online exhaustion of IP rights As commerce is increasingly moving online the respective chapters consider the extent to which exhaustion and similar concepts have adapted to these rapid changes The comprehensive and insightful international report brings together these reflections by comparing various national positions The book also includes the resolutions passed by the General Assembly of the LIDC following a debate on each of these topics which include proposed solutions and recommendations The international League of Competition Law LIDC is a long standing international association that focuses on the interface between competition law and intellectual property law including unfair competition issues Routledge Handbook of Applied Communication Research Lawrence R. that press freedom is mainly a negative liberty The book explores the affirmative side of Article 10 of the European Convention on Human Rights to guarantee press freedom that is not merely illusory but practical and effective Convention jurisprudence has not only influenced the domestic courts of the Contracting Parties but also the legislators of the Member States In an era of globalization dominant media operators wield power in their own domestic markets to impede national regulators in adopting interventionist media policies to secure journalistic freedoms The Convention jurisprudence represents a kind of European ius commune which is here set in the context of an analysis reflecting the problems and values at issue and offering recommendations to alleviate a situation which threatens democratic ideals and public spirited journalism Media Freedom as a Fundamental Right Jan Oster, 2015-05-28 Jan Oster develops a coherent theoretical and doctrinal framework for the scope content and limitations of media freedom
