## Look Around Whales:

*Never Look Back* Marilyn Parman, 2010-04-01 NEVER LOOK BACK is the author's first book. It is a fictionalized memoir most of which is based on actual events in her life and which has been riddled with tragedies, abuse, and crime against her family as well as extreme crime against two of her daughters and against her mother who was murdered. Her husband dies in the end, the crowning blow to her character Marion Whitehead. However, Marion restructures her life and enters the music business again as a virtuoso soloist and chamber ensemble musician primarily after thirty years in retirement due to her latent guilt relative to her daughter's being kidnapped while Marion was on her concert tour. *The Ocean's Gift* Celeste Mayfield, 2014-09-30 Olivia Duncan lives a boring, ordinary life. She is home schooled along with her best friend Conner. Her social activities are limited to Conner and his grandmother Gerdie who just happens to be their teacher. Her father died before she even got to know him. Her single mother Ann Marie is the local doctor and has no desire to have a life outside of the clinic. Her worst fears come to light when she hears screams and wails that wake her from her sleep. When she goes to investigate the noises, she comes across a fishing boat at the source of the sounds. Poachers are thick in this area of the bay and she doesn't have to guess what these men are up to. Out here in the middle of the night, Olivia and her best friend Conner come across a bloody scene. The next day while out for a walk, she knows where the blood came from and as she describes the scene to him, a fear bubbles up inside of her. Olivia doesn't ask the question that's been burning in her mind. Conner and his family have been in the fishing business for over three generations. They supply fresh sea food to the local restaurants in town but they also kill larger game for profit. When an abandoned beluga appears while Olivia is sitting on the dock, they both find a friendship worth fighting for. The friendship that they share over the next three years is filled with laughter, fun, amazement, and danger. When Olivia is forced to move, she must leave all hope behind of ever seeing the beluga again. Never in her wildest dreams did she think that the beluga could find her once more. When the beluga appears with her new pod, Olivia realizes that this is her second chance. She calls in a specialist to help her as she fights to keep them all safe and alive. Olivia Duncan is an ordinary girl who lives an ordinary life but finds the chance to save an extraordinary gift. **The Killer Whale Journals** Hanne Strager, 2023-04-11 Experience the hauntingly beautiful world of orcas and discover the stories that unfold when humans enter oceans alongside them. Winner of the National Outdoor Book Award by the NOBA Foundation. Honorable mention for the Sigurd Olson Nature Writing Awards by the Northland College. When intrepid biology student Hanne Strager volunteered to be the cook on a small research vessel in Norway's Lofoten Islands, the trip inspired a decades-long journey into the lives of killer whales and an exploration of people's complex relationships with the biggest predators on earth. *The Killer Whale Journals* chronicles the now internationally renowned science writer's fascinating adventures around the world, documenting Strager's personal experiences with orcas in the wild. **Jonah and the German Whale** Earl Reimer,1983 Song of the Whale Sunil MS,1901 There is a whale in the city of Bangalore and only the Listeners can hear it The Wanderer a man suffering from dissociative amnesia is sucked into this secret world of the Listeners and joins their search for the mysterious whale He is unable to hear the song of the

