of help   **ILife '04 in a Snap** Jinjer L. Simon,2004 These days nobody really wants to learn everything there is to know about working with digital video images music and DVDs And even if you did who has the time to endlessly tinker and play with it until you figure everything out You just want a book that will quickly show you how to get things done A things that arenAt already covered in the docs and things you canAt just figure out on your own iLife in a Snap is designed specifically for todayAs computer user Somebody who is new to managing digital media with iLife but not new to Macs Somebody who doesnAt have time for long winded mind numbing explanations A and certainly no time or patience for bad jokes Organized into a series of well organized bite sized quickly accomplished tasks this book lets the reader zero right in on the one particular task he or she wants to accomplish quickly figure out what to do do it and then get back to work   The Photoshop Elements 3 Book for Digital Photographers Scott Kelby,2004-10-11 If you re ready for an Elements 3 book that breaks all the rules this is it because it does something for digital photographers that s never been done before it cuts through the bull and shows you exactly how to do it It tells you flat out which settings to use when to use them and why This book is not a bunch of theory it doesn t challenge you to come up with your own settings or figure things out on your own It gives you the same settings used by some of the top digital pros settings you can use today to get professional results you ve always dreamed of Plus since this book is designed for photographers it doesn t waste your time talking about how to frame a shot setting your exposure etc and there s no talk which camera or printer to buy It s all Elements step by step cover to cover in the only book of its kind and you re gonna love it Besides learning the inside tips and the tricks of the trade for correcting editing sharpening retouching and presenting your photos like a pro You ll learn how to unlock the power of all the new Elements 3 features including how to manage your photos using the new Organizer how to use the new pro tools like the Healing Brush and the Shadow Highlight controls and how to master the new Creation section to take your photos to an entirely new level Plus you ll see it all step by step in plain English and you ll be absolutely amazed at how easy and effective these techniques are once you know the secrets You ll learn The secrets of how the pros retouch portraits How to incorporate the amazing new features of Elements 3 into your work today How to color correct any photo without breaking a sweat you ll be amazed at how they do it How to repair and restore damaged photos The sharpening techniques the pros really use there s an entire chapter just on this Dealing with common digital camera image problems including removing noise and avoiding halos When to use Quick Fix and when to do to it yourself using our step by step methods The most requested photographic special effects and much more But besides all that this book has a secret weapon that makes it the most important most useful Elements book yet The reason is this although Elements 3 offers some digital photography features Photoshop CS doesn t offer there are plenty of features that Photoshop CS has that Elements 3 still doesn t have things like Layer Masking Channel Mixer etc But in this book you ll learn some slick workarounds cheats and some fairly ingenious ways to replicate many of those Photoshop features from right within Elements There s never been a book like it and if you re a digital

photographer using Photoshop Elements 3 this is the book you ve been waiting for **Mac OS X Panther in a Snap** Brian Tiemann,2004 Demonstrates the operating system s features including working with applications file management adding a printer accessing the Internet burning an audio CD importing photos from a digital camera and using iMovie **Macs For Dummies®** Edward C. Baig,2010-12-15 Updated to cover the new Intel based Macs Mac OS X Tiger and the latest Mac tools and trends this bestseller includes Mac basics customizing a workspace getting acquainted with Mac OS X going online working with iLife applications setting up e mail connecting an iPod to a Mac turning a Mac into a fax machine troubleshooting security and more USA Today Personal Technology columnist Edward Baig a longtime technology writer who appears regularly on TV radio and at major industry trade shows has rewritten this edition from scratch ensuring you get the up to date information you need Order your copy today **The Mac OS X Conversion Kit** Scott Kelby,2011-09-30 If you ve been using Mac OS 8 or OS 9 and you want to start using Mac OS X Panther today and we literally mean today there is no easier way than this ingenious new book from Mac Design magazine s Editor in Chief Scott Kelby Here s how the book works on the left page it shows how you did a particular task back in Mac OS 9 and on the right page it shows you exactly how it s now done in Mac OS X Panther It couldn t be easier The whole book every page is in crisp full color with clear concise plain English descriptions that let you start using Mac OS X today immediately without having to learn the whole operating system first It s like having a friend nearby with all the answers when you get stuck and wonder how to I do that in Mac OS X just turn to that task and there it is the left page shows the old way the right page shows the new way If you re one of those people who believe like we do that the best ideas are the simple ones you ll absolutely love this book If you want to start using Mac OS X today if you want to unlock its power stability features and fun today this is the book that will do it There are no in depth explanations about networking no UNIX commands or how to hack the system and no detailed descriptions of how it all works and why In short it s not a tell me all about it book it s a here s how to do it book and that s why it works so amazingly well Plus if you look up how to do a particular task and Mac OS X offers new features new shortcuts or new options that weren t available in Mac OS 8 9 and there are plenty in Panther Scott includes those too using the same right to the point conversational writing style that made his Mac OS X Killer Tips book a smash bestseller We can t imagine an easier faster or more fun way to convert to Mac OS X and really start using it today
