nothing more than these admirable pavements its name would still deserve a place in the roll of the most prominent majolica factories The possibility of this work having been executed in Faenza as is the case with the Bologna and other pavements cannot be entertained It must be acknowledged however that the influence of Faenza Castel Durante Gubbio etc is unmistakable The painters who collaborated in the completion of this gigantic task had been trained in one or the other of these high schools of ceramic painting each painter has confined his contribution to the general scheme to the introduction of unchanged reminiscences of the style he was wont to practise in former days The result is an immense variety of detail a richness of motives unparalleled in a work of such magnitude But from a medley of designs and effects of colours which taken separately remind us of tastes and modes of treatment peculiar to other places it is almost impossible to determine what could be the characteristics of *A History and Description of Italian Majolica* L. M. Solon, 2019-10 This book has been considered by academicians and scholars of great significance and value to literature This forms a part of the knowledge base for future generations So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published Hence any marks or annotations seen are left intentionally to preserve its true nature
