger finally left A forest monk During the first half of this century the forests of Thailand were home to wandering ascetic monks They were Buddhists but their brand of Buddhism did not copy the practices described in ancient doctrinal texts Their Buddhism found expression in living day to day in the forest and in contending with the mental and physical challenges of hunger pain fear and desire Combining interviews and biographies with an exhaustive knowledge of archival materials and a wide reading of ephemeral popular literature Kamala Tiyavanich documents the monastic lives of three generations of forest dwelling ascetics and challenges the stereotype of state centric Thai Buddhism Although the tradition of wandering forest ascetics has disappeared a victim of Thailand s relentless modernization and rampant deforestation the lives of the monks presented here are a testament to the rich diversity of regional Buddhist traditions The study of these monastic lineages and practices enriches our understanding of Buddhism in Thailand and elsewhere **The Psychology of Meditation** Peter Sedlmeier,2022-05-10 All you need to

Buddhism Today (formerly Known as Metta) ,2001 **Plant Lives** Ellison Banks Findly,2008 This book examines for the first time those threads in Indian thought that present a prolife view of plants Using texts from Vedic Hindu Jain and Buddhist traditions the author argues that there is strong support in early materials that plants are thought to be alive to be sentient and have the one sense of touch to feel pleasure and pain to have an interior consciousness and to be bearers of karma Moreover while plants are traditionally thought to be of tamasic quality with their immobility and dullness they are sometimes described as sattvic with their calmness even mindedness and service to others In fact the author argues plants are frequently used to provide a model for the practiced ascetic in that they bend but don t break with the wind aren t distracted when buzzed by a mosquito and flourish in their steadfastness Given the theoretical discussion of plants within the range of sentient being the book then focus on the intimate life humans have with plants Texts devoted to botany medicine law art literature and religion for example depict human conversation with trees humans marrying trees and humans delineating their responsibilities for the well being of plants in the greatest detail Most difficult is the problem of eating and in that ahimsa or non violence towards plants would be the ideal in the extreme vegetarianism shows up the compromise that

is made once plants are brought into the sentient realm Finally the author explores the founding premises of several current environmental leaders and movements in India that focus on plants e g tree protection tree planting seed saving biodiversity to examine whether contemporary plant oriented ecological activism in India reflects older traditional ideas about plants Asking whether new Hindu Jain or Buddhist movements reflect respective older ideas the author finds that contemporary Indian practices remain on the whole authentic reflections of their older roots **See, Love, Be** Tim Stead,2018-06-21 Many have been hugely helped by mindfulness practice But how do we move beyond our initial goal of functioning well to live a life marked by deep awareness genuine compassion and ease of being Tim Stead is an accredited mindfulness teacher who seeks to explore this very question Offering new versions of familiar practices he meditates on three key themes see love be that connect strongly with the concerns of many great spiritual traditions This warm hearted book will resonate as much with those who do not have a faith commitment as with those who do Thoughtful and intensely practical See Love Be offers a fascinating insight into the human condition I particularly enjoyed the use of the well judged poems at the end of each chapter Michael Mosley science journalist TV presenter and producer **The Intimate Way of Zen** James Ishmael Ford,2024-07-23 An intimate mystery encompasses you and tugs upon your heart what does it mean to follow that tug across the arc of a spiritual life Reflecting out of more than fifty years of practice in Zen Buddhism Unitarian Universalism and other contemplative traditions James Ishmael Ford invites us into a journey through life s mysteries and the stages of spiritual development Lightly structured by the archetypal Buddhist oxherding images Ford s exploration is rooted in the Zen way while being deeply enriched by various strains of world mysticism The book sprinkled with insights and quotes from Buddhist Daoist and Christian traditions serves as a map and a companion to spiritual seekers or pilgrims whether within one religious tradition or cobbling together a way of one s own Here is the most natural of all natural experiences writes Ford In the midst of our suffering our longing our desperation we capture a glimpse Something touches us And with that if we are lucky and really notice some movement of some spirit within us we turn our attention to the intimate way **Interreligious Reflections, Six Volume Set** Alon Goshen-Gottstein,2018-08-08 This set includes all six volumes of Interreligious Reflections ABOUT VOLUME ONE Friendship is an outcome of as well as a condition for advancing interfaith relations However for friendship to advance there must be legitimation from within and a theory of how interreligious relations can be justified from the resources of different faith traditions Friendship Across Religions explores these very issues seeking to develop a robust theory of interreligious friendship from the resources of each of the participating traditions It also features individual cases as models and precedents for such relations in particular the friendship of Gandhi and Charlie Andrews his closest personal friend Contributors Balwant Singh Dhillon Timothy J Gianotti Alon Goshen Gottstein Maria Reis Habito Ruben L F Habito Ryan McAnnally Linz Stephen Butler Murray Eleanor Nesbitt Anantanand Rambachan Meir Sender Johann M Vento and Miroslav Volf ABOUT VOLUME TWO This book tackles the core problem of how painful historical memories

between diverse religious communities continue to impact even present day relations. Its operative notion is the healing of memory developed by John Paul II. Chapters explore how painful memories of yesteryear can be healed and so address some of the root causes. Strategies from six different faith traditions are brought together in what is in some ways a cross religious brainstorming session that identifies tools to improve present day relations. At the other pole of the conceptual axis of this book is the notion of hope. If memory informs our past, hope sets the horizon for our future. How does the healing of memory open new horizons for the future? And what is the notion of hope in each of our traditions that could lead to a common vision of good? Between memory and hope, this book seeks to offer a vision of healing that can serve as a resource in contemporary interfaith relations.

ABOUT VOLUME THREE

The essays collected here, prepared by a think tank of the Elijah Interfaith Academy, explore the challenges associated with sharing wisdom, learning, teachings, messages for good living. How should religions go about sharing their wisdom? These chapters, representing six faith traditions: Jewish, Christian, Muslim, Hindu, Sikh, and Buddhist, explore what wisdom means in each of these traditions, why and how it should be shared internally and externally, and the role of love and forgiveness in sharing. This book offers a theory that can enrich ongoing encounters between members of faith traditions by suggesting a tradition based practice of sharing wisdom while preserving the integrity of the teaching and respecting the identity of anyone with whom wisdom is shared.

ABOUT VOLUME FOUR

All the world's religions are experiencing rapid change due to a confluence of social and economic global forces. Factors such as the pervasive intrusion of globalizing political and economic developments, polarized and morally equivalent presentations seen in the media, and the sense of surety demanded in and promised by a culture dominated by science are some of the factors that have placed extreme pressure on all religious traditions. This has stimulated unprecedented responses by religious groups ranging from fundamentalism to the syncretistic search for meaning. As religion takes on new forms, the balance between individual and community is disrupted and reconfigured. Religions often lose the capacity to recall their ultimate purpose or lead their adherents toward it. This is the situation we call the crisis of the holy. It is a confluence of threats, challenges, and opportunities for all religions. This volume explores the contours of pressures, changes, and transformations and reflects on how all our religions are changing. By identifying commonalities across religions as they respond to these pressures, *The Crisis of the Holy* recommends ways religious traditions might cope with these changes and how they might join forces in doing so.
