Cataloging Policy and Support Office,2007 Words and Their Stories Ban Wang,2010-10-05 As China joins the capitalist world economy the problems of social disintegration that

gave rise to the earlier revolutionary social movements are becoming pressing. Instead of viewing the Chinese Revolution as an academic study, these essays suggest that the motifs of the Revolution are still alive and relevant. The slogan 'Farewell to Revolution' that obscures the revolutionary language is premature. In spite of dislocations and ruptures in the revolutionary language, to rethink this discourse is to revisit a history in terms of sedimented layers of linguistic meanings and political aspirations. Earlier meanings of revolutionary words may persist or coexist with non-revolutionary rivals. Recovery of the vital uses of key revolutionary words proffers critical alternatives in which contemporary capitalist myths can be contested.

Chinese Women in a Century of Revolution, 1850-1950 Kazuko Ono, 1989. Spanning the century from the Taiping Rebellion through the establishment of the People's Republic of China, this is the first comprehensive history of women in modern China. Its scope is broad, encompassing political, economic, military, and cultural history, and drawing upon Chinese and Japanese sources untapped by Western scholars. The book presents new information on a wide range of topics: the impact of Western ideas on women, especially in education; the importance of women in the labor force; the relative independence enjoyed by some women textile workers; the struggle against footbinding; the influence of anarchism; the participation of a women's brigade in the Revolution of 1911; the role of women in the May Fourth Movement; the differences between the more assertive women of South China and the traditional women of the North in organizing for political action; the involvement of peasant women in insurgency and anti-Japanese struggles in the countryside; and the effects of the Marriage Law of 1950. The author has contributed a new preface to this English edition, and Joshua A. Fogel and Susan Mann have written an introduction that places the book in the context of studies of Chinese women, Japanese sinology, and women's history in general. The book has extensive notes, a bibliography, and as an appendix, a chronology of the history of women in modern China.

Mao's Cultural Army Brian James DeMare, 2015-04-02. This study explores the role of drama troupes that were tasked with roaming the countryside in support of Mao's communist revolution in China. Caught between the party and their audiences, the book illustrates how drama troupes, through performance, attempted to resist the ever-growing reach of the People's Republic of China state.

Bajwa, 2002 The Author Has Not Only Traced The History Of The

People's Liberation Army PLA but also that of the People's Republic of China PRC during its formative years. More interestingly, the author probes the ethos and psyche of the Chinese leadership past and present. He explains how deeply the philosophy of war and statecraft as propounded by Sun Tzu is ingrained and embedded even in modern China.

A Covenantal Imagination William Johnson Everett, 2021-12-15 This harvest of articles drawn from William Johnson Everett's career of teaching and research on four continents and in a variety of institutions shows the breadth, depth, and diversity of his interests. Like spotlights in the wider field of Christian social ethics, they illuminate the key threads that have held together an emerging tapestry of thought woven around the powerful concept of covenant. Whether lifting up concepts of covenant federalism and corporation, the oikos of work, family, and faith, the public nature and mission of the church, or the ethical meaning of journey metaphors, his rich and artful style leads us into thinking more deeply about the way our lives are joined in a covenantal imagination about a more just and sustainable world.

A Military History of China David A. Graff, Robin Higham, 2012-04-13 Gaining an understanding of China's long and sometimes bloody history can help to shed light on China's ascent to global power. Many of China's imperial dynasties were established as the result of battle, from the chariot warfare of ancient times to the battles of the Guomindang (KMT) and Communist regimes of the twentieth century. China's ability to sustain complex warfare on a very large scale was not emulated in other parts of the world until the Industrial Age, despite the fact that the country is only now rising to economic dominance. In *A Military History of China*, Updated Edition, David A. Graff and Robin Higham bring together leading scholars to offer a basic introduction to the military history of China from the first millennium B.C.E. to the present. Focusing on recurring patterns of conflict rather than traditional campaign narratives, this volume reaches farther back into China's military history than similar studies. It also offers insightful comparisons between Chinese and Western approaches to war. This edition brings the volume up to date, including discussions of the Chinese military's latest developments and the country's most recent foreign conflicts.
