Looking At Britain:

Britain's Competitiveness Dr Christopher Carr, 2003-09-02 This book addresses the widespread concern regarding British industry's ability to compete internationally Through an analysis of the UK automotive components sector the author examines the central issues at the core of the competitiveness debate and outlines why there has been such a widespread and severe decline in the performance of British manufacturing It draws on findings from visits to thirty British manufacturers and also to thirty overseas manufacturers in Germany the USA and Japan matched on a product basis to allow comparisons and a genuine international perspective The author concludes that competitive decline is due in part to a weakness in the strategic management capability of many UK companies and also to the lack of adequate co ordination and co operation between customer and supplier industries Dr Carr identifies the remaining areas of vulnerability and priorities for action and finally considers the implications for Britain's overall competitiveness [A History of Britain in Thirty-six](#)

Britain's Secret Defences Andrew Chatterton, 2024-01-05 The first full history of the highly trained and ruthless civilian volunteers secretly trained across Britain to be deployed in the case of a German invasion The narrative surrounding Britain's anti invasion forces has often centered on Dad's Army like characters running around with pitchforks on unpreparedness and sense of inevitability of invasion and defeat The truth however is very different Top secret highly trained and ruthless civilian volunteers were being recruited as early as the summer of 1940 Had the Germans attempted an invasion they would have been countered by saboteurs and guerrilla fighters emerging from secret bunkers and monitored by swathes of spies and observers who would have passed details on via runners wireless operators and ATS women in disguised bunkers Alongside these secret forces the Home Guard were also setting up their own guerrilla groups and SIS MI6 were setting up post occupation groups of civilians including teenagers to act as sabotage cells wireless operators and assassins had the Nazis taken control of the country The civilians involved in these groups understood the need for absolute secrecy and their commitment to keeping quiet meant that most went to their grave without ever telling anyone of their role not even their closest family members There has been no official and little public recognition of what these dedicated men and women were willing to do for their country in its hour of need and after over 80 years of silence the time has come to highlight their remarkable role [Once Upon a Crime - I Grew Up in Britain's Hardest City, Where the Only Way to Survive Was on Your Wits](#)

Jimmy Cryans, 2012-03-05 This is the true story of Jimmy Cryans A story of growing up in Glasgow's east end during the 1950s and 1960s and how he became involved in a life of crime Jimmy speaks about the various characters he met and his dealings with some of Britain's major criminals He reveals how petty theft and shoplifting quickly snowballed into armed robbery with raids on banks jewelers and security vehicles But Jimmy's story also explains his lifelong quest to find himself

and how it eventually led to triumph over adversity At times funny and uplifting and at others sad above all this is a real life story that will inspire
