Classical Japanese Cinema Revisited Catherine Russell, 2011-06-16 Catherine Russell's highly accessible book approaches Japanese cinema as an industry closely modeled on Hollywood, focusing on the classical period, those years in which the studio system dominated all film production in Japan from roughly 1930 to 1960. Respectful and thoroughly informed about the aesthetics and critical values of the Japanese canon, Russell is also critical of some of its ideological tendencies, and her analyses provide new insights on class and gender dynamics. Russell locates Japanese cinema within a global system of reception and she highlights the importance of the industrial production context of these films. Including studies of landmark films by Ozu, Kurosawa, and other directors, this book provides a perfect introduction to a crucial and often misunderstood area of Japanese cultural output. With a critical approach that highlights the everydayness of Japanese studio-era cinema, Catherine Russell demystifies the canon of great Japanese cinema, treating it with fewer auteurist and Orientalist assumptions than many other scholars and critics. **The Epic in Film** Constantine Santas, 2008 Encourages us to wonder why critics have routinely dismissed the epic film. This work argues that blockbuster and artistic are not mutually exclusive terms and that epic film is an inherently profound genre in its ability to tap into a nation's dreams and fears.

Race, Class, and Gender in "Medieval" Cinema L. Ramey, T. Pugh, 2007-02-19 The medieval film genre is not in general concerned with constructing a historically accurate past, but much analysis nonetheless centers on highlighting anachronisms. This book aims to help scholars and aficionados of medieval film think about how the re-creation of an often mythical past performs important cultural work for modern directors and viewers. The essays in this collection demonstrate that directors intentionally insert modern preoccupations into a setting that would normally be considered incompatible with these concepts. The Middle Ages provide an imaginary space far enough removed from the present day to explore modern preoccupations with human identity. **Creating Japan's Ground Self-Defense Force, 1945-2015** David Hunter-Chester, 2016-11-30 *Creating Japan's Ground Self-Defense Force 1945-2015* is a timely contribution to postwar Japan security studies. It is the first comprehensive account of Japan's post-1945 army, including a comprehensive institutional

history together with the evolution of roles and missions and the adoption of successive professional identities The organizational history is embedded within a thorough examination of Japan's own defense policy as well as of America's policy of alliance with Japan The book examines and challenges assumptions about the drafting and adoption of the War Renunciation clause of Japan's postwar Peace Constitution Article 9 which uniquely not only renounces war but the arms to wage war Thus Japan's army is not called an army but the Ground Self Defense Force GSDF The work also examines the place of an army and soldiers in the formation of Japan's national identity after its last devastating war and explores the impact of constitutional legal and policy restrictions as well as the power of the legacy of the still largely vilified Imperial Japanese Army on GSDF members who seek to serve because there are people we want to protect The study is rounded by an examination of the place of soldiers in Japan's popular culture focused on movies manga and anime assessing the impact on the GSDF of a public imagination that most often ignores or villainizes soldiers though ending with a note that some positive images of soldiers and of the GSDF members themselves have started to appear in the last few years The book's author a retired U S Army soldier who spent more than twenty years working studying and training with the GSDF offers a broad ranging exploration of a unique organization This work is extensively researched using English and Japanese sources and will appeal to anyone interested in Japanese security studies alliance studies and military imagery in Japanese pop culture as well as to students of military history international security international relations and cultural identity Akira Kurosawa Eric San Juan, 2018-12-15 The career of acclaimed filmmaker Akira Kurosawa spanned more than five decades during which he directed more than thirty movies many of them indisputable classics Rashomon Ikiru Seven Samurai The Hidden Fortress Throne of Blood and Yojimbo among others During the height of his creative output Kurosawa became one of the most influential and well known directors in the world inspiring filmmakers like Steven Spielberg and George Lucas and movies such as The Magnificent Seven The Good the Bad and the Ugly and Star Wars In Akira Kurosawa A Viewer's Guide Eric San Juan provides a comprehensive yet accessible examination of the artist's entire cinematic endeavors From early films of the 1940s such as Sanshiro Sugata and No Regrets for Our Youth to Oscar winner Dersu Uzala the author helps readers understand what makes Kurosawa's work so powerful Each discussion includes a brief synopsis of the film an engaging analysis and thoughtful insights into the film's significance All of Kurosawa's works from 1943 to 1993 are analyzed here including the overlooked television documentary Song of the Horse produced in 1970 In addition to more than twenty photos Akira Kurosawa A Viewer's Guide provides rich discussions that will appeal to students of cinema as well as anyone who wants to learn more about Japan's greatest director **Warrior Magic** Tomás Prower, 2022-01-08 Fight for a Better World with Inspiration from the Past and Present Written with a mix of reverence and passion Warrior Magic is the first multicultural journey into understanding the role of magic in resistance and warfare around the world Tom's Prower invites you to journey throughout history and see how people have allied with spirits and the divine to defy their oppressors This

Spiritual Films James Piper,2013-08-02 For decades centuries even when people thought of spirituality they thought only

of religion I aim to stretch the tent of spirituality in this e book to include secular experience My particular approach to secular spirituality is through the medium of film Characters in the 43 films I discuss come to spirituality without religion In some of these films religion nibbles at the edges of events as when in the Brazilian film Central Station Dora the cynical letter writer leaves hard bitten Rio with a boy she hopes to return to his father and finds herself surrounded by evangelicals shrines and churches She does not have any kind of religious conversion but there is no denying that the piety of the countryside softened her and escorted her into spirituality Now and then I quote assorted Buddhists Muslims Christians and Jews but usually only when their remarks throw light on secular matters I have avoided relying on muddled mystics who write about the Great Turning Cosmic Oneness of Everything I dont know what they are talking about [The DVD and the Study of Film](#) M.
