is discovered inside Sylvia's newly acquired skills are put to the test The courier was a friend who shared her interest in back channel business and his death seems like a message or worse a warning Determined to seek justice Sylvia and Neptune assemble a team But there's more to this trek through the stars than expected including fifty rambunctious aliens accidentally beamed aboard the ship some very nasty space pirates and one suspicious member of the staff who thought the recruitment message was a call of duty Now Sylvia's on a quest to catch a killer but if she fails she could wipe out an entire alien race in the process Hijacked on a Moon Trek is the hilarious third novel featuring uniform lieutenant Sylvia Stryker If you like humorous mysteries unique characters and spacey fun or read favorites like Joann Fluke or Dakota Cassidy you'll love Diane Vallere's entertaining interstellar series Previously published as SATURN NIGHT FEVER What a fun unique and intriguing story Love the inside joke about red shirts That and the laser cat Lol Thank you for such an entertaining read Reader I am pleased to say that after finishing the third book in the series the enchanting mind of author Diane Vallere continues to charm and come up with even more new fun and adventures around every corner Reader CHAPTER ONE EXCERPT When Neptune said I fought like a girl I did the only respectable thing I hit him That's not to say it's a good idea for dropouts from the space academy to strike their newly appointed superiors but in this case he deserved it In the two versions of the story that will be told of the incident at least one will contain the fact that technically I was in training Technically the only reason we were on the helipad on the corner of Neptune's property was because the helipad was a convenient place to practice Technically I was being paid a small sponsorship fee to test the durability of new uniforms designed for Moon Unit Corporation and technically the only way I could fully know if the uniforms were durable were to see how they held up when I threw a punch Neptune's version might include slight variations In case you haven't noticed I am a girl I said Neptune was bigger older and more experienced than I was and he probably had more important things to do than spend the day teaching me defensive maneuvers But never graduating had left me with relatively few channels to advance my learning After Moon Unit 6 returned from Venus Neptune contacted me via the comm device implanted in my ear and offered me free room and board in exchange for lessons to pick up where my interrupted education had left off I'd dropped out when my dad was arrested so I could help my mom with the family dry ice mines Neptune's offer to teach me gave us both something of value I'd accepted more for me than for him I'm selfish that way You know why you were almost incapacitated on our last moon trek he asked Because you dropped your guard You thought size and skill were enough to beat your enemy You fought fair You fought like a woman Oh so now I'm a woman I countered I grew up fast It wasn't that Neptune treated me like a girl or a woman He treated me like a student And most of the time I was okay with that But the voice in my head that I didn't want to listen to wondered why someone like Neptune spent time training someone like me It was a voice that hadn't had much to question since my dad was arrested Any attention paid to me usually had strings attached Retribution for my dad's crimes or the novelty of my half Plunian background in a world where lavender women

were now rare More than once I'd fended off advances when I saw where they were headed I developed a thick skin and narrowed my social circle to a very tight group But despite the fact that Neptune was a muscular wall of taciturn authority or maybe because of it I was attracted to him I doubted it was the black military issue cargo gear he wore did he buy his clothes in bulk or the intimidating stance he'd perfected long before I met him arms crossed feet shoulder width apart I'd never been attracted to men in power in fact power was a pretty tried and true turn off I didn't know what it was about Neptune that made my lavender skin glow at the least opportune times I only knew it was important to me to prove to him that I was different Today different meant throwing a non girly punch He grabbed my wrist and closed my fingers into a fist His hand was twice the size of mine tawny against my lavender coloring You have to toughen up Stryker You're smart and you learn information fast but instincts don't come from a book I learned how to fight by an accredited Hapkido master Or have you already forgotten that I dropped you with a sweeping kick because you underestimated me He let go of my fist and pointed at me Don't let that go to your head Success is built on failure If you learn anything from these lessons learn that Failure is your friend I thought failure wasn't an option The flight director of Earth's space shuttle program said it right His biography was required reading You didn't read the book That's a made up quote from a movie script The flight director liked the line so much he used it for the title of his biography Lesson number two check your source I thought you knew that by now I didn't tell Neptune that I hadn't read the book because the course took place after I dropped out I'm pretty sure lesson number three was to keep your weaknesses to yourself Repeat it back to me Blah blah check your source Repeat what I told you about failure Failure is my friend Remember that He turned around and walked a few feet away from me and then turned back If you think you can fight because you dropped me once then you'll get complacent Don't forget what happened the last time you got complacent How could I forget I almost died It didn't help that the fight had been four against one or that my oxygen supply had been cut off rendering me helpless My opponents knew my weakness and used it against me Nothing fair about it I didn't want to admit it but Neptune was right I'd falsely assumed I could defend myself without too much effort and my false sense of confidence had worked against me Go again he said He bent his knees slightly and prepared for my attack I swung my arms forward and backward giant half circles to limber up my shoulders and felt a seam tear Hold on Uniform malfunction Moon Unit Corporation thinks they can cut corners by using a different supplier but the last six uniforms I tested fell apart Where Shoulder Turn around I turned and pointed to where I'd felt the split What am I supposed to tell them this time Looks good but you can't throw a girly punch I felt Neptune tug the split fabric together Even though I wasn't looking at him just the graze of his fingertips against my shoulder blade made me flush Why are you wasting your time with uniforms Someday the name Sylvia Stryker will be synonymous with space uniforms After our trip to Venus the publicity company who planned the hype around the Moon Units contacted me to wear test their prototypes It's a little cash on the side between treks and all things considered I can use the money I can't crash here forever I knew Neptune wouldn't pursue the

