

A serene sunset scene over a calm body of water. The sun is a bright, glowing orb in the upper left, casting a long, shimmering reflection down the center of the water. In the distance, a small boat is visible on the water's surface. The sky is a gradient of warm orange and yellow, and the horizon is dark with silhouettes of land.

Volume 11, Tome I: Kierkegaard's Influence on Philosophy Jon Stewart,2016-12-05 Kierkegaard s relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions The present volume documents these different traditions of the philosophical reception of Kierkegaard s thought and the articles featured demonstrate the vast reach of Kierkegaard s writings in philosophical contexts that were often quite different from his own Tome I is dedicated to exploring the reception of Kierkegaard in Germanophone and Scandinavian philosophy Kierkegaard has been a major influence for such different philosophical projects as phenomenology hermeneutics dialogical thinking critical theory Marxism logical positivism and ordinary language philosophy Similarly in Denmark and Norway Kierkegaard s writings have been more or less constantly discussed by important philosophers despite the later dominance of analytic philosophy in these countries The present tome features articles on the leading Germanophone and Scandinavian philosophers influenced by Kierkegaard s thought

contemporary art world **The Afterlife of Texts in Translation** Edmund Chapman,2019-11-14 The Afterlife of Texts in Translation Understanding the Messianic in Literature reads Walter Benjamin s and Jacques Derrida s writings on translation as suggesting that texts exist within a process of continual translation Understanding Benjamin s and Derrida s concept of afterlife as overliving this book proposes that reading Benjamin s and Derrida s writings on translation in terms of their wider thought on language and history suggests that textuality itself possesses a messianic quality Developing this idea in relation to the many rewritings and translations of Don Quijote particularly the multiple rewritings by Jorge Luis Borges Edmund Chapman asserts that texts consist of a structure of potential for endless translation that continually promises the overcoming of language history and textuality itself **The Aesthetic Ground of Critical Theory** Nathan Ross,2015-08-27

Walter Benjamin and Theodor W Adorno are considered today to be the two most significant early theorists in founding critical theory In their works and correspondence both thinkers turn to art and the aesthetic as a vital way for understanding modern society and developing philosophical methods This volume of original essays seeks to understand how they influenced each other and disagreed with each other on fundamental questions about art and the aesthetic The books deals with a variety of key philosophical questions such as How does art involve distinctive modes of experience What is the political significance of modern art What does aesthetic experience teach us about the limitations of conceptual thought How is aesthetic experience implicated in the very medium of thought language Ultimately the book presents a systematic argument for the foundational significance of the aesthetic in the development of the early critical theory movement

Kafka and the Universal Arthur Cools,Vivian Liska,2016-07-25 Kafka s work has been attributed a universal significance and is often regarded as the ultimate witness of the human condition in the twentieth century Yet his work is also considered paradigmatic for the expression of the singular that cannot be subsumed under any generalization This paradox engenders questions not only concerning the meaning of the universal as it manifests itself in and is transformed by Kafka s writings but also about the expression of the singular in literary fiction as it challenges the opposition between the universal and the singular The contributions in this volume approach these questions from a variety of perspectives They are structured according to the following issues ambiguity as a tool of deconstructing the pre established philosophical meanings of the universal the concept of the law as a major symbol for the universal meaning of Kafka s writings the presence of animals in Kafka s texts the modernist mode of writing as challenge of philosophical concepts of the universal and the meaning and relevance of the universal in contemporary Kafka reception This volume examines central aspects of the interplay between philosophy and literature **The Selected Writings of Andrew Lang** Tom Hubbard,2016-12-08
