Kosminsky, 2020-06-01 In this book Ethel Kosminsky studies the Japanese emigration to the planned colony of Bastos in São Paulo Brazil in the early twentieth century She explores the stories of Japanese immigrants who replaced the labor of

recently freed slaves on coffee plantations and their descendants return migration to Japan when the Bastos economy began to suffer in the late twentieth century Using interviews and fieldwork done in both Bastos and Japan Kosminsky integrates sociological historical political economic and ethnographic knowledge to analyze the consequences of these temporary labor migrations on the immigrants and their families

Japan - Restless Competitor Malcolm Trevor,2013-12-16 In this important new and controversial study about the nature and focus of the Japanese economic agenda the author argues forcefully that the official mind set of leading bureaucrats top politicians and big business makes it virtually impossible for the western industrialized world to do business on an equal footing Put simply it is a question of western free market economics facing Japanese economic nationalism which is by its very nature both an expansive and a protectionist ideology International observers continue to ask is Japan changing or more forcefully is Japan capable of change Notions of reform and restructuring are today part of the Japanese lexicon but appear to hold little substance Trevor argues that any western notion of Japan changing fundamentally i e adopting western or Anglo Saxon philosophies is facile completely unrealistic This book is for everyone who wonders what motivates Japan s politico economic system and whether it is changing

Marriage and Marriageability Chigusa Yamaura,2020-07-15 How do the Japanese men and Chinese women who participate in cross border matchmaking individuals whose only interaction is often just one brief meeting come to see one another as potential marriage partners Motivated by this question Chigusa Yamaura traces the practices of Sino Japanese matchmaking from transnational marriage agencies in Tokyo to branch offices and language schools in China from initial meetings to marriage the visa application processes and beyond to marital life in Japan Engaging issues of colonial history local norms and the very ability to conceive of another or oneself as marriageable Marriage and Marriageability rethinks cross border marriage not only as a form of gendered migration but also as a set of practices that constructs marriageable partners and imaginable marriages Yamaura shows that instead of desiring different others these transnational marital relations are based on the tactical deployment of socially and historically created conceptions of proximity between Japan and northeast China Far from seeking to escape local practices participants in these marriages actively seek to avoid transgressing local norms By doing so on a transnational scale they paradoxically reaffirm and attempt to remain within the boundaries of local marital ideologies

Japan at the Millennium David W. Edgington,2003 Japan today is at an important historical juncture Buffeted in recent years by rapid economic social and political change yet still very much steeped in custom and history the nation has become

an amalgam of the traditional and the modern As a result the country has become increasingly difficult to categorize How are we to represent today's Japan effectively and fairly predict its future This critical multi disciplinary collection explores the convergence of past and future in contemporary Japan Contributors comment on a wide range of economic socio cultural and political trends such as the mobilization of Japanese labour the burgeoning Ainu identity movement and the shifting place of the modern woman and conclude that despite the rapid changes many of the traditional facets of Japanese society have remained intact institutional change they assert is unlikely to occur quickly and Japan must find alternate ways to adjust to twenty first century pressures of global competition and interdependence A pleasure to read this broad volume will be welcomed by upper level undergraduates graduates and specialists in Japanese studies

The Voluntary and Non-Profit Sector in Japan Stephen Osborne,2003-09-02 The voluntary and non profit sector is an important and emerging feature of Japanese society It is a response both to the changing nature of this society and to political and social trends that have encouraged the Japanese government to see this sector as a potential provider of public services It is also part of the emergence of civil society in Japan This book explores the roots of the societal challenges that voluntary and non profit organisations face in Japan and evaluates their future impact on Japanese society Containing contributions from leading researchers internationally as well as from key practitioners from Japan this book is essential reading for any student of Japanese studies or the international non profit sector

Embedded Racism Debito Arudou,2021-11-26 Despite domestic constitutional provisions and international treaty promises Japan has no law against racial discrimination Consequently businesses around Japan display Japanese Only signs denying entry to all foreigners on sight Employers and landlords routinely refuse jobs and apartments to foreign applicants Japanese police racially profile foreign looking bystanders for invasive questioning on the street Legislators administrators and pundits portray foreigners as a national security threat and call for their segregation and expulsion Nevertheless Japan's government and media claim there is no discrimination by race in Japan therefore no laws are necessary How does Japan resolve the cognitive dissonance of racial discrimination being unconstitutional yet not illegal *Embedded Racism* untangles Japan's complex narrative on race Starting with case studies of hundreds of Japanese Only exclusionary businesses it carefully analyzes the social construction of Japanese identity through laws public policy jurisprudence and media messages It reveals how the concept of a Japanese has been racialized to the point where one must look Japanese to have equal civil and human rights in Japan Completely revised and updated for this Second Edition including landmark events like the 2020 Tokyo Olympics the Covid Pandemic and the Carlos Ghosn Case *Embedded Racism* is the product of three decades of research and fieldwork by a scholar living in Japan as a naturalized Japanese citizen It offers a perspective into how Japan's entrenched misunderstood and deliberately overlooked racial discrimination not only undermines Japan's economic future but also emboldens white supremacists worldwide who see Japan as their template ethnostate

Japanese Cinema and Otherness Mika Ko,2013-05-13 Over the last 20 years ethnic

minority groups have been increasingly featured in Japanese Films However the way these groups are presented has not been a subject of investigation This study examines the representation of so called Others foreigners ethnic minorities and Okinawans in Japanese cinema By combining textual and contextual analysis this book analyses the narrative and visual style of films of contemporary Japanese cinema in relation to their social and historical context of production and reception Mika Ko considers the ways in which multicultural sentiments have emerged in contemporary Japanese cinema In this respect Japanese films may be seen not simply to have reflected more general trends within Japanese society but to have played an active role in constructing and communicating different versions of multiculturalism In particular the book is concerned with how representations of otherness in contemporary Japanese cinema may be identified as reinforcing or subverting dominant discourses of Japaneseness the author book also illuminates the ways in which Japanese films have engaged in the dramatisation and elaboration of ideas and attitudes surrounding contemporary Japanese nationalism and multiculturalism By locating contemporary Japanese cinema in a social and political context Japanese Cinema and Otherness makes an original contribution to scholarship on Japanese film study but also to bridging the gap between Japanese studies and film studies **The Japan Daily Mail** ,1875
