Long Time Coming A Photographic Portrait Of America 1935 1943:

Long Time Coming Michael Lesy, 2002 Collects more than four hundred rarely seen or previously unpublished photographs taken between 1935 and 1943 by the Farm Security Administration depicting such subjects as dispossessed rural society large cities and small towns throughout the United States and Puerto Rico 10 000 first printing **The Grass Shall Grow** Mick Gidley, 2020-02-01 The Grass Shall Grow is a succinct introduction to the work and world of Helen M Post 1907 79 who took thousands of photographs of Native Americans Although Post has been largely forgotten and even in her heyday never achieved the fame of her sister Farm Security Administration photographer Marion Post Wolcott Helen Post was a talented photographer who worked on Indian reservations throughout the West and captured images that are both striking and informative Post produced the pictures for the novelist Oliver La Farge s nonfiction book As Long As the Grass Shall Grow 1940 among other publications and her output constitutes a powerful representation of Native American life at that time Mick Gidley recounts Post s career from her coming of age in the turbulent 1930s to her training in Vienna and her work for the U S Indian Service tracking the arc of her professional reputation He treats her interactions with public figures including La Farge and editor Edwin Rosskam and describes her relationships with Native Americans whether noted craftspeople such as the Sioux quilter Nellie Star Boy Menard tribal leaders such as Crow superintendent Robert Yellowtail or ordinary individuals like the people she photographed at work in the fields or laboring for federal projects at school or in the hospital cooking or dancing The images reproduced here are analyzed both for their own sake and in order to understand their connection to broader national concerns including the 1934 Indian Reorganization Act The thoroughly researched and accessibly written text represents a serious reappraisal of a neglected artist **The New Encyclopedia of Southern Culture** Charles Reagan Wilson, 2014-02-01 This volume of The New Encyclopedia of Southern Culture addresses the cultural social and intellectual terrain of myth manners and historical memory in the American South Evaluating how a distinct southern identity has been created recreated and performed through memories that blur the line between fact and fiction this volume paints a broad multihued picture of the region seen through the lenses of belief and cultural practice The 95 entries here represent a substantial revision and expansion of the material on historical memory and manners in the original edition They address such matters as myths and memories surrounding the Old South and the Civil War stereotypes and traditions related to the body sexuality gender and family such as debutante balls and beauty pageants institutions and places associated with historical memory such as cemeteries monuments and museums and specific subjects and objects of myths including the Confederate flag and Graceland Together they offer a compelling portrait of the southern way of life as it has been imagined lived and contested **Trauma and Documentary Photography of the FSA** Sara Blair, Eric M. Rosenberg, 2012 Well conceived and boldly realized these essays provide sophisticated daring interpretive inquiries into a pivotal moment in the history of photography Blake Stimson author of The Pivot of the World Photography and its Nation

With these innovative essays Blair and Rosenberg challenge our understanding of both the documentary impulse and the time when it was defined and canonized Deborah Martin Kao Richard L Menschel Curator of Photography Harvard University Art Museums **The Death and Life of Main Street** Miles Orvell,2012-10-01 For more than a century the term Main Street has conjured up nostalgic images of American small town life Representations exist all around us from fiction and film to the architecture of shopping malls and Disneyland All the while the nation has become increasingly diverse exposing tensions within this ideal In *The Death and Life of Main Street* Miles Orvell wrestles with the mythic allure of the small town in all its forms illustrating how Americans continue to reinscribe these images on real places in order to forge consensus about inclusion and civic identity especially in times of crisis Orvell underscores the fact that Main Street was never what it seemed it has always been much more complex than it appears as he shows in his discussions of figures like Sinclair Lewis Willa Cather Frank Capra Thornton Wilder Margaret Bourke White and Walker Evans He argues that translating the overly tidy cultural metaphor into real spaces as has been done in recent decades especially in the new urbanist planned communities of Elizabeth Plater Zyberk and Andres Duany actually diminishes the communitarian ideals at the center of this nostalgic construct Orvell investigates the way these tensions play out in a variety of cultural realms and explores the rise of literary and artistic traditions that deliberately challenge the tropes and assumptions of small town ideology and life

