The Oxford Guide to Ideas & Issues of the Bible Bruce M. Metzger, Michael D. Coogan, 2001-12-20. The Bible has been a rich source of inspiration for two thousand years, one of the great wellsprings of Western civilization. In *The Oxford Guide to Ideas and Issues of the Bible*, dozens of eminent scholars explore how the Bible has influenced our religious, ethical, artistic and philosophical traditions. Here are more than two hundred alphabetically arranged entries that explore key aspects of the Bible and its teachings. The contributors examine what the Bible says about timeless issues such as adultery and abortion, divorce and drunkenness, marriage and murder, suffering and temptation, and they discuss religious concepts found in the Bible ranging from incarnation, sin and grace to baptism, ethics and the Holy Spirit. The book also considers the wider intellectual world, examining the Bible's influence on Western law and medicine and it looks at how the Bible has been viewed by thinkers such as Marx and Freud and by fields such as social science and archaeology. Thoughtful essays also analyze the Bible's influence on human creativity in areas such as music, dance, art and literature; the latter includes an extensive discussion of the impact of the Bible on American writing from Cotton Mather to Saul Bellow. There is even an article on everyday expressions from the Bible ranging from the love of money is the root of all evil to such common sayings as the skin of one's teeth, at one's wit's end and you can't take it with you. *The Oxford Guide to Ideas and Issues of the Bible* brings together a wealth of insight into the Bible's impact on our culture. It is an essential addition to any school or home library.

Roadside Religion Timothy Kandler Beal, 2005. In the summer of 2002, Timothy K. Beal loaded his family into a twenty-nine foot long motor home and hit the rural highways of America in search of roadside religious attractions: sites like the World's Largest Ten Commandments, Golgotha Fun Park and Precious Moments Chapel. Why he wanted to know would someone use miniature golf to tell the story of the Creation. Or build

a life size replica of Noah's ark in Maryland As a scholar Beal hoped to come to understand the meaning of these places as expressions of religious imagination and experience But as someone who had grown up in an evangelical Christian church in which he no longer rested comfortably Beal found himself driven by a desire to venture beyond the borders of his cynicism to encounter faith in all its awesome absurdity And so he found himself deep in conversation with people like Bill Rice whose Cross Garden features thousands of makeshift crosses and old air conditioners bearing the message NO ICE WATER IN HELL FIRE HOT Part travel narrative part religious study and part search for the divine madness that is faith Roadside Religion takes the reader on a tour of the strange and often wondrous ways people have tried to give outward form to their inner religious experiences Religion is most interesting and most revealing Beal shows us where it's least expected **G. Suspensions about the integration of Islam into European cultures have been steadily on the rise and dramatically so since 9/11 One reason lies in the visibility of anti-Western Islamic discourses of salafi origin which have monopolized the debate on the true Islam not only among Muslims but also in the eyes of the general population across Europe these discourses combined with Islamophobic discourses reinforce the so-called incompatibility between the West and Islam This book breaks away from this clash between Islam and the West by arguing that European Islam is possible It analyzes the contribution that European Islam has made to the formation of an innovative Islamic theology that is deeply ethicist and modern and it clarifies how this constructed European Islamic theology is able to contribute to the various debates that are related to secular liberal democracies of Western Europe Part I introduces four major projects that defend the idea of European Islam from different disciplines and perspectives politics political theology jurisprudence and philosophy Part II uses the frameworks from three major philosophers and scholars to approach the idea of European Islam in the context of secular liberal societies British scholar George Hourani Moroccan philosopher Taha Abderrahmane and the American philosopher John Rawls The book shows that the ongoing efforts of European Muslim thinkers to revisit the concept of citizenship and political community can be seen as a new kind of political theology in opposition to radical forms of Islamic thinking in some Muslim majority countries Opening a new path for examining Islamic thought in and of Europe this book will appeal to students and scholars of Islamic Studies Islam in the West and Political Theology *Introduction to Wolfhart Pannenberg's Systematic Theology* Gunther
