Reassess your leadership style, discover how to connect with people and become a leader who can make things happen in the real world. Built on a unique four-year experiment working alongside real leaders in real businesses, *Living Leadership* explodes the myth of the charismatic transformational leader to show that real progress comes from the dramatically ordinary aspects of leadership. From building relationships to working with the grain of the organisation rather than against it, and to knowing our limitations as much as pushing every boundary, the new edition of this book will challenge you to push your leadership skills to a new level. *Living Leadership* shows how when you take away the myths and misconceptions, leading can genuinely be made easier.

You Can't Trust Your Own Mind David French, Ph.D., 2010-12-28

In the cycles of the great season of creativity, we are sometimes given a rare and precious gift. This season, that gift is *You Can't Trust Your Own Mind* by David French, PhD, a book about how to excavate your deep true identity and stop the fear and alienation automatically and reactively imposed by the mind. Inspired by discipline, experience, understanding, and compassion, his words embrace a deeper truth with the reader and lead to common ground where we can all see what is real and what is not: myself and the machine, your self and the machine. With his self-disclosing style, he shows us how to find emotional shelter when we are injured, how to be truthful when we want to lie, how to build trust when we feel alone and misunderstood. He helps us discover triggers that alarm the machine and cause swift destructive actions. He finds the power concealed within our own vulnerability and gives us the courage to own our own pain. He gives us tools for more satisfying relationships, hope for self-fulfillment, and permission to be who we are without games, fears, and self-sabotaging rituals of the ancient reactive machine. He shows each of us how to accept the machine that vigilantly and perpetually serves us with a singular directive: to monitor, protect, and destroy all perceived threats before the deep sacred self is even aware of them.

What others are saying about this book: Through Dr French's Personal Balance Therapy, he brings together all the parts of what makes each one of us unique and sets the reader on the path of wholeness.

D C Hadden, Psy D, Licensed Clinical Psychologist. This book can save one's sanity.
