Shakespeare's Tragic Skepticism Millicent Bell,2008-10-01

Readers of Shakespeare's greatest tragedies have long noted the absence of readily explainable motivations for some of Shakespeare's greatest characters why does Hamlet delay his revenge for so long Why does King Lear choose to renounce his power Why is Othello so vulnerable to Iago's malice But while many critics have chosen to overlook these omissions or explain them away Millicent Bell demonstrates that they are essential elements of Shakespeare's philosophy of doubt Examining the major tragedies Millicent Bell reveals the persistent strain of philosophical skepticism Like his contemporary Montaigne Shakespeare repeatedly calls attention to the essential unknowability of our world In a period of social political and religious upheaval uncertainty hovered over matters great and small the succession of the crown the death of loved ones from plague the failure of a harvest Tumultuous social conditions raised ultimate questions for Shakespeare Bell argues and ultimately provoked in him a skepticism which casts shadows of existential doubt over his greatest masterpieces

Zender,2008-12 Shakespeare Midlife and Generativity is a study of relations between the generations in five of William Shakespeare's plays King Lear Macbeth Antony and Cleopatra The Winter's Tale and The Tempest The book draws on Erik Erikson's theory of generativity understood by Erikson as a midlife shift from advancing one's own career to aiding a younger generation to examine the difficulties Shakespeare's parents mainly fathers have in releasing power and authority to their children or to other young people **Opera Glass** ,1895 **Landscape with Figures** Malcolm Goldstein,2000-11-30 How did the United States become not only the leading contemporary art scene in the world but also the leading market for art The answer has to do not only with the talents of American artists or even the size of the American economy but also and especially the skills and entrepreneurship of American art dealers Their story has not been told until now Landscape with Figures is the first history of art dealing in the

United States following the profession from eighteenth century portrait and picture salesmen in the colonies to the high profile jet set gallery owners of today Providing anecdotal and carefully researched biographies of the prominent dealers from more than two centuries of trade author Malcolm Goldstein shows how magnanimous personalities and social networking helped to shape the way Americans have bought and valued art These dealers range from Michael Paff whose enthusiasm often overshadowed his expertise but nonetheless helped him sell faux Old Master paintings to major collectors in the early nineteenth century to the imperious Joseph Duveen dealer to magnates like Henry Clay Frick to visionary Leo Castelli who helped to usher in a revolution in modern art during the 1960s by showing such avant garde artists as Jasper Johns Robert Rauschenberg and Andy Warhol Goldstein also shows that the American art trade while male dominated has been galvanized by female dealers including the inimitable Edith Gregor Halpert Peggy Guggenheim and Mary Boone Their fascinating stories unfold in the context of world art history the rise of major art institutions like the Museum of Modern Art and the Whitney Museum and the growing zeal of art collectors who would eventually pay millions for individual works of art Unprecedented and critical to understanding today s art world Landscape with Figures is a must for artists art history students and art lovers
