agents A listing of members of the American Academy of Arts and Letters *History Lessons* Dana Lindaman, Kyle Ward, 2006-07-04 A fascinating look at what students in Russia France Iran and other nations are taught about America The New York Times Book Review This timely and important book History News Network gives us a glimpse into classrooms across the globe where opinions about the United States are first formed History Lessons includes selections from textbooks and teaching materials used in Russia France Iran Saudi Arabia Cuba Canada and others covering such events as the American Revolution the Cuban Missile Crisis the Iran hostage crisis and the Korean War providing some alternative viewpoints on the history of the United States from the time of the Viking explorers to the post Cold War era By juxtaposing starkly contrasting versions of the historical events we take for granted History Lessons affords us a sometimes hilarious often sobering look at what the world thinks about America s past A brilliant idea Foreign Affairs **Letter Writing in Late Modern Europe** Marina Dossena, Gabriella Del Lungo Camiciotti, 2012 In recent years there has been a renewed interest in correspondence both as a literary genre and as cultural practice and several studies have appeared mainly spanning the centuries between Early and Late Modern times However it is between the eighteenth and nineteenth centuries that the roots of contemporary usage begin to evolve thanks to the circulation of new educational materials and more widespread schooling practices In this volume chapters representing diverse but complementary methodological approaches discuss linguistic and discursive practices of correspondence in Late Modern Europe in order to offer material for the comparative cross linguistic analyses of patterns occurring in different social contexts The volume aims to provide a general and solid methodological structure for the study of largely untapped language material from a variety of comparable sources and is expected to appeal to scholars and students interested in the linguistic history of epistolary writing practices as well as to all those interested in the more recent history of European languages *Respectability and the London Poor, 1780-1870* Lynn MacKay, 2015-10-06 The population of London soared during the Industrial Revolution and the poorer areas became iconic places of overcrowding and vice Focusing on the communities of Westminster MacKay shows that many of the plebeian populace retained traditional working class pursuits such as gambling drinking and blood sports **Morale and Discipline in the Royal Navy during the First World War** Laura Rowe, 2018-08-30 In contrast to the voluminous literature on trench warfare few scholarly works have been written on how the First World War was experienced at sea The conditions of war challenged the Royal Navy s position within British national identity and its own service ethos This challenge took the form of a dialogue fuelled by fear of civil unrest between the discourses of paternalism from above and democratism from below Laura Rowe explores issues of morale and discipline using the contemporary language of discipline to shed light on key questions of how the service was able to absorb indiscipline with marked success through a subtle web of loyalties history ethos traditions and customs which were rooted in older notions of service but moulded by the new conditions of total war In so doing she provides not only a new methodological framework for understanding morale but also military discipline and

leadership *Britain and Ireland* Jürgen Kramer, 2022-11-01 Britain and Ireland recounts the history of the two states the United Kingdom of Great Britain and Northern Ireland and the Republic of Ireland and the four nations the Irish the Welsh the Scottish and the English from prehistory to the present Chapters are organised chronologically starting in 4000 BCE coming through the Roman occupation the Reformation the Industrial Revolution and the formation of the British Empire Coming up to the present day this new edition has expanded material on post 1800 Irish history with particular emphasis on the Famine Home Rule the Irish Civil War partition the Troubles the Good Friday Agreement and the Brexit fallout Later chapters also have increased emphasis on national developments including Thatcherism Blairism monarchy austerity devolution the Scottish referendum and international relations with the US Europe and the Commonwealth ending with the ongoing impact of COVID 19 and climate change Accompanied by illustrations and information boxes and with an increased selection of documents with questions to challenge students of British and Irish studies the book presents not only the story of what happened in the British Isles but its interdependence with Europe and the rest of the world **The British**

Working Class 1832-1940 Andrew August, 2014-06-11 In this insightful new study Andrew August examines the British working class in the period when Britain became a mature industrial power working men and women dominated massive new urban populations and the extension of suffrage brought them into the political nation for the first time Framing his subject chronologically but treating it thematically August gives a vivid account of working class life between the mid nineteenth and mid twentieth centuries examining the issues and concerns central to working class identity Identifying shared patterns of experience in the lives of workers he avoids the limitations of both traditional historiography dominated by economic determinism and party politics and the revisionism which too readily dismisses the importance of class in British society

