Tennyson, (Robert) Browning, (Matthew) Arnold [Teils.]. Alfred Lord Tennyson, 1973

The Major Victorian Poets: Reconsiderations (Routledge Revivals) Isobel Armstrong, 2013-06-17 First published in 1969 this edition collection brings together a series of essays offering a re evaluation of Victorian poetry in the light of early 20th Century criticism The essays in this collection concentrate upon the poets whose reputations suffered from the great redirection of energy in English criticism initiated in this century by Eliot Richards and Leavis What theses poets wrote about the values they expressed the form of the poems the language they used all these were examined and found wanting in some radical way One of the results of this criticism was the renewal of interest in metaphysical and eighteenth century poetry and corresponding ebb of enthusiasm for Romantic poetry and for Victorian poetry in particular Most of the essays in this book take as their starting point questions raised by the debate on Victorian poetry both earlier in this century and in the more recent past There are essays on the poetry of Tennyson Browning and Arnold on that of Clough who until recently has been neglected and Hopkins because of rather than in spite of the fact that he is usually considered to be a modern poet The volume is especially valuable in that it will give a clearer understanding of the nature of Victorian poetry concentrating as it does on those areas of a poet's work where critical discussion seems most necessary **Victorian Poetry and the Culture of Evaluation** Clara Dawson, 2020 Demonstrates how periodicals newspapers and annuals influenced Victorian poetry and offers fresh interpretations of central Victorian poets including Tennyson Barrett Browning Browning Arnold Landon and Clough

Excavating Victorians Virginia Zimmerman, 2009-01-08 Excavating Victorians examines nineteenth century Britain's reaction to the revelations about time and natural history provided by the new sciences of geology and archaeology The Victorians faced one of the greatest paradigm shifts in history the bottom dropped out of time and they had to reinvent their relationship to the earth and to time and history These new sciences took the Victorians by storm inundating them with fossils skeletal remains and potsherds artifacts or traces that served at once as relics from the past objects in the present and markers of time's passage Virginia Zimmerman explores how the Victorians utilized a nexus of literature excavation and reflections on time to ease anxieties about the individual's fate in the face of time's overwhelming expanse The function of artifacts is also considered through careful readings of Tennyson's *The Princess* and Dickens's *Little Dorrit* and *Our Mutual Friend* Zimmerman shows how these literary works make use of the language tropes and even generic conventions of excavation and how they participate in the effort to rescue the individual from temporal insignificance *Victorian Poetry in Context* Rosie Miles, 2013-07-04 Victorian Poetry in Context offers a lively and accessible introduction to the diverse range of

poetry written in the Victorian period Considering such issues as reform and protest gender science and belief this book sets out the social and cultural contexts for the poetry of a fast changing era Sections on Victorian poetics form and Victorian voices introduce the key literary contexts of poetry s production and poetic innovations of the period such as the dramatic monologue are highlighted At the heart of the book is a focus on the importance of attentive close reading with original readings offered of well known texts alongside those that have recently received renewed attention within scholarship The book also offers an overview of critical approaches to several key texts and discussion of how Victorian poetry has remained influential in the twentieth and twenty first centuries Introducing texts contexts and criticism this is a lively and up to date resource for anyone studying Victorian poetry **Gerard Manley Hopkins and Victorian Catholicism** Jill

English Writers B. A. Sheen,2004 English Writers A Bibliography with Vignettes **Browning's Beginnings** Herbert F. Tucker Jr.,1980-12-31 Browning s Beginnings was first published in 1980 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Browning s Beginnings offers a fresh approach to the poet who among major Victorians has proved at once the most congenial and most inscrutable to modern readers Drawing on recent developments in literary theory and in the criticism of romantic poetry Herbert F Tucker Jr argues that Browning s stylistic obscurity is the result of a principled poetics of evasion This art of disclosure in deferring formal and semantic finalities constitutes an aesthetic counterpart to his open ended moral philosophy of incompleteness Browning s poems like his enormously productive career find their motivation and sustenance in his optimistic love of the future a love that is indistinguishable from his lifelong fear that there will be nothing left to say The opening chapters trace the workings of Browning s art of disclosure with extensive and original interpretations of the unduly neglected early poems Pauline Paracelsus and Sordello and place special emphasis on Browning s attitudes toward poetic tradition and language A chapter on Browning s attitudes toward poetic tradition and language A chapter on Browning s plays identifies dynamics of representation in Pippa Passes Strafford and King Victor and King Charles Tucker discusses the pervasive analogy between Browning s ideas about poetic representation and about

representation in its erotic and religious aspects and shows how the early poems and plays illustrate correlative developments in poetics and in the exploration and dramatic rendering of human psychology The remaining chapters follow the poetic psychology of Browning to its culmination in the great poems of his middle years exemplary readings of selected dramatic lyrics and monologues suggest that the ways of meaning in Browning's mature work variously bear out the sense of endlessness or perpetual initiation that is central to his poetic beginnings Tucker thus contends that the romantic and the Victorian Browning have more in common than is generally supposed and his book should appeal to students of both periods Its discussion of general literary issues poetic influence closure representation and meaning in application to particular texts should further recommend Browning's Beginnings to the nonspecialist reader interested in poetry and poetic theory *The Cult of the Ego* Eugene Goodheart, 2018-10-08 Goethe once remarked that every emancipation of the spirit is pernicious unless there is a corresponding growth of control This remark may be taken as a motto for Eugene Goodheart's study of an aspect of the cultural history of the past two hundred years In separate chapters on Rousseau Stendhal Goethe and Carlyle Dostoevsky Whitman Lawrence and Joyce Goodheart discovers a community of concern which he calls the cult of the ego All these writers examined here in one way or another deal with the emancipation of the spirit with all its promise and danger The characteristic attempt is to extend the boundaries of the self by going beyond the area of safety and thereby risking even the destruction of the self They advance the claims of the self at the same time seeking the controls that will secure these claims The artist hero becomes the central figure in Goodheart's volume since it is he who comes to exemplify the possibilities of the cult of the ego Their efforts Goodheart argues have ambiguous results The seeds of contemporary nihilism are in the failures of these writers to master the chaos of egoism which they helped engender But their heroism was partly in the effort of resistance moral religious aesthetic In a large portion of modern literature resistance has been abandoned either out of exhaustion or out of fascination with the destructive tendency of modern life in Beckett's phrase a world endlessly collapsing In his introduction to this first paperback edition Goodheart discusses the book's origin in relation to the counter cultural unrest of 1968 when it was first published and weighs its theme of the emancipated self against current postmodern assertions of the death of the author *The Cult of the Ego* is written with admirable clarity and economy Its interests are literary moral and political Moving freely and knowledgeably among various national literatures Goodheart has made an original and valuable contribution to the field of comparative literature Eugene Goodheart is Edytha Macy Gross Professor of Humanities Emeritus at Brandeis University Among his books are *Novel Practices* *Classic Modern Fiction* *Modernism and the Critical Spirit* *Culture and the Radical Conscience* and *Confessions of a Secular Jew A Memoir* all available from Transaction The academy ,1895
