How Race Is Made Mark M.

Smith,2006-12-08 For at least two centuries argues Mark Smith white southerners used all of their senses not just their eyes to construct racial difference and define race His provocative analysis extending from the colonial period to the mid twentieth century shows how whites of all classes used the artificial binary of black and white to justify slavery and erect the political legal and social structure of segregation Based on painstaking research *How Race Is Made* is a highly original always frank and often disturbing book After enslaved Africans were initially brought to America the offspring of black and white sexual relationships consensual and forced complicated the purely visual sense of racial typing As mixed race people became more and more common and as antebellum race based slavery and then postbellum racial segregation became central to southern society white southerners asserted that they could rely on their other senses touch smell sound and taste to identify who was white and who was not Sensory racial stereotypes were invented and irrational but at every turn Smith shows these constructions of race immune to logic signified difference and perpetuated inequality Smith argues that the history of southern race relations and the construction of racial difference on which that history is built cannot be understood fully on the basis of sight alone In order to come to terms with the South s past and present Smith says we must explore the sensory dynamics underpinning the deeply emotional construction of race *How Race Is Made* takes a bold step toward that understanding

Civil Wars, Civil

Beings, and Civil Rights in Alabama's Black Belt Bertis D. English,2020-10-06 Reconstruction politics and race relations

between freed blacks and the white establishment in Perry County Alabama In his fascinating in depth study Bertis D English analyzes why Perry County situated in the heart of a violence prone subregion of Alabama enjoyed more peaceful race relations and less bloodshed than several neighboring counties Choosing an atypical locality as central to his study English raises questions about factors affecting ethnic disturbances in the Black Belt and elsewhere in Alabama He also uses Perry County which he deems an anomalous county to caution against the tendency of some scholars to make sweeping generalizations about entire regions and subregions English contends Perry County was a relatively tranquil place with a set of extremely influential African American businessmen clergy politicians and other leaders during Reconstruction Together with egalitarian or opportunistic white citizens they headed a successful campaign for black agency and biracial cooperation that few counties in Alabama matched English also illustrates how a significant number of educational institutions a high density of African American residents and an unusually organized and informed African American population were essential factors in forming Perry County s character He likewise traces the development of religion in Perry the nineteenth century Baptist capital of Alabama and the emergence of civil rights in Perry an underemphasized center of activism during the twentieth century This well researched and comprehensive volume illuminates Perry County s history from the various perspectives of its black interracial and white inhabitants amplifying their own voices in a novel way The narrative includes rich personal details about ordinary and affluent people both free and unfree creating a distinctive resource that will be useful to scholars as well as a reference that will serve the needs of students and general readers Catalogue of the Library of John H.
