World with Historical Fiction and Folktales is the only way to travel      Whooping Crane Klaus Nigge, 2010-08-16

Approximately 250 wild whooping cranes nest in northern Canada and winter in south Texas flying 2 500 miles annually between these two distinct havens the coastal marshes of the Gulf of Mexico and the boreal wilderness on the border of Alberta and the Northwest Territories Through twists of good fortune each of these terminal migratory places is protected from human encroachment by a U S national wildlife refuge on the one hand and a Canadian national park on the other This last remaining natural flock of the species its numbers small but slowly increasing has thus become known by the names of its sanctuaries Aransas Wood Buffalo On the flock s wintering grounds at Aransas National Wildlife Refuge in Texas photographer Klaus Nigge has captured the daily activity of a single family over several weeks in two separate years documenting their life in the salt marshes of the central Texas coast and in one year the happy arrival from the north of twin adolescents itself an unusual event Then with the backing of National Geographic magazine he received unprecedented permission from the Canadian government to photograph the cranes summer nesting sites in remote areas of Wood Buffalo National Park To obtain these unique photographs he sat in a cleverly constructed blind for six days and nights watching as a chick hatched and the adults cared for their young There he witnessed both the peace and the perils of the cranes summer haven In three galleries each containing portfolios of images of these magnificent birds in their natural habitat Nigge captures the beauty and essential mystery that have led humans the world over to include cranes in their earliest myths and legends Additionally Nigge has written vignettes to accompany each of the portfolios Krista Schlyer provides an introductory text that affords an overview of crane history She chronicles the monumental efforts by humans to ensure the survival of the species and has added a profile of Nigge outlining his extraordinary entry into the world of wild whooping cranes in order to acquire these breathtaking photographs
