## **Major Problems In American History Since 1945 Documents And Essays:**

Major Problems in American History Since 1945 Robert Griffith,1992      *Major Problems in American History, 1920-1945* Colin Gordon,2011 This collection of primary source documents and essays provides in depth coverage of the cultural social political economic and intellectual events of the 1920 1945 era In keeping with the proven strengths of the Major Problems series the compelling documents are grouped with important secondary sources accompanied by chapter introductions selection headnotes and suggested readings      **Philip Roth and the American Liberal Tradition** Andy Connolly,2017-09-20 Philip Roth and the American Liberal Tradition offers a fresh reading of the later career development of one of America s most celebrated authors Through a contextual analysis of a select number of texts this innovative study discusses how famed novels such as *American Pastoral* and *The Plot against America* demonstrate Philip Roth s considerable interest in mapping by means of his unique literary talent the changing shape and fortunes of American liberalism since the 1930s By viewing these novels and other seminal works of his later period through a wider historical lens this book informs readers of the myriad ways in which Roth s major phase of writing since the mid 1990s has shown considerable concern with questions of class ethnicity race gender and literary culture all of which have been key components in the shifting intellectual and political makeup of American liberal ideology from the New Deal to our present time This book goes beyond a mere historical analysis by taking a new look at how Roth s experimentations in narrative style and his appeal to ahistorical notions of literary tradition rest in complex alignment with his fictional treatment of aspects of American history This novel work of criticism demonstrates a heightened awareness of Roth s career length fascination with the formal characteristics of fiction making clear to its audience that any reductively linear reading of Roth as a political novelist should be avoided at all costs Ultimately Philip Roth and the American Liberal Tradition offers a stimulatingly intelligent approach to the art of one of America s true literary titans providing the focused reader with a nuanced understanding of how Roth s fiction has been shaped by the various competing strains in his dual roles as a disinterested formalist aesthete on the one hand and as a politically engaged author on the other      **The Political World of Bob Dylan** Jeff Taylor,Chad Israelson,2015-07-15 This work illuminates identifies and characterizes the influences and expressions of Bob Dylan s Political World throughout his life and career An approach nearly as unique as the singer himself the authors attempt to remove Dylan from the typical Left Right paradigm and place him into a broader and deeper context      *Major Problems in the History of American Families and Children* Anya Jabour,2005 Part of the Major Problems in American History series this text for courses in family history or history of childhood balances its discussion of marriage and gender relations with coverage on children and childhood Offering a thorough treatment of race ethnicity and class from colonial times to the present this edition grants sustained attention to Native Americans and Latinos Relating history to larger political events the text narrative balances coverage of public policy toward families with coverage of the experiences of family life      The Sixties in America M. J. Heale,2001 First

Published in 2001 Routledge is an imprint of Taylor Francis an informa company      **Social Issues in America** James Ciment,2015-03-04 Truly comprehensive in scope and arranged in A Z format for quick access this eight volume set is a one source reference for anyone researching the historical and contemporary details of more than 170 major issues confronting American society Entries cover the full range of hotly contested social issues including economic scientific environmental criminal legal security health and media topics Each entry discusses the historical origins of the problem or debate past means used to deal with the issue the current controversy surrounding the issue from all perspectives and the near term and future implications for society In addition each entry includes a chronology a bibliography and a directory of Internet resources for further research as well as primary documents and statistical tables highlighting the debates      **The Bush Leadership, the Power of Ideas, and the War on Terror** Dirk Nabers,2016-04-01 Foreign policy success or failure is often attributed to the role of leadership This volume explores the relationship between President George W Bush s leadership the administration s stated belief in the power of ideas and the ideas of power and its approach to the war on terror Drawing on the international expertise of ten American foreign policy and security specialists this incisive and timely book combines theoretical perspectives on political leadership with rigorous empirical analysis of selected aspects of the Bush administration s post 9 11 foreign policy As a result this book sheds considerable light not just on the limited impact of President Bush s war on terror strategy but also more importantly on why key ideas underpinning the strategy such as US global primacy and pre emptive war largely failed to gel in a globalizing world      *Major Problems in the History of World War II* Mark A. Stoler,Melanie S. Gustafson,2003 This text presents a carefully selected group of readings that allow students to evaluate primary sources test the interpretations of distinguished historians and draw their own conclusions The volume covers World War II from the homefront and the battlefield examining both the military and social impact of the war

