

Make your home a safe zone!

All parents want their children to grow up healthy and strong in the place where they deserve to feel safest: at home.

Every year, more than **2,200 children** die in the U.S. from injuries that happen at home.

The good news is that there are simple and easy steps that families can take to protect their children.

Bedroom

Falls are the No. 1 cause of non-fatal injuries for children.

Safety tip: Install window guards to prevent children from falling out of windows.

Bathroom

Slips in the tub and on wet floors are common bathroom injuries.

Safety tip: Use non-skid decals or a rubber mat inside the tub. Dry the floor and your child's feet after a bath and discourage running in the bathroom.

Kitchen

Scald burns, caused by hot liquids, are the most common types of burn injuries among young children.

Safety tip: Always put pots on the back burner, out of reach of children, and turn handles away from the edge of the stove.

Living Room

Thirty-four percent of child fatalities from 2000-2013 due to TV tip-overs involved someone climbing on the furniture or TV.

Safety tip: Secure TVs to the wall using mounts, brackets, braces, anchors or wall straps to prevent tip-overs.

Yard

Each year, children suffer from lawn mower-related injuries.

Safety tip: Never let children ride as passengers on riding lawn mowers or garden tractors.

Pool

Pools are the most common place for a drowning to occur among children ages 1 to 4 years.

Safety tip: Whenever infants or toddlers are in or around water, an adult should be within arm's reach to provide active supervision.
