Revolutionary Spring Christopher Clark, 2024-06-11 New York Times Book Review Editors Choice From the bestselling author of *The Sleepwalkers* comes an epic history of the 1848 revolutions that swept Europe and the charismatic figures who propelled them forward Refreshingly original Familiar characters are given vibrancy and previously unknown players emerge from the shadows The Times UK A BEST BOOK OF THE YEAR New Yorker The Economist Financial Times As history the uprisings of 1848 have long been overshadowed by the French Revolution of 1789 and the Russian revolutions of the early twentieth century And yet in 1848 nearly all of Europe was aflame with conflict Parallel political tumults spread like brush fire across

the entire continent leading to significant changes that continue to shape our world today These battles for the future were fought with one eye kept squarely on the past The men and women of 1848 saw the urgent challenges of their world as shaped profoundly by the past and saw themselves as inheritors of a revolutionary tradition Celebrated Cambridge historian Christopher Clark describes 1848 as the particle collision chamber at the center of the European nineteenth century a moment when political movements and ideas from socialism and democratic radicalism to liberalism nationalism corporatism and conservatism were tested and transformed The insurgents asked questions that sound modern to our ears What happens when demands for political or economic liberty conflict with demands for social rights How do we reconcile representative and direct forms of democracy How is capitalism connected to social inequality The revolutions of 1848 were short lived but their impact on public life and political thought throughout Europe and beyond has been profound Meticulously researched elegantly written and filled with a cast of charismatic figures including the social theorist Alexis de Tocqueville the writer George Sand and the troubled priest Flicit de Lamennais who struggled to reconcile his faith with politics Revolutionary Spring offers a new understanding of 1848 that suggests chilling parallels to our present moment Looking back at the revolutions from the end of the first quarter of the twenty first century it is impossible not to be struck by the resonances Clark writes If a revolution is coming for us it may look something like 1848 Lorenzo De' Medici, the Magnificent Alfred

Egerton offers a sweeping chronicle of African American history stretching from Britain's 1763 victory in the Seven Years War to the election of slaveholder Thomas Jefferson as president in 1800 While American slavery is usually identified with antebellum cotton plantations Egerton shows that on the eve of the Revolution it encompassed everything from wading in the South Carolina rice fields to carting goods around Manhattan to serving the households of Boston's elite More important he recaptures the drama of slaves freed blacks and white reformers fighting to make the young nation fulfill its republican slogans Although this struggle often unfolded in the corridors of power Egerton pays special attention to what black Americans did for themselves in these decades and his narrative brims with compelling portraits of forgotten African American activists and rebels who battled huge odds and succeeded in finding liberty if never equality only in northern states Egerton concludes that despite the real possibility of peaceful if gradual emancipation the Founders ultimately lacked the courage to end slavery
