Looking For America An Historical Introduction To The Visual In American Studies:

National Geographic Almanac of American History John Thompson, James Miller, 2007 Uses images maps historic facts and concise analysis to provide an in depth resource on United States history

A History of America in 100 Maps Susan Schulten, 2018-09-21 Throughout its history America has been defined through maps Whether made for military strategy or urban reform to encourage settlement or to investigate disease maps invest information with meaning by translating it into visual form They capture what people knew what they thought they knew what they hoped for and what they feared As such they offer unrivaled windows onto the past In this book Susan Schulten uses maps to explore five centuries of American history from the voyages of European discovery to the digital age With stunning visual clarity *A History of America in 100 Maps* showcases the power of cartography to illuminate and complicate our understanding of the past Gathered primarily from the British Library's incomparable archives and compiled into nine chronological chapters these one hundred full color maps range from the iconic to the unfamiliar Each is discussed in terms of its specific features as well as its larger historical significance in a way that conveys a fresh perspective on the past Some of these maps were made by established cartographers while others were made by unknown individuals such as Cherokee tribal leaders soldiers on the front and the first generation of girls to be formally educated Some were tools of statecraft and diplomacy and others were instruments of social reform or even advertising and entertainment But when considered together they demonstrate the many ways that maps both reflect and influence historical change Audacious in scope and charming in execution this collection of one hundred full color maps offers an imaginative and visually engaging tour of American history that will show readers a new way of navigating their own worlds

Looking for America Ardis Cameron, 2008-04-15 *Looking for America* The Visual Production of Nation and People is a groundbreaking collection that explores the visual in defining the kaleidoscope of American experience and American identity in the 20th century Covers enduringly important topics in American history nationhood class politics of identity and the visual mapping of others Includes editorial introductions suggested readings a primer on how to read an image and a guide to visual archives and collections Well illustrated book for those in American Studies and related fields eager to incorporate the visual into their teaching and telling of the American story

Fashion Fads through American History

Jennifer Grayer Moore,2015-12-14 Perfect for any reader interested in fashion history or popular culture this text is an essential resource that presents vital information and informed analysis of key fashion fads not found elsewhere Fashion Fads Through American History Fitting Clothes into Context explores fashion fads from the 19th century to the current decade providing the reader with specific insights into each era The text draws fascinating connections between what we see in fashion phenomena including apparel accessories hair and makeup and events in popular culture in general and across history Written by an art and design historian the book is ideal for a wide range of student research projects especially those in

American history social studies art and literature classes It covers topics overlooked by fashion history texts because of their origination outside of the formal fashion system Each entry provides critical historical context to help readers understand why the fad originated and why it resonated with consumers and presents vital information and analysis of key fashions that were intimately related to currents in contemporary culture The text also considers the resurgence of some fashion fads in the late 20th and early 21st centuries and provides context for their relevance

50 Events That Shaped African American History Jamie J. Wilson, 2019-09-19 This two volume work celebrates 50 notable achievements of African Americans highlighting black contributions to U S history and examining the ways black accomplishments shaped American culture This two volume encyclopedia offers a unique look at the African American experience from the arrival of the first 20 Africans at Jamestown through the launch of the Black Lives Matter movement and the Ferguson Protests It illustrates subjects such as the Jim Crow period the Brown v Board of Education case that overturned segregation Jackie Robinson s landmark integration of major league baseball and the election of Barack Obama as president of the United States Drawing from almost 400 years of U S history the work documents the experiences and impact of black people on every aspect of American life Presented chronologically the selected events each include at least one primary source to provide the reader with a first person perspective These range from excerpts of speeches given by famous African American figures to programs from the March on Washington The remarkable stories collected here bear witness to the strength of a group of people who chose to survive and found ways to work collectively to force America to live up to the promise of its founding

Japanese Americans and the Racial Uniform Dana Y. Nakano, 2023-08-15 How race continues to shape the citizenship and everyday lives of later generation Japanese Americans as assimilation s model minority of model minorities

Territories of the Visual in Spain and Spanish America Jo Evans, Julia Biggane, Nuria Triana-Toribio, 2017-10-02 While studying the theory and contemporary impact of embodied viewing this book celebrates the emergence and development of Visual Studies as a major subject of research and teaching in the field of Hispanic Studies within the UK over the last thirty years By exploring current routes of investigation as well as analysing future pathways for study in the field seven highly distinguished Spanish and Latin American scholars examine their own entry into Visual Studies and discuss the major trends and changes which occurred in the field as matters of the visual gradually became embedded in higher education curricula and research trajectories Each scholar also lays out a current research project or interest concerning Spain or Latin America within the visual field The projects variously explore different media including film sculpture photography dance and performance art spread across a wide array of geographical locales including Mexico Cuba mainland Spain and the Canary Islands Offering a map of current and future research in the field this book provides the first history of visual studies within UK Hispanism It will be of lasting value to a wide range of scholars and advanced students of Spanish and Latin American cultural visual and film studies This book was originally published as a special issue of the Bulletin of Spanish Studies