World War II and the Postwar Years in America William H. Young,Nancy K. Young,2010-09-17 More than 150 articles provide a revealing look at one of the most tempestuous decades in recent American history describing the everyday activities of Americans as they dealt first with war and then a difficult transition to peace and prosperity The two volume *World War II and the Postwar Years in America A Historical and Cultural Encyclopedia* contains over 175 articles describing everyday life on the American home front during World War II and the immediate postwar years Unlike publications about this period that focus mainly on the big picture of the war and subsequent economic conditions this encyclopedia drills down to the popular culture of the 1940s bringing the details of the lives of ordinary men women and children alive The work covers a broad range of everyday activities throughout the 1940s including movies radio programming music the birth of commercial television advertising art bestsellers and other equally intriguing topics The decade was divided almost evenly between war 1940 1945 and peace 1946 1950 and the articles point up the continuities and differences between these two periods Filled with evocative photographs this unique encyclopedia will serve as an excellent resource for those seeking an overview of life in the United States during a decade that helped shape the modern world *Hard Times* Richard Striner,2018-08-15 *Hard Times* presents a comprehensive account of economic depressions in America from colonial times to the great recession that began in 2008 Written in crisp prose for a general audience the book synthesizes a narrative account presenting the known facts about how particular depressions started the effects upon people in different walks of life the policy debates about what if anything to do in order to ameliorate the situation and how these depressions ended with

analytical commentary on the economic patterns underlying and transcending depressions and the debates among economists and policymakers in regard to their causes While these economic downturns have created suffering and hardship Striner also conveys how Americans have always endured and rebounded from hard times Picturing Migrants James R. Swensen, 2015-10 As time passes personal memories of the Great Depression die with those who lived through the desperate 1930s In the absence of firsthand knowledge John Steinbeck's *The Grapes of Wrath* and the photographs produced for the New Deal's Farm Security Administration (FSA) now provide most of the images that come to mind when we think of the 1930s That novel and those photographs as this book shows share a history Fully exploring this complex connection for the first time *Picturing Migrants* offers new insight into Steinbeck's novel and the FSA's photography and into the circumstances that have made them enduring icons of the Depression Looking at the work of Dorothea Lange Horace Bristol Arthur Rothstein and Russell Lee it is easy to imagine that these images came straight out of the pages of *The Grapes of Wrath* This should be no surprise James R. Swensen tells us because Steinbeck explicitly turned to photographs of the period to create his visceral narrative of hope and loss among Okie migrants in search of a better life in California When the novel became an instant best seller upon its release in April 1939 some dismissed its imagery as pure fantasy Lee knew better and traveled to Oklahoma for proof The documentary pictures he produced are nothing short of a photographic illustration of the hard lives and desperate reality that Steinbeck so vividly portrayed In *Picturing Migrants* Swensen sets these lesser known images alongside the more familiar work of Lange and others giving us a clearer understanding of the FSA's work to publicize the plight of the migrant in the wake of the novel and John Ford's award winning film adaptation A new perspective on an era whose hardships and lessons resonate to this day *Picturing Migrants* lets us see as never before how a novel and a series of documentary photographs have kept the Great Depression unforgettably real for generation after generation **The Day in Its Color** Eric Sandweiss, 2013-06-01 Charles Cushman 1896-1972 photographed a disappearing world in living color Cushman's midcentury America a place normally seen only through a scrim of gray reveals itself as a place as vivid and real as the view through our window *The Day in Its Color* introduces readers to Cushman's extraordinary work a recently unearthed archive of photographs that is the largest known body of early color photographs by a single photographer 14,500 in all most shot on vivid color saturated Kodachrome stock From 1938-1969 Cushman a sometime businessman and amateur photographer with an uncanny eye for everyday detail travelled constantly shooting everything he encountered as he ventured from New York to New Orleans Chicago to San Francisco and everywhere in between His photos include portraits ethnographic studies agricultural and industrial landscapes movie sets and media events children playing laborers working and thousands of street scenes all precisely documented in time and place The result is a chronicle of an era almost never seen or even envisioned in color This well preserved collection is all the more remarkable for having gone undiscovered for decades What makes the photos most valuable however is the wide range of subjects landscapes and moods it captures

