The Oxford History of the Novel in English Simon Gikandi, 2016-09-05 Why did the novel take such a long time to emerge in the colonial world And what cultural work did it come to perform in societies where subjects were not free and modes of social organization diverged from the European cultural centers where the novel gained its form and audience Answering these questions and more Volume 11 *The Novel in Africa and the Caribbean* since 1950 explores the institutions of cultural production that exerted influence in late colonialism from missionary schools and metropolitan publishers to universities and small presses How these structures provoke and respond to the literary trends and social peculiarities of Africa and the Caribbean impacts not only the writing and reading of novels in those regions but also has a transformative effect on the novel as a global phenomenon Together the volume's 32 contributing experts tell a story about the close relationship between the novel and the project of decolonization and explore the multiple ways in which novels enable readers to imagine communities beyond their own and thus made this form of literature a compelling catalyst for cultural transformation The authors show that even as the novel grows in Africa and the Caribbean as a mark of the elites mastery of European form it becomes the essential instrument for critiquing colonialism and for articulating the new horizons of cultural nationalism Within this historical context the volume examines works by authors such as Chinua Achebe Nadine Gordimer George Lamming Jamaica Kincaid V S Naipaul Zoe Wicomb J M Coetzee and many others *The Wiley Blackwell Anthology of African American Literature, Volume 2* Gene Andrew Jarrett, 2014-01-28 The Wiley Blackwell Anthology of African American Literature is a comprehensive collection of poems short stories novellas novels plays autobiographies and essays authored by African Americans from the eighteenth century until the present Evenly divided into two volumes it is also the first such anthology to be conceived and published for both classroom and online education in the new millennium Reflects the current scholarly and pedagogic structure of African American literary studies Selects literary texts according to extensive research on classroom adoptions scholarship and the expert opinions of leading professors Organizes literary texts according to more appropriate periods of literary history dividing them into seven sections that accurately depict intellectual cultural and political movements Includes more reprints of entire works and longer selections of major works than any other anthology of its kind This second volume contains a comprehensive collection of texts authored by African Americans from the 1920s to the present The two volumes of this landmark anthology can also be bought as a set at over 20% savings *Staying Power* Peter Fryer, 1984 For this retrieval of the lost histories of black Britain Mr Fryer has my deep gratitude An invaluable book Salman Rushdie **The Dawn of a Dream (At Home in Beldon Grove Book #3)** Ann Shorey, 2011-04-01 Luellen O Connell is stunned and confused when her husband of just one month tells her he is leaving and that he has another wife Deeply wounded by this betrayal Luellen decides to follow the dream she had set aside of obtaining a teaching degree But her wayward husband left something behind when he abandoned her Can Luellen overcome the odds and achieve her dream Can she hide her secret or will it destroy her dreams forever A moving story of tenacity and perseverance in the face of

opposition The Dawn of a Dream will inspire readers to discover and follow their own dreams **Jane Austen and the Creation of Modern Fiction** Collins Hemingway, 2024-05-23 Jane Austen's creative process has been largely unexamined This book explores her development as a writer what she adapted from tradition for her needs what she learned novel to novel how she used that learning in future works and how her ultimate mastery of fiction changed the course of English literature Jane Austen overcame the limitations of early fiction by pivoting from superficial adventures to the psychological studies that have defined the novel since Her creativity and technique grew as she wrestled with pragmatic writing issues This evaluation of Austen's creative process brings into focus the strengths and weaknesses of her six novels Each is examined in its use of major fictional techniques description scene building point of view and psychological development to reveal unique literary attributes The result is a revealing analysis of how world class fiction is built from the ground up

material The result an enriching interpretive mode focused on the transnational connections between subjects of African descent as the central pole for reader investigation A bold challenge to established scholarship Autochthonomies ranges from Africa to Europe and the Americas to provide powerful new tools for charting the transnational interactions between African cultural producers and sites
