Wright,2014-01-13 Professor Wright s objective is to see Boccaccio in relation to the personality of the writers to whom he
appealed and simultaneously to observe the changing taste of successive ages as it was revealed by their choice among
Boccaccio s writings Boccaccio was also a European literary phenomenon and this study attempts to consider his fortunes
on the Continent In considering Chaucer s relation to Boccaccio the author examines Chaucer s poems afresh studying the
Italian originals closely in order to ascertain the precise nature of the English adaptation or transformation Various minor
figures of English literature are also dealt with at some length due to the importance of Boccaccio s influence on their work

Strangers Wendy M. Gordon,2012-02-01 In the nineteenth century mill towns of Preston England Lowell Massachusetts and
Paisley Scotland there were specific demands for migrant and female labor and potential employers provided the necessary
respectable conditions in order to attract them Using individual accounts this innovative and comparative study examines the

migrants lives by addressing their reasons for migration their relationship to their families the roles they played in the cities to which they moved and the dangers they met as a result of their youth gender and separation from family Gordon details both the similarities and differences in the women s migration experiences and somewhat surprisingly concludes that they became financially independent rather than primarily contributors to a family economy
