Terrorism and Modern Literature Alex Houen, 2002-09-12 Is terrorism's violence essentially symbolic Does it impact on culture primarily through the media What kinds of performative effect do the various discourses surrounding terrorism have Such questions have not only become increasingly important in terrorism studies they have also been concerns for many literary writers This book is the first extensive study of modern literature's engagement with terrorism Ranging from the 1880s to the 1980s the terrorism examined is as diverse as the literary writings on it chapters include discussions of Joseph Conrad's novels on Anarchism and Russian Nihilism Wyndham Lewis's avant garde responses to Syndicalism and the militant Suffragettes Ezra Pound's poetic entanglement with Segregationist violence Walter Abish's fictions about West German urban guerrillas and Seamus Heaney's and Ciaran Carson's poems on the Troubles in Northern Ireland In each instance Alex Houen explores how the literary writer figures clashes or collusions between terrorist violence and discursive performativity What is revealed is that writing on terrorism has frequently involved refiguring the force of literature itself In terrorism studies the cultural impact of terrorism has often been accounted for with rigid structural theories of its discursive roots But what about the performative effects of violence on discourse Addressing the issue of this mutual contagion *Terrorism and Modern Literature* shows that the mediation and effects of terrorism have been historically variable Referring to a variety of sources in addition to the literature newspaper and journal articles legislation letters manifestos the book shows how terrorism and the literature on it have been embroiled in wider cultural fields The result is not just a timely intervention in debates about terrorism's performativity Drawing on literary critical theory and philosophy it is also a major contribution to debates about the historical and political dimensions of modernist and postmodernist literary practices **Encyclopedia of**

Radio 3-Volume Set Christopher H. Sterling, 2004-03-01 Produced in association with the Museum of Broadcast Communications in Chicago the *Encyclopedia of Radio* includes more than 600 entries covering major countries and regions of the world as well as specific programs and people networks and organizations regulation and policies audience research and radio's technology This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old with essays that provide essential information on the subject as well as comment on the significance of the particular person organization or topic being examined *What Did You Do During the War?* Richard

Griffiths, 2016-10-04 This book is a sequel to Richard Griffiths's two highly successful previous books on the British pro Nazi Right Fellow Travellers of the Right British Enthusiasts for Nazi Germany 1933-39 and Patriotism Perverted Captain Ramsay the Right Club and British Anti-Semitism 1939-1940 It follows the fortunes of his protagonists after the arrests of May/June 1940 and charts their very varied reactions to the failure of their cause while also looking at the possible reasons for the Government's failure to detain prominent pro Nazis from the higher strata of society Some of the pro Nazis continued with their original views and even undertook politically subversive activity here and in Germany Others finding that their pre-war balance between patriotism and pro Nazism had now tipped firmly on the side of patriotism fully supported the war effort

while still maintaining their old views privately Other people found that events had made them change their views sincerely And then there were those who frightened by the prospect of detention or disgrace tried to hide or even to deny their former views by a variety of subterfuges including attacking former colleagues This wide variety of reactions sheds new light on the equally wide range of reasons for their original admiration for Nazism and also gives us some more general insight into what could be termed the psychology of failure Heritage Comics Dallas Signature Auction Catalog #820 Ivy Press,2006-03