Ireland in an Imperial World Timothy G. McMahon, Michael de Nie, Paul Townend, 2017-03-20 Ireland in an Imperial World interrogates the myriad ways through which Irish men and women experienced participated in and challenged empires in the nineteenth and twentieth centuries Most importantly they were integral players simultaneously managing and undermining the British Empire and through their diasporic communities they built sophisticated arguments that aided challenges to other imperial projects In emphasizing the interconnections between Ireland and the wider British and Irish worlds this book argues that a greater appreciation of empire is essential for enriching our understanding of the development of Irish society at home Moreover these thirteen essays argue plainly that Ireland was on the cutting edge of broader global developments both in configuring and dismantling Europe's overseas empires *Access to History: Britain 1783-1885*

Bricks of Victorian London Peter Hounsell, 2022-11-01 Many of London's Victorian buildings are built of coarse textured yellow bricks. These are London stocks produced in very large quantities all through the nineteenth century and notable for their ability to withstand the airborne pollutants of the Victorian city. Whether visible or as is sometimes the case hidden behind stonework or underground they form a major part of the fabric of the capital. Until now little has been written about how and where they were made and the people who made them. Peter Hounsell has written a detailed history of the industry which supplied these bricks to the London market offering a fresh perspective on the social and economic history of the city. In it he reveals the workings of a complex network of finance and labour. From landowners who saw an opportunity to profit from the clay on their land to entrepreneurs who sought to build a business as brick manufacturers to those who actually made the bricks the book considers the process in detail placing it in the context of the supply and demand factors that affected the numbers of bricks produced and the costs involved in equipping and running a brickworks. Transport from the brickfields to the market was crucial and Dr Hounsell conducts a full survey of the different routes by which bricks were delivered to building sites by road by Thames barge or canal boat and in the second half of the century by the new railways. The companies that made the bricks employed many thousands of men, women and children and their working lives, homes and culture are looked at here as well as the journey towards better working conditions and wages. The decline of the handmade yellow stock was eventually brought about by the arrival of the machine made Fletton brick that competed directly with it on price. Brickmaking in the vicinity of London finally disappeared after the Second World War. Although its demise has left little evidence in the landscape this industry influenced the development of the modern city.

The Slump John Stevenson, Chris Cook, 2013-10-18 One of the most relentlessly brilliant studies of twentieth century Britain these young historians have found a marvellous theme and stuck to it. There is the glory. Professor Arthur Marwick. History. The 1930s remembered as the decade of dole queues and hunger marches, mass unemployment, the means test and the rise of fascism. Also saw the development of new industries, the growth of comfortable suburbia and rising standards of living for many. In Britain in the Depression the authors look behind the legends for an objective and timely reassessment as Britain again struggles with the economic and spiritual ills of recession and unemployment.

The Routledge Companion to Britain in the Twentieth Century, *Eradicating Ecocide* Polly Higgins, 2010-12-01 In *Eradicating Ecocide* international environment lawyer and activist Polly Higgins sets out to demonstrate in no uncertain terms how our planet is fast being destroyed by the activities of corporations and governments facilitated by compromise laws that offer insufficient deterrence. She offers a solution that is radical but as she explains absolutely necessary. The recent Mexican Gulf oil spill is a compelling reminder of the consequences of unchecked ecocide. Higgins advocates the introduction of a new international law against Ecocide. It would become the 5th Crime Against Peace and would hold to account heads of corporate bodies that are found guilty of

perpetrating ecocide The opportunity to implement this law represents a crossroads in the fate of humanity we can accept this one change and in doing so save our ecosystem for future generations or we can continue to destroy it risking future brutal war over disappearing natural resources This is the first book to explain that we all have a commanding voice and the power to call upon all our governments to change the existing rules of the game Higgins presents examples of laws in other countries which have succeeded in curtailing the power of governments corporations and banks and made a sudden and effective change demonstrating that her proposal is not impossible Eradicating Ecocide is a crash course on what laws work what doesn't and what else is needed to prevent the imminent disaster of global collapse Eradicating Ecocide provides a comprehensive overview of what needs to be done in order to prevent ecocide It is a book providing a template of a body of laws for all governments to implement which applies equally to smaller communities and anyone who is involved in decision making