conversation He understood my predicament no planet no family no home He was with me the night space pirates destroyed everything I d ever known The only reason I agreed to train with him was because there s a certain security in spending time with someone who prioritized silence over small talk I could learn a lot from Neptune and I knew it He could learn from me too I wasn t sure he knew that Yet Neptune s loner lifestyle suited him but I was glad that he begrudgingly allowed me to coexist on his property Not one to mooch I made sure to bring what I could to the table Enter Mattix Dusk space courier and my Hapkido instructor who traveled between the thirteen colonies under Federation Control to pick up and deliver anything that needed to be picked up or delivered I introduced the two men and they worked out a mutually acceptable deal Mattix had use of the helipad and a place to crash while on the Kuiper Belt Neptune had access to Mattix s courier contacts and suppliers And for the foreseeable future I had not one but two mentors who could further my education Where Neptune was tall tawny and solid muscle Mattix looked like a piece of worn leather in loose fitting castoff clothes Tanned skin bleached hair worn in a ponytail and ragamuffin clothes suited him His job as courier put him in front of shady characters and he passed along his two most important pieces of advice look like you have less than the other guy and learn to take care of yourself Whatever direction my lesson was supposed to go was interrupted by a swiftly approaching space pod I looked at the sky and watched it glide toward us It was the Dusk Driver the space pod that belonged to Mattix I smiled and waved while backing up so he could land As his space pod drew closer alarm bells rang out from the nearby towers His speed was too fast He was going to crash And if I didn t get out of the way I d burn up in the wreckage Neptune reached the same conclusion before I did How do I know When I tore my attention from the incoming space pod to tell Neptune something was wrong I saw him charge toward me The impact knocked me to the ground Either Neptune knew what was happening and wanted to save me or he was trying to make a point From the bank of dirt alongside the helipad the space pod jerked to a halt and then hovered two feet above the ground Mattix knew better than to approach at the speed he had but he d compensated for the potential accident by activating the ship s invisible buffer a two foot bumper of static electricity that kept the exterior from contacting another surface It operated much the same way as two magnets held in close proximity The dueling forcefields pushed away from each other making it impossible to touch Mattix wouldn t have activated the buffer shield unless something was wrong I scrambled to my feet and keeping my center of gravity low approached the space pod Mattix wouldn t allow anyone else to navigate the ship without reason which made what I saw even scarier The ship was being flown on autopilot \_\_\_\_\_ It is set in outer space but keeps a true cozy mystery vibe to it at the same time Reader Hijacked on a Moon Trek was another fantastic addition to this series Sylvia and the gang are back in what is quite possibly the best installment yet This series is quickly becoming one of my favorites I can t get enough of it Reader This was the best in the series so far with added depth in backstories for several of the characters Reader For fans of Star Trek Star Wars Dune UFO The Orville Galaxy Quest Lost in Space and The Jetsons Diane Fans describe her vintage Vallere

goodness and say she is a great storyteller with a way with creating strong female characters and intrigue who is a superb and very humorous writer Her gift of creating spunky sleuths in fun settings take readers to Dallas Palm Springs Los Angeles Pennsylvania and outer space     **Punch** Henry Mayhew,Tom Taylor,Mark Lemon,Shirley Brooks,Sir Francis Cowley Burnand,Sir Owen Seaman,1842

## **Look At Neptune Introduction**

In today's digital age, the availability of Look At Neptune books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Look At Neptune books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Look At Neptune books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Look At Neptune versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Look At Neptune books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Look At Neptune books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Look At Neptune books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare,

which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Look At Neptune books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Look At Neptune books and manuals for download and embark on your journey of knowledge?
