**Looking for God in Brazil** John Burdick, 1993 One of the best books that has been written on religion and politics in Latin America It is theoretically deft and empirically rich Scott Mainwaring University of Notre Dame [Looking for God in Brazil](#) John Samuel Burdick, 1992 [Christianity in the Twentieth Century](#) Brian Stanley, 2018-06-26 A history of unparalleled scope that charts the global transformation of Christianity during an age of profound political and cultural change Christianity in the Twentieth Century charts the transformation of one of the world's great religions during an age marked by world wars genocide nationalism decolonization and powerful ideological currents many of them hostile to Christianity Written by a leading scholar of world Christianity the book traces how Christianity evolved from a religion defined by the culture and politics of Europe to the expanding polycentric and multicultural faith it is today one whose growing popular support is strongest in sub-Saharan Africa Latin America China and other parts of Asia Brian Stanley sheds critical light on themes of central importance for understanding the global contours of modern Christianity illustrating each one with contrasting case studies usually taken from different parts of the world Unlike other books on world Christianity this one is not a regional survey or chronological narrative nor does it focus on theology or ecclesiastical institutions Rather Stanley provides a history of Christianity as a popular faith experienced and lived by its adherents telling a compelling and multifaceted story of Christendom's fortunes in Europe North America and across the rest of the globe Transnational in scope and drawing on the latest scholarship Christianity in the Twentieth Century demonstrates how Christianity has had less to fear from the onslaughts of secularism than from the readiness of Christians themselves to accommodate their faith to ideologies that privilege racial identity or radical individualism [Justice Not Silence](#) Ezra Chitando, Sophia Chirongoma, 2013-09-01 The editors of this volume highlight the fact that although the Church often stands up for other public issues such as human rights democratic political rights economic justice etc sexual and gender based violence do not receive the attention they deserve There are no theological or cultural arguments that can justify such a position Sexual and gender based violence are a scourge that defies our Christian understanding of human dignity and challenges the Church in all its formations to respond Although most of the case studies are from Zimbabwe they challenge us regardless of which country we are living in or the tradition of our specific denomination In the context of Southern Africa where the HIV and AIDS burden is among the highest in the world sexual and gender based violence are a major contributor to the spread of the disease This will only change if the Church challenges this practice as part of its educational and public work in theological institutions in congregations but also in its pastoral work within families **Migration, Mujeres, and Medicine Men** Valentina Napolitano, 2002-12-12 Exploring issues of migration medicine religion and gender this work analyses everyday practices of urban living in Guadalajara Mexico Drawing on fieldwork over a ten year period Valentina Napolitano paints a vibrant picture of daily life in a low income neighbourhood of Guadalajara Source of description unspecified **Conflict**

Limits of Liberation Elina Vuola, 2002-09-19 How far are the real lives of millions of poor women really catered for in liberation and feminist theologies Vuola argues here that traditional liberation theology's notion of praxis as in L Boff and E Dussel is limited by its essentialist notion of poor and its neglect of the issue of poor women's reproductive rights Classical feminist theologies on the other hand are fraught with their own essentialist notions women's experience Both discourses are inadequate to deal with poor women's suffering widespread maternal mortality high rates of botched illegal abortions and an overall lack of reproductive rights As a response to this lack Vuola nurtures a form of Latin American feminist liberation theology that addresses directly the suffering and death of these millions of women

Western European Christianity as well as broadening the focus on Christianity and the history of churches in areas beyond Western Europe In particular there have been extensive additions with regards to the Christian Church in Asia Africa Latin America North America and Australasia Significant updates have also been included on topics such as liturgy Canon Law recent international developments non Anglican missionary activity and the increasingly important area of moral and pastoral theology among many others Since its first appearance in 1957 the ODCC has established itself as an essential resource for ordinands clergy and members of religious orders and an invaluable tool for academics teachers and students of church history and theology as well as for the general reader      New Ways of Being Pentecostal in Latin America Martin

Lindhardt,2016-03-23 The explosive growth of Pentecostalism has radically transformed Latin America's religious landscape within the last half century or so In a region where Catholicism reigned hegemonic for centuries the expansion of Pentecostalism has now resulted in a situation of religious pluralism and competition bearing much more resemblance to the United States than to the Iberian motherlands Furthermore the fierce competition from Pentecostal churches has inspired significant renewals of Latin American Catholicism most notably the growth of a Catholic Charismatic movement However another and more recent source of religious pluralism and diversity in Latin America is an increasing pluralization and diversification of Pentecostalism itself and of the ways in which individual Pentecostals exercise their faith By carefully exploring this diversification the book at hand breaks new ground in the literature on Latin American Christianity Particular attention is focused on new ways of being Pentecostal and on the consequences of recent transformations of Christianity for individuals faith communities and societies More specifically the chapters of the book look into certain transformations of Pentecostalism such as theological renewals and new kinds of religious competition between Pentecostal churches a growing political and civic engagement of Pentecostals an observed de institutionalization of Pentecostal religious life and the negotiation individual Pentecostal identities composed of multiple intra and extra ecclesial points of identification and the emergence of new generations of Pentecostals children of Pentecostal parents many of whom have higher levels of education and higher incomes than the previous generations within their churches In addition Catholic responses to Pentecostal competition are also addressed in several chapters of the book      Religion in Global Politics Jeffrey Haynes,2014-10-13 One

of the most resilient ideas about societal development after World War II was that nations would inevitably secularise as they modernised However as we come to the end of the secular twentieth century it is obvious that religion continues to be an important factor in politics around the world The author examines the continuing importance of religion focusing upon the regions of Europe the Americas Africa and Asia      *Spaces of Spirituality* Nadia Bartolini,Sara MacKian,Steve Pile,2018-02-15 Spirituality is too often subsumed under the heading of religion and treated as much the same kind of thing Yet spirituality extends far beyond the spaces of religion The spiritual makes geography strange challenging the relationship between the known and the unknown between the real and the ideal and prompting exciting possibilities for charting the

ineffable spaces of the divine which lie somehow beyond geography In setting itself that task this book pushes the boundaries of geographies of religion to bring into direct focus questions of spirituality By seeing religion through the lens of practice rather than as a set of beliefs geographies of religion can be interpreted much more widely bringing a whole range of other spiritual practices and spaces to light The book is split into three sections each contextualised with an editors introduction to explore the spaces of spiritual practice the spiritual production of space and spiritual transformations This book intends to open to up new questions and approaches through the theme of spirituality pushing the boundaries on current topics and introducing innovative new ideas including esoteric or radical spiritual practices This landmark book not only captures a significant moment in geographies of spirituality but acts as a catalyst for future work