snapshots of a lost America as yet untouched by a homogenizing overlay of interstate highways urban renewal chain stores and suburban development a world of hand painted signs state fairs ramshackle shops small town living and bustling urban scenes The book also reveals the fascinating and startling life story of the man who stood unseen on the other side of the lens surely one of America's most impressive amateur photographers and outsider artists With over 150 gorgeous color prints *The Day in Its Color* gives us one of the most evocative visual histories of mid 20th century America that we have

The Great Depression in Literature for Youth Rebecca L. Berg, 2004-11-17 No area of the United States was untouched by the Great Depression but the severity in which people experienced those significant years depended in large part on where in the nation they lived While dust choked the life out of Americans in the plains apples grew in abundance in the Northwest Unemployment driven poverty robbed urban dwellers of hearth and home while Upper plains farm women traded eggs and chickens like money This bibliography describes the youth literature and relevant resources written about the Great Depression all categorized by geographical location Students educators historians and writers can use this book to find literature specific to their state or region gaining a greater understanding of what the Great Depression was like in their locale The Great Depression was a pivotal period in our nation's history This annotated bibliography guides readers to biographies oral histories memoirs and recollections photograph collections fiction and nonfiction books picture books international resources and other reference sources The Works Progress Administration WPA state guides are included as well as literature about the federal theater arts and music projects A comprehensive listing of museums and state historical societies complement this reference For readers interested in learning about the Great Depression this is a must have resource

Exposing Mississippi Annette Trefzer, 2022-03-25 WINNER OF THE 2022 EUDORA WELTY PRIZE Internationally known as a writer Eudora Welty has as well been spotlighted as a talented photographer The prevalent idea remains that Welty simply took snapshots before she found her true calling as a renowned fiction writer But who was Welty as a photographer What did she see How and why did she photograph And what did Welty know about modern photography In *Exposing Mississippi* Eudora Welty's Photographic Reflections Annette Trefzer elucidates Welty's photographic vision and answers these questions by exploring her photographic archive and writings on photography The photographs Welty took in the 1930s and 40s frame her visual response to the cultural landscapes of the segregated South during the Depression The photobook *One Time One Place* which was selected curated and shaped into a visual narrative by Welty herself serves as a starting point and guide for the chapters on her spatial hermeneutic The book is divided into sections by locations and offers how the framing of these areas reveals Welty's radical commentary of the spaces her camera captured There are over eighty images in *Exposing Mississippi* including some never before seen archival

photographs and sections of the book draw on over three hundred more The chapters on institutional leisure and memorial landscapes address how Welty's photographs contribute to reflect on and intervene in customary visual constructions of the Depression era South *Music of the World War II Era* William H. Young, Nancy K. Young, 2007-12-30 In the World War II era big bands and swing music reached the heights of popularity with soldiers as well as friends and loved ones back home Many entertainers such as Glenn Miller also served in the military or supported the war effort with bond drives and entertaining the troops at home and abroad In addition to big band and swing music musicals jazz blues gospel and country music were also popular Chapters on each along with an analysis of the evolution of record companies records radios and television are included here for students historians and fans of the era Includes a timeline of the music of the era an appendix of the Broadway and Hollywood Musicals 1939 1945 and an appendix of Songs Composers and lyricists 1939 1945 An extensive discography and bibliography along with approximately 35 black and white photos complete the volume **Root**

Shock Mindy Thompson Fullilove, 2016-10-24 Dr Mindy Thompson Fullilove a clinical psychiatrist exposes the devastating outcome of decades of urban renewal projects to our nation's marginalized communities Examining the traumatic stress of root shock in three African American communities and similar widespread damage in other cities she makes an impassioned and powerful argument against the continued invasive and unjust development practices of displacing poor neighborhoods