**Cultures of Control** Miriam R. Levin,2005-06-27 This collection of essays explores the history of control by looking at a variety of cultural forms practices and beliefs These ideas are examined critically not only in the light of the possibilities which control technologies seem to offer for resolving human problems but also the contradictory moral political and economic consequences they have had The discussion takes into account the important modes in which humans have cast their organizational efforts political social psychological economic and legal It also takes a longue dur e view of the history of control looking back to the eighteenth and nineteenth centuries and establishes the continuities in the twentieth century as a transatlantic phenomenon      Politics, Society, and the Klan in Alabama, 1915-1949 Glenn Feldman,1999-09-24 This first book length examination of the Klan in Alabama represents exhaustive research that challenges traditional interpretations The Ku Klux Klan has wielded considerable power both as a terrorist group and as a political force Usually viewed as appearing in distinct incarnations the Klans of the 20th century are now shown by Glenn Feldman to have a greater degree of continuity than has been previously suspected Victims of Klan terrorism continued to be aliens foreigners or outsiders in

Alabama the freed slave during Reconstruction the 1920s Catholic or Jew the 1930s labor organizer or Communist and the returning black veteran of World War II were all considered a threat to the dominant white culture Feldman offers new insights into this qualified continuity among Klans of different eras showing that the group remained active during the 1930s and 1940s when it was presumed dormant with elements of the Reconstruction syndrome carrying over to the smaller Klan of the civil rights era In addition Feldman takes a critical look at opposition to Klan activities by southern elites He particularly shows how opponents during the Great Depression and war years saw the Klan as an impediment to attracting outside capital and federal relief or as a magnet for federal action that would jeopardize traditional forms of racial and social control Other critics voiced concerns about negative national publicity and others deplored the violence and terrorism This in depth examination of the Klan in a single state which features rare photographs provides a means of understanding the order s development throughout the South Feldman s book represents definitive research into the history of the Klan and makes a major contribution to our understanding of both that organization and the history of Alabama

### **On Thinking**

**Institutionally** Hugh Heclo,2011 The twenty first century mind deeply distrusts the authority of institutions It has taken several centuries for advocates of critical thinking to convince western culture that to be rational liberated authentic and modern means to be anti institutional In this mold breaking book Hugh Heclo moves beyond the abstract academic realm of thinking about institutions to the more personal significance and larger social meaning of what it is to think institutionally His account ranges from Michael Jordan s respect for the game of basketball to Greek philosophy from twenty first century corporate and political scandals to Christian theology and the concept of office and professionalism Think what you will about one institution or another but after Heclo no reader will be left in doubt about why it matters to think institutionally

**Major Problems in the Gilded Age and the Progressive Era** Leon Fink,2001 Designed for courses in the Gilded Age and Progressive Era the rise of industrial America and late 19th and early 20th century U S history Follows the highly successful Major Problems format allowing students to evaluate primary sources test interpretations and draw their own conclusions

**The Great Melding** Glenn Feldman,2015-08-31 The Great Melding War the Dixiecrat Rebellion and the Southern Road to America s New Conservatism is the second book in Glenn Feldman s groundbreaking series on how the American South switched its allegiance from the Democratic to the Republican Party in the twentieth century

Politics on a Human Scale Jeff Taylor,2013-09-27 Featuring a foreword by Congressman Glen Browder Politics on a Human Scale examines political decentralization in the United States from the founding of the republic to the present Part of the desirable equilibrium is a sense of proportionality Some sizes some amounts some levels are more appropriate than others Decentralism is the best political tool to ensure equilibrium to promote proportionality and to obtain appropriate scale Power distribution should be as wide as possible Government functions should be as close to the people as practicable In this way individual human beings are not swallowed by a monstrous Leviathan Persons are not at the mercy of an impersonal

bureaucracy led by the far away few Decentralism gives us politics on a human scale It gives us more democracy within the framework of a republic The longest chapters in the book deal with crucial turning points in U S history specifically when decentralists lost the upper hand in the two major political parties Decentralism in our nation runs deep both intellectually and historically It also has considerable popular support Yet today it is a virtual political orphan In Washington neither major political party is serious about dispersing power to lower levels of government or to the people themselves Still there are dissident politicians and political movements that remain committed to the decentralist principle Power needs to be held in check partly through decentralization because power holds a great and dangerous attraction for humans Recognition of this human tendency is the first step in guarding against it and getting back on a better path **Rethinking the American**

**Anti-War Movement** Simon Hall,2012-04-23 Between 1965 and 1973 hundreds of thousands of ordinary Americans participated in one of the most remarkable and significant people s movements in American history Through marches rallies draft resistance teach ins civil disobedience and non violent demonstrations at both the national and local levels Americans vehemently protested the country s involvement in the Vietnam War Rethinking the American Anti War Movement provides a short accessible overview of this important social and political movement highlighting key events and key figures the movement s strengths and weaknesses how it intersected with other social and political movements of the time and its lasting effect on the country The book is perfect for anyone wanting to obtain an introduction to the Anti War movement of the twentieth century *Access to History: The American Dream: Reality and Illusion, 1945-1980 for AQA* Vivienne

