Seeing Pittsburgh by the Photograph Route Alling and Cory Company, 1912 , **Seeing Pittsburgh** Alling & Cory Company, 1900 Robert Dolan, 2009-06-01 My Wonderful Live With My Beautiful Wife This is a true love story of two people so truly and deeply in love with one another and that made their life so beautiful They enjoyed life to the fullest everyday because of the love they had for one another all of their lives together It is our life story together and it was filled with so much joy happiness peace contentment and the most important thing of all our love of God and the love that God gave us for one another I Have Seen the Future Peter Hartshorn, 2012-01-10 At the dawn of the twentieth century Lincoln Steffens an internationally known and respected political insider went rogue to work for McClure's Magazine Credited as the proverbial father of muckraking reporting Steffens quickly rose to the top of McClure's team of investigative journalists earning him the attention of many powerful politicians who utilized his knack for tireless probing to battle government corruption and greedy politicians A mentor of Walter Lippmann friend of Theodore Roosevelt and advisor of Woodrow Wilson Steffens is best known for bringing to light the Mexican Revolution the 1910 bombing of the Los Angeles Times and the Versailles peace talks Now with print journalism and investigative reporters on the decline Lincoln Steffens biography serves as a necessary call to arms for the newspaper industry Hartshorn's extensive research captures each detail of Steffens' life from his private letters to friends to his long and colorful career and delves into the ongoing internal struggle between his personal life and his overpowering devotion to the cause *International Stereotypers' and Electrotypers' Union Journal*

,1927 *Pittsburgh, how to See it* George Thornton Fleming,1916 **Reinventing Local and Regional Economies**
Gerald L. Gordon,2011-09-28 Recent US economic history is rife with examples of cities and regions that have experienced significant decline Many of those localities began to slide after decades even generations of feeling immune to economic disaster Boeing and Kodak the steel industry in Pittsburg and the automotive industry in Detroit all expected to make it golden in The Playground ,1909 **Making It in America** Elliott Robert Barkan,2001-05-01 This collection of over 400 biographies of eminent ethnic Americans celebrates a wide array of inspiring individuals and their contributions to U S history The stories of these 400 eminent ethnic Americans are a testimony to the enduring power of the American dream These men and women from 90 different ethnic groups certainly faced unequal access to opportunities Yet they all became renowned artists writers political and religious leaders scientists and athletes Kahlil Gibran Daniel Inouye Zbigniew Brzezinski Thurgood Marshall Madeleine Albright and many others are living proof that the land of opportunity sometimes lives up to its name Alongside these success stories as historian Elliot R Barkan notes in his introduction to this volume there have been many failures and many immigrants who did not stay in the United States Nevertheless the stories of these trailblazers visionaries and champions portray the breadth of possibilities from organizing a nascent community to winning the Nobel prize They also provide irrefutable evidence that no single generation and no single cultural heritage can claim credit for what America is *The National Magazine; A Monthly Journal of American History* ,1885 *After the Factory* James J. Connolly,2010-10-14 The most pressing question facing the small and mid sized cities of America s industrial heartland is how to reinvent themselves Once thriving communities in the Northeastern and Midwestern U S have decayed sharply as the high wage manufacturing jobs that provided the foundation for their prosperity disappeared A few larger cities had the resources to adjust but most smaller places that relied on factory work have struggled to do so Unless and until they find new economic roles for themselves the small cities will continue to decline Reinventing these smaller cities is a tall order A few might still function as nodes of industrial production But landing a foreign owned auto manufacturer or a green energy plant hardly solves every problem The new jobs will not be unionized and thus will not pay nearly as much as the positions lost The competition among localities for high tech and knowledge economy firms is intense Decaying towns with poor schools and few amenities are hardly in a good position to attract the creative class workers they need Getting to the point where they can lure such companies will require extensive retooling not just economically but in terms of their built environment cultural character political economy and demographic mix Such changes often run counter to the historical currents that defined these places as factory towns *After the Factory* examines the fate of industrial small cities from a variety of angles It includes essays from a variety of disciplines that consider the sources and character of economic growth in small cities They delve into the history of industrial small cities explore the strategies that some have adopted and propose new tacks for these communities as they struggle to move forward in the twenty first century Together they constitute a
