The New York Times bestselling meticulously researched and absorbingly written The Washington Post story of the trailblazers and the ordinary Americans on the front lines of the epic Apollo 11 moon mission President John F Kennedy astonished the world on May 25 1961 when he announced to Congress that the United States should land a man on the Moon by 1970 No group was more surprised than the scientists and engineers at NASA who suddenly had less than a decade to invent space travel When Kennedy announced that goal no one knew how to navigate to the Moon No one knew how to build a rocket big enough to reach the Moon or how to build a computer small enough and powerful enough to fly a spaceship

there No one knew what the surface of the Moon was like or what astronauts could eat as they flew there On the day of Kennedy s historic speech America had a total of fifteen minutes of spaceflight experience with just five of those minutes outside the atmosphere Russian dogs had more time in space than US astronauts Over the next decade more than 400 000 scientists engineers and factory workers would send twenty four astronauts to the Moon Each hour of space flight would require one million hours of work back on Earth to get America to the Moon on July 20 1969 A veteran space reporter with a vibrant touch nearly every sentence has a fact an insight a colorful quote or part of a piquant anecdote The Wall Street Journal and in One Giant Leap Fishman has written the sweeping definitive behind the scenes account of the furious race to complete one of mankind s greatest achievements It s a story filled with surprises from the item the astronauts almost forgot to take with them the American flag to the extraordinary impact Apollo would have back on Earth and on the way we live today From the research labs of MIT where the eccentric and legendary pioneer Charles Draper created the tools to fly the Apollo spaceships to the factories where dozens of women sewed spacesuits parachutes and even computer hardware by hand Fishman captures the exceptional feats of these ordinary Americans It s been 50 years since Neil Armstrong took that one small step Fishman explains in dazzling form just how unbelievable it actually was Newsweek The Trekker's Guide to the Next Generation Hal Schuster, 1996 1966 The first Star Trek pilot The Cage is aired 1977 Star Trek II a new television show featuring the original cast is proposed and never made 1979 Star Trek The Motion Picture the first in what would become a long line of feature films is released 1987 A totally new Star Trek television show premieres a show that would become one of the most popular syndicated series of all time spawn two more Trek inspired shows and start another series of successful feature films Star Trek The Next Generation is born and science fiction television is changed forever The Trekker s Guide to the Next Generation reveals what went into and was left out of the seven television seasons and two feature films about the crew of the second Enterprise Hal Schuster a long time prominent chronicler of the Star Trek phenomenon details just how the show was created and how it changed following the death of Star Trek originator Gene Roddenberry He traces the history of The Next Generation from the cancellation of a popular program to the beginnings of a box office serial smash Using information culled from interviews the show s own bible and other sources The Trekker s Guide to The Next Generation takes you inside the popular phenomenon Read character profiles and biographies of the actors who brought them to life Get plot summaries for each of the 177 television episodes plus guest stars innovations and bloopers Learn what happened between James T Kirk s command and the debut of the new Enterprise with Captain Jean Luc Picard at the helm Review Star Trek science comparing factual physics and the writers flights of fancy Totally unauthorized and uncensored The Trekker s Guide to The Next Generation tells you what the producers at Paramount Pictures don t want you to know About the Author Hal Schuster is the author of The Trekker s Guide to Voyager Prima and Trek The Unauthorized A to Z He is the former editor and publisher of Enterprise Incidents and Comics Features magazines This book was not approved prepared

Olson,CarrieLynn D. Reinhard,2020-05-29 Reaching back to the beginnings of television The Greatest Cult Television Shows offers readers a fun and accessible look at the 100 most significant cult television series of all time compiled in a single resource that includes valuable information on the shows and their creators While they generally lack mainstream appeal cult television shows develop devout followings over time and exert some sort of impact on a given community society culture or even media industry Cult television shows have been around since at least the 1960s with Star Trek perhaps the most famous of that era However the rise of cable contributed to the rise of cult television throughout the 1980s and 1990s and now with the plethora of streaming options available more shows can be added to this categorization Reaching back to the beginnings of television the book includes such groundbreaking series as The Twilight Zone and The Prisoner alongside more contemporary examples like Crazy Ex Girlfriend and Hannibal The authors provide production history for each series and discuss their relevance to global pop culture To provide a more global approach to the topic the authors also consider several non American cult TV series including British Canadian and Japanese shows Thus Monty Python s Flying Circus appears alongside Sailor Moon and Deglassi Junior High Additionally to move beyond the conception of cult as a primarily white heteronormative fanboy obsession the book contains shows that speak to a variety of cult audiences and experiences such as Queer as Folk and Charmed With detailed arguments for why these shows

deserve to be considered the greatest of all time Olson and Reinhard provide ideas for discussion and debate on cult television Each entry in this book demonstrates the importance of the 100 shows chosen for inclusion and highlights how they offer insight into the period and the cults that formed around them Library Journal ,1989 **Star Trek: First Contact** J.M.