Sanders,2015-10-02 Give your students the best chance of success with this tried and tested series combining in depth analysis engaging narrative and accessibility Access to History is the most popular trusted and wide ranging series for A level History students This title Supports the content and assessment requirements of the 2015 A level History specifications Contains authoritative and engaging content Includes thought provoking key debates that examine the opposing views and approaches of historians Provides exam style questions and guidance for each relevant specification to help students understand how to apply what they have learnt This title is suitable for a variety of courses including AQA The American Dream Reality and Illusion 1945 1980 **Emotions in American History** Jessica C. E. Gienow-Hecht,2010-04-01 The study

of emotions has attracted anew the interest of scholars in various disciplines igniting a lively public debate on the constructive and destructive power of emotions in society as well as within each of us Most of the contributors to this volume do not hail from the United States but look at the nation from abroad They explore the role of emotions in history and ask how that exploration changes what we know about national and international history and in turn how that affects the methodological study of history In particular they focus on emotions in American history between the 18th century and the present in war in social and political discourse as well as in art and the media In addition to case studies the volume includes a review of their fields by senior scholars who offer new insights regarding future research projects **The North**

**American West in the Twenty-First Century** Brenden W. Rensink, 2022-11 In 1893 Frederick Jackson Turner famously argued that the generational process of meeting and conquering the supposedly uncivilized western frontier is what forged American identity In the late twentieth century new western historians dissected the mythologized western histories that Turner and others had long used to embody American triumph and progress While Turner's frontier is no more the West continues to present America with challenging processes to wrestle, navigate and overcome The North American West in the Twenty First Century edited by Brenden W Rensink takes stories of the late twentieth century modern West and carefully pulls them toward the present explicitly tracing continuity with or unexpected divergence from trajectories established in the 1980s and 1990s Considering a broad range of topics including environment Indigenous peoples geography migration and politics these essays straddle multiple modern frontiers not least of which is the temporal frontier between our unsettled past and uncertain future These forays into the twenty first century West will inspire more scholars to pull histories to the present and by doing so reinsert scholarly findings into contemporary public awareness

**The Theater Will Rock** Elizabeth Lara Wollman, 2010-06-02 A much needed study of the impact of rock music on the musical theater and its resulting challenges complexities failures and successes Anyone interested in Broadway will learn a great deal from this book William Everett author of The Musical A Research Guide to Musical Theatre As Wollman weaves her historical narrative she compellingly returns to the conflict between the aesthetics and ideologies of rock music and the disciplined and commercial practices of the musical stage Theatre Research International This well written account puts the highs and lows of producing staged rock musicals in New York City into perspective and is well worth reading for the depth of insight it provides Studies in Musical Theatre The tumultuous decade of the 1960s in America gave birth to many new ideas and forms of expression among them the rock musical An unlikely offspring of the performing arts the rock musical appeared when two highly distinctive and American art forms joined onstage in New York City The Theater Will Rock explores the history of the rock musical which has since evolved to become one of the most important cultural influences on American musical theater and a major cultural export Despite the genre's influence and fame there are still some critics who claim that the term rock musical is an oxymoron The relationship between rock and the musical theater has been stormy from the start and even the comparatively recent success of Rent has done little to convince theater producers that rock musicals are anything but highly risky ventures Elizabeth L Wollman explores the reasons behind these problematic connections and looks at the socioeconomic forces that underlie aesthetic decisions She weighs the influence on the rock musical by mass media sound and recording technology and the economic pressures that have affected New York theater in general over the past three decades Finally Wollman offers a meditation on the state of the musical its relation to rock and ultimately its future Packed with candid commentary by members of New York's vibrant theater community The Theater Will Rock traces the rock musical's evolution over nearly fifty years in popular productions such as Hair The Who's Tommy Jesus Christ Superstar The Rocky Horror Picture Show

Little Shop of Horrors Rent and Mamma Mia and in notable flops such as The Capeman Elizabeth L Wollman is Assistant Professor of Music at Baruch College of the City University of New York

## Unveiling the Magic of Words: A Review of "**Major Problems In American History Since 1945 Documents And Essays**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**Major Problems In American History Since 1945 Documents And Essays**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve to the book is central themes, examine its distinctive writing style, and assess its profound affect the souls of its readers.
