Authenticity and Authentication of Heritage Deepak Chhabra, 2021-05-27 Authenticity and Authentication of Heritage presents an assimilation of chapters that critically address some of the key emerging areas associated with authenticity It presents a variety of inspiring pieces of work that range from host guest authentication and intangible heritage to knowledge transfer processes authenticating heritage in fairy tale settings authenticity and anxiety in the smell of death and life understanding the boundaries of authenticity nostalgia sustainability marketing destination competitiveness examining affective connotations of authenticity and their contribution towards optimizing hedonic and eudaimonic well being during times of disruption The contentious concept of authenticity continues to be valorised in heritage tourism This scholarly initiative seeks to broaden the discursive parameters of authenticity and identify power mechanisms that shape the way authenticity is produced marketed and consumed This is an attempt to share contemporary views on how the contemporary notions of authenticity are derived interpreted applied processed and legitimised in local and global contexts Furthermore the significant relationship between health and authenticity is explored To put it simply this pandemic has significantly halted the way people connect with their cultural resources and seek authenticity within their inner selves and the outside realms in the heritage tourism system Heightened sense of global consciousness is a call to polish our authentic selves and elevate above

inauthenticity or moral hypocrisy So is authenticity an evolving story or is it a story of floating immobility Who can tell the story and who decides what elements to fossilise How can existentialist authenticity and self authentication promote moral selfing and well being of the self and the society Many questions like these have emerged in recent literature and this book uses conceptual empirical and theoretical explorations to identify and engage with such inquiries The chapters in this book except for the concluding chapter were originally published as a special issue of the Journal of Heritage Tourism

Unlocking the Love-Lock Ceri Houlbrook, 2021-01-13 Explores the worldwide popularity of the love lock as a ritual token of love and commitment by considering its history symbolism and heritage This is an eminently enjoyable and thorough investigation of a popular phenomenon through the lens of heritage and folk tradition Sara De Nardi Western Sydney University A padlock is a mundane object designed to fulfil a specific and secular purpose A contemporary custom has given padlocks new significance This custom is love locking where padlocks are engraved with names and attached to bridges in declaration of romantic commitment This custom became popular in the 2000s and its dissemination was rapid geographically unbound and highly divisive with love locks emerging in locations as diverse as Paris and Taiwan New York and Seoul Melbourne and Moscow From the introduction I was distractedly perusing the photo frame aisle my eyes skimming the generically sentimental stock pictures of happy families smiling at the camera pretty landscapes cute pets and couples walking hand in hand when I came across one that jumped out at me I recognised the image instantly as a photograph of love locks the padlocks that had been appearing en masse on bridges and other public structures on a global scale since the early 2000s And having been researching the custom known as lovelocking for about five years at that point it was with a peculiar sense of pride that I realised love locks had accomplished the status of a stock image

End of the Megafauna: The Fate of the World's Hugest, Fiercest, and Strangest Animals Ross D E MacPhee, 2018-11-13 The fascinating lives and puzzling demise of some of the largest animals on earth Until a few thousand years ago creatures that could have been from a sci fi thriller including gorilla sized lemurs

500 pound birds and crocodiles that weighed a ton or more roamed the earth. These great beasts or megafauna lived on every habitable continent and on many islands. With a handful of exceptions, all are now gone. What caused the disappearance of these prehistoric behemoths? No one event can be pinpointed as a specific cause, but several factors may have played a role. Paleomammalogist Ross D. E. MacPhee explores them all, examining the leading extinction theories, weighing the evidence, and presenting his own conclusions. He shows how theories of human overhunting and catastrophic climate change fail to account for critical features of these extinctions and how new thinking is needed to elucidate these mysterious losses. Along the way, we learn how time is determined in earth history, how DNA is used to explain the genomics and phylogenetic history of megafauna, and how synthetic biology and genetic engineering may be able to reintroduce these giants of the past. Until then, gorgeous four color illustrations by Peter Schouten recreate these megabeasts here in vivid detail. **Det gyldne kompas**

Posthumanist perspectives on women's negotiation of affective body work and an autoethnographic account of how masculinity materialises through football, the mediation of gendered subjectivity through the digital physical cultures of cycling, as well as how decolonial and postcolonial approaches identify the gendered and racialised relations of power in sport.

for development and football campaigns aimed at women's empowerment The thread that connects these chapters is the doing of feminism as a generative knowledge practice that can transform ways of imagining knowing and affecting more equitable futures This feminist collection contributes to the movement of ideas and transformation of knowledge within and across sport and physical cultures Authors explore the power relations implicated in the gendered formation of physical cultures across leisure sport the arts tourism well being and various embodied practices from a range of disciplinary perspectives and theory method approaches The chapters in this book were originally published as a special issue of Leisure Sciences