The Angelic Mother and the Predatory Seductress Ashley Craig Lancaster, 2012-06-20 In *The Angelic Mother and the Predatory Seductress* Ashley Craig Lancaster examines how converging political and cultural movements helped to create dualistic images of southern poor white female characters in Depression era literature While other studies address the familial and labor issues that challenged female literary characters during the 1930s Lancaster focuses on how the evolving eugenics movement reinforced the dichotomy of altruistic maternal figures and destructive sexual deviants According to Lancaster these binary stereotypes became a new analogy for hope and despair in America's future and were well utilized by Depression era politicians and authors to stabilize the country's economic decline As a result the complexity of women's lives was often overlooked in favor of stock characters incapable of individuality Lancaster studies a variety of works including those by male authors William Faulkner Erskine Caldwell and John Steinbeck as well as female novelists Mary Heaton Vorse Myra Page Grace Lumpkin and Olive Tilford Dargan She identifies female stereotypes in classics such as *To Kill a Mockingbird* and in the work of later writers Dorothy Allison and Rick Bragg who embrace and share in a poor white background *The Angelic Mother and the Predatory Seductress* reveals that these literary stereotypes continue to influence not only society's perception of poor white southern women but also women's perception of themselves *Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts, Volume II* James Flood, Shirley Brice Heath, Diane Lapp, 2015-04-22 *The Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts Volume II* brings together state of the art research and practice on the evolving view of literacy as encompassing not only

reading writing speaking and listening but also the multiple ways through which learners gain access to knowledge and skills. It forefronts as central to literacy education the visual communicative and performative arts and the extent to which all of the technologies that have vastly expanded the meanings and uses of literacy originate and evolve through the skills and interests of the young. SAGE Visual Methods Jason Hughes, 2012-07-23. In contemporary Western societies the visual domain has come to assume a hitherto unprecedented cultural centrality. Daily life is replete with a potentially endless stream of images and other visual messages from the electronic and paper-based billboards of the street to the TV and Internet feeds of the home. The visual has become imbued with a symbolic potency, a signifying power that seemingly eclipses that of all other sensory data. The central aim of this four-volume collection is to explore key approaches to visual research methods and to consider some of the core principles, issues, debates and controversies surrounding the use of visual techniques in relation to three key enterprises: 1. documentation and representation, 2. interpretation and classification, and 3. elicitation and collaboration. Volume One: Principles, Issues, Debates and Controversies in Visual Research serves as a theoretical backdrop to the field as a whole. It introduces core epistemological, ethical and methodological debates that effectively cut across the four-volume collection as a whole. Volume Two: Documentation and Representation illustrates approaches to visual documentation and representation from classical documentaries to contemporary state-of-the-art modes of visual anthropology and ethnography. Volume Three: Interpretation and Classification examines core debates surrounding and approaches to visual analysis. Volume Four: Elicitation and Collaboration explores participative approaches to visual inquiry.

A Staggering Revolution John Raeburn, 2010-10-01. During the 1930s the world of photography was unsettled, exciting and boisterous. John Raeburn's *A Staggering Revolution* recreates the energy of the era by surveying photography's rich variety of innovation, exploring the aesthetic and cultural achievements of its leading figures and mapping the paths their pictures blazed. Public imagination. While other studies of thirties photography have concentrated on the documentary work of the Farm Security Administration (FSA), no previous book has considered it alongside so many of the decade's other important photographic projects. *A Staggering Revolution* includes individual chapters on Edward Steichen's celebrity portraiture, Berenice Abbott's Changing New York project, the Photo League's ethnography of Harlem, and Edward Weston's western landscapes made under the auspices of the first Guggenheim Fellowship awarded to a photographer. It also examines Margaret Bourke-White's industrial and documentary pictures, the collective undertakings by California's Group f 64, and the fashion magazine specialists as well as the activities of the FSA and the Photo League.