whale that beckons the Listeners every night Filled with longing for the music the Wanderer finds strange new friendships and love in this bizarre world of the Listeners But the world he has built sits on the shoulder of a lie Caught between the impenetrable wall of his past and the promise of a future he turns to the Song of the Whale to set him free Whale Hunting with Gun and Camera Roy Chapman Andrews,1916 **The Whale in the Cave** Mike Avitabile,2018-01-30 Have you ever looked up at the sky and wondered if it was really the layer between us and the rest of the universe What if it was the other way around but we've been lied to all this time what if going up is actually going inside the Earth and going down is going out Luke Balena a dopey impressionable 26 year old is standing on the edge of a hidden cave in the Malibu forest revisiting a stoned conversation with his friend Wolf before he mysteriously disappeared three days earlier Is he down there now joyously exploring an uncharted dimension With nothing to lose Luke prepares to climb in and find out for himself But first one more hit Unpredictable and unforgettable The Whale in the Cave is Mike Avitabile at his deadpan peak a whimsical mesmerizing and hilarious satire on the consequences of believing in anything **Through the Eye of the Whale** Jana Mitzoda,2021-07-07 Life can be a conscious voyage on the sea of dreams surfing the waves of love This book is a response to the calling of my soul who longed to tell her story which might inspire people to open up to live their story according to their own inner wisdom Our soul keeps us constantly connected to the Source and you might already have your preferred way of communicating with it Whether through prayer meditation dreaming or by listening to intuition body awareness breath flow the language of nature or the magic of synchronicity everyone has access to their guidance within We all carry a unique gift we have come here to develop and that makes each being an original work of art While we live we are fully responsible for our mental physical emotional and spiritual condition We were born into a specific body and background potentially aware of how on a deeper level everything is interconnected at the level of body soul humanity our planet and the universe at large Creating this book has become a three year journey of healing self acceptance and increasing awareness of the uniqueness of my own journey Where is the place on Earth where I am supposed to be I asked myself a few years ago During that time my natural desire to grow my awareness on the path to mastery in being myself attracted many kindred spirits who whom we support each other We enjoy being and living this mystery together The dream of our soul holds the idea of what it wants to experience and create for ages and across lifetimes The task of our human self is to open up to this big dream of the soul and allow it to reconcile anything that is not aligned with this great soul's intent in our current life Each of us moves within the flow of life as an endless experiment Collectively we are on Earth in the middle of a war for our consciousness and energy The only way out of the chaos is through higher vibrational states of being such as love peace and joy It all starts with our thoughts emotions words and actions Let's not wait for any savior to tell us what to do Instead let's turn inward To the truth about the light of the Source which is our essence Let's anchor in the awareness that we are love and thus allow our body to radiate it in the form of light outside of us A few years ago I had a dream in which I was presented with a list of values that

will be fundamental on Earth in the future I missed humanity among them Our soul heart empathy and humanness these qualities are now needed more than ever before As the old structures of the outside world fall apart and we are seemingly constrained by restrictions we are presented a life chance to immerse ourselves inside and by consciously sailing the endless sea of dreams on the waves of love to return to our essence which is crystal clear love Only when we harmonize within may the outside world change The game we play here therefore begins and ends inside each of us **Moby Dick** Herman Melville, 1902 Journeys in the Wild Gavin Thurston, 2019-08-22 Modest down to earth and full of humour this is one of the best books about filming I've ever read MICHAEL PALIN Extraordinary Gavin's easy prose and gasp making encounters make for a gripping and very funny read It's a rollercoaster ride with a complete professional I loved it JOANNA LUMLEY Gavin is a great cameraman with infinite patience but also a writer with great powers of observation and expression Brilliant ALAN TITCHMARSH \_\_\_\_\_ From Gavin Thurston the award winning Blue Planet II and Planet Earth II cameraman with a foreword by Sir David Attenborough comes extraordinary and adventurous true stories of what it takes to track down and film our planet's most captivating creatures Gavin has been a wildlife photographer for over thirty years Against a backdrop of modern world history he's lurked in the shadows of some of the world's remotest places in order to capture footage of the animal kingdom's finest prides of lions silverback gorillas capuchin monkeys brown bears grey whales penguins mosquitoes you name it he's filmed it Come behind the camera and discover the hours spent patiently waiting for the protagonists to appear the inevitable dangers in the wings and the challenges faced and overcome and the heart warming life affirming moments the cameras miss as well as capture What other readers are saying about Journeys in the Wild It's touching it's thought provoking and its emotional Go pick it up It's an absolute inspiration of a book Goodreads Full of unbelievable anecdotes from decades of work some absolutely hilarious this book left me in complete wonder Goodreads An amazing read and I would heartily recommend it to everyone I know Goodreads The Lives of Hawai'i's Dolphins and Whales Robin W. Baird, 2016-11-30 Ocean currents winds and rainfall all work together to create a marine oasis around the Hawaiian Islands providing a home for many species of dolphins and whales normally found in the deep oceans of the world The Lives of Hawai'i's Dolphins and Whales opens a window into the world of these mysterious creatures with stories and observations from author Robin W Baird's work over the last seventeen years The book includes exceptional full color photographs of each species life history descriptions conservation threats and maps showing sighting locations and movements of tagged individuals among the islands and offshore While the well known resident spinner dolphins and visiting humpback whales are covered the ten species of lesser known open ocean dolphins and whales that are resident to the marine slopes of the islands are highlighted as well Among these are endangered false killer whales deep diving Cuvier's and Blainville's beaked whales abundant spotted dolphins coastal bottlenose dolphins cryptic dwarf sperm whales family units of short finned pilot whales and social melon headed whales Baird also describes thirteen species of dolphins and whales that are found in offshore
