*The Long View* Richard Fisher, 2023-03-30 A wide ranging and thought provoking exploration of the importance of long term thinking Humans are unique in our ability to understand time able to comprehend the past and future like no other species Yet modern day technology and capitalism have supercharged our short termist tendencies and trapped us in the present at the mercy of reactive politics quarterly business targets and 24 hour news cycles It wasn't always so In medieval times craftsmen worked on cathedrals that would be unfinished in their lifetime Indigenous leaders fostered intergenerational reciprocity And in the early twentieth century writers dreamed of worlds thousands of years hence Now as we face long term challenges on an unprecedented scale how do we recapture that far sighted vision Richard Fisher takes us from the boardrooms of Japan home to some of the world's oldest businesses to European laboratories where scientists work as custodians on centuries long experiments He examines the psychological biases that discourage the long view and talks to the growing number of people from the worlds of philosophy technology science and the arts who are exploring smart ways to overcome them How can we learn to widen our perception of time and honour our obligations to the lives of those not yet born

**Longer Views** Samuel R. Delany, 2016-03-15 Six essays from the critic and award winning author exploring topics such as theater LGBTQ scholarship cyborgs metaphors and *Star Wars* Reading is a many layered process like writing observes Samuel R Delany a Nebula and Hugo Award winning author and a major commentator on American literature and culture In this collection of six extended essays Delany challenges what he calls the hard edged boundaries of meaning by going beyond the customary limits of the genre in which he's writing By radically reworking the essay form Delany can explore and express the many layers of his thinking about the nature of art the workings of language and the injustices and ironies of social political and sexual marginalization Thus Delany connects in sometimes unexpected ways topics as diverse as the origins of modern theater the context of lesbian and gay scholarship the theories of cyborgs how metaphors mean and the narrative structures in the *Star Wars* trilogy Over the course of his career Kenneth James writes in his extensive introduction Delany has again and again thrown into question the world models that all too many of us unknowingly live by Indeed Delany challenges an impressive list of world models here including High and Low Art sanity and madness mathematical logic and the mechanics of mythmaking the distribution of wealth in our society and the limitations of our sexual vocabulary Also included are two essays that illustrate Delany's unique chrestomathic technique the grouping of textual fragments whose associative interrelationships a reader must actively trace to read them as a

resonant argument Whether writing about Wagner or Hart Crane Foucault or Robert Mapplethorpe Delany combines a fierce and often piercing vision with a powerful honesty that beckons us to share in the perspective of these Longer Views An intellectually adventurous book Every page of every essay here rewards a second reading and a third Delany has a fearsomely stocked intellect and a wider range of experience than most writers can even imagine He is brilliant driven prolific The Nation One of science fiction s grand masters Delany s elegant command of language and deep insight into other authors works are delightful to behold Booklist Rare personal frankness and stunning erudition Recommended for readers who enjoy the challenge of being led into remote regions of a gifted mind Library Journal      **A New History of British**

Chapman,2015-03-11 A New History of British Documentary is the first comprehensive overview of documentary production in Britain from early film to the present day It covers both the film and television industries and demonstrates how documentary practice has adapted to changing institutional and ideological contexts      Mimetic Theory and World Religions Wolfgang Palaver,Richard Schenk,2017-11-01 Those who anticipated the demise of religion and the advent of a peaceful secularized global village have seen the last two decades confound their predictions Ren Girard s mimetic theory is a key to understanding the new challenges posed by our world of resurgent violence and pluralistic cultures and traditions Girard sought to explain how the Judeo Christian narrative exposes a founding murder at the origin of human civilization and demystifies the bloody sacrifices of archaic religions Meanwhile his book Sacrifice a reading of conflict and sacrificial resolution in the Vedic Brahmanas suggests that mimetic theory s insights also resonate with several non Western religious and spiritual traditions This volume collects engagements with Girard by scholars of Judaism Christianity Islam Hinduism and Buddhism and situates them within contemporary theology philosophy and religious studies

**Childhood and Nation in Contemporary World Cinema** Stephanie Hemelryk Donald,Emma Wilson,Sarah Wright,2017-02-09 The child has existed in cinema since the Lumi re Brothers filmed their babies having messy meals in Lyons but it is only quite recently that scholars have paid serious attention to her his presence on screen Scholarly discussion is now of the highest quality and of interest to anyone concerned not only with the extent to which adult cultural conversations invoke the figure of the child but also to those interested in exploring how film cultures can shift questions of agency and experience in relation to subjectivity Childhood and Nation in World Cinema recognizes that the range of films and scholarship is now sufficiently extensive to invoke the world cinema mantra of pluri vocal and pluri central attention and interpretation At the same time the importance of the child in figuring ideas of nationhood is an undiminished tic in adult cultural and social consciousness Either the child on film provokes claims on the nation or the nation claims the child Given the waning star of national film studies and the widely held and serious concerns over the status of the nation as a meaningful cultural unit the point here is not to assume some extraordinary pre social geopolitical empathy of child and political entity Rather the present collection observes how and why and whether the cinematic child is indeed aligned to

concepts of modern nationhood to concerns of the State and to geo political organizational themes and precepts

