The Regulation of International Commercial Arbitration João Ilhão Moreira,2024-07-25 This book addresses how the regulation of international commercial arbitrators takes place International commercial arbitrators are a unique category of service providers because they are not organised as other professionals such as accountants lawyers and doctors The book provides an overview of how and why the regulation of international commercial arbitrators diverged from that of other professions It also argues that despite these differences there is an effective regulatory environment overseeing the behaviour of international commercial arbitrators The book unpicks the different elements that contribute to the creation and enforcement of professional norms in this field It explains how the specific characteristics of the arbitral market create strong incentives for ethical norms to be created even in the absence of the institutions that usually address these issues in

other fields It also describes how market and social forces drive arbitrators to comply with these norms in most circumstances Finally the book addresses the ways in which this regulatory system also explains some of the perceived weaknesses of arbitration namely the rising costs of proceedings and the perceived unfairness of appointments **Selected Commercial Statutes** West Publishing Company,1989 Select List of Recent Publications East-West Center.