**Rethinking Religion and Politics in a Plural World** Julia Berger, 2021-01-14 In this book Julia Berger examines internal meaning making structures and processes driving NGO behavior identifying constructs from within a religious tradition that forge new ways of pursuing social change She evaluates the operation of a distinct rationality arguing that action is guided not simply by beliefs and values but also by a combination of elements so intrinsic as to constitute an organizational DNA These hidden structures and rationalities manifest themselves in new modes of engagement and agency they help us to see the pivotal role of religion in shaping notions of peace progress and modernity To demonstrate the operation and salience of such a rationality Berger draws on the example of the worldwide Baha'i community Emerging in 19th century Iran the community's theological engagement with questions of justice the unity of humankind and the emerging global order constitute one of the most distinct and compelling yet least researched examples of religious engagement with the pressing questions of our time Analyzing events spanning a 75 year period from 1945-2020 this book provides a unique historical and contemporary perspective on the evolving role of religion and civil society in the modern world

*The Challenge of World Theatre History* Steve Tillis, 2020-09-19 The future of theatre history studies requires consideration of theatre as a global phenomenon *The Challenge of World Theatre History* offers the first full scale argument for abandoning an obsolete and parochial Eurocentric approach to theatre history in favor of a more global perspective This book exposes the fallacies that reinforce the conventional approach and defends the global perspective against possible objections It moves beyond the conventional nation based geography of theatre in favor of a regional geography and develops a new way to demarcate the periods of theatre history Finally the book outlines a history that recognizes the often connected developments in theatre across Eurasia and around the world It makes the case that world theatre history is necessary not only for itself but for the powerful comparative and contextual insights it offers to all theatre scholars and students whatever their special areas of interest

*The Super Summary of World History Revised* Alan Dale Daniel BA MBA JD, 2008-10-20 The Super Summary of World History is a very compact history of the world emphasizing western culture and political processes The Super Summary is for the thinking person This new history raises exciting questions and puts events into new perspectives to stimulate real thinking about history rather than accepting that the past is set in stone History isn't just names and dates but a range of decisions and actions that often turn on the smallest circumstance The Super Summary analyzes a few events in depth but most are put into their historical framework so the reader can discern where and how all of this action escorts us to the present day If history seems dull pick up *The Super Summary* to discover that Western History is alive with controversy and consequence

Stay, Watch, Pray Frank Bahr, 2022-05-24 The disciples asked Jesus to teach them how to pray Our prayers must be genuine but what God wants from us in prayer may not readily spring to mind for example to honor the holiness of God's name or to pray for people who abuse us Does merely adding God turn a wish into a prayer How is prayer related to our understanding of who God is his omniscience love and power In prayer we expect God to act but how does that relate to our own love and work We pray in the name of Jesus So what difference does it make that God's Son became flesh suffered died and lives again How does the Holy Spirit lead in prayer Why does the Bible provide us with actual prayers Do language literary form location time and body language matter And what does it mean that the apostle cautions Rom 8:26 For we do not know how to pray as we ought Stay Watch Pray tackles these questions and more **The Space Between** Heidi L. Maibom, 2022 When Barack Obama nominated Sonia Sotomayor to the US Supreme Court his comments that a judge should have the heart the empathy to recognize what it's like to be a young teenage mom the empathy to understand what it's like to be poor or African American or gay disabled or old caused a furor Objective reasoned and impartial judgment were to be replaced by partiality sentiment and bias critics feared This concern about empathy has since been voiced not just by conservative critics but by academics and public figures In *The Space Between* Heidi Maibom combines results from philosophy psychology and neuroscience to argue that rather than making us more biased or partial empathy makes us more impartial and more objective The problem is that we don't see the world objectively in the first place Maibom explains We see it in terms of how we are placed in it as an extension of our interests capabilities and relationships This is a perspective and it determines what we pay attention to how we interpret events and what matters to us individually It is not private however By means of the imagination Maibom contends we can place ourselves in another person's web interests capabilities and relationships and viewing the world from there experience a new way of interpreting and valuing what happens This broadens and deepens our understanding of others and the world around us It also helps us understand the greater reality of who we are ourselves Maibom's book weaves together results from philosophy psychology and neuroscience to provide a positive up to date view of what it really means to take another person's perspective and how empathy rather than being the enemy of objectivity is the foundation of it
